REPORT
OF THE
ADJUTANT GENERAL
OF THE
STATE OF CALIFORNIA,
FOR
THE YEARS 1872 AND 1873.

T. A. SPRINGER.....STATE PRINTER.

REPORT.

STATE OF CALIFORNIA, GENERAL HEADQUARTERS, }
Adjutant General's Office, Sacramento, July 31st, 1873. }

To His Excellency,
NEWTON BOOTH,
Governor and Commander-in-Chief:

SIR: As required by sections three hundred and thirty-two and two thousand one hundred and eight of the Political Code, I have the honor to submit to your Excellency the following report from the Adjutant General's department, from September first, Anno Domini eighteen hundred and seventy-one, to August first, Anno Domini eighteen hundred and seventy-three.

I.

A statement of all moneys received or disbursed.

II.

An account of all arms, accouterments, ammunition, and military property belonging to the State.

III.

The present condition of all such property.

IV.

The number and condition of the National Guard, and of the enrolled militia of the State.

THE PRESENT CONDITION OF THE MILITARY PROPERTY BELONGING TO THE STATE.

Under this head no detailed statement can be made—much of the property received by me, upon assuming the duties of my office, was in an unserviceable state. Considerable progress has been made in placing it in good condition. The work has progressed as rapidly as a limited amount of labor would permit. Unremitting attention is required to keep the arms and equipments in the State Armory from becoming utterly worthless.

The guns, muskets, accouterments, Quartermaster's property, clothing, etc., in possession of the National Guard, independent companies, citizens, University of California, and military academies, have had the best possible care, as reports of recent inspections attest, although it must be remembered that the natural wear and tear occasioned by constant use is year by year deteriorating from the value of the same.

FINANCES.

By reference to the financial table it will be perceived that for two years a deficiency has existed in the Military Fund. This should be provided for by the Legislature, as thereby injustice is done to the companies—they being often forced to wait for their monthly allowance, or to dispose of their warrants at a discount.

ARMS.

The question of arms is of paramount interest to the citizen soldier. Many of the Atlantic States have provided breech-loading guns for their militia; the General Government has adopted them for the regular army. The efficiency of this arm is such as almost to revolutionize the systems of warfare. With it, the soldier feels confident; without it, powerless. The fact that such a weapon is placed in his hands inspires him with interest and zeal in the performance of his duties, and if he is of any service—either for defense, or as an aid to the executive power—he should be rendered as efficient as possible. There are in the hands of the several companies, and in the State Armory, eight thousand seven

hundred and twenty-five muzzle-loading guns of different patterns. If these could be sold, and a small additional appropriation made, the National Guard might be equipped with breech-loading guns. I respectfully commend this subject to the consideration of the Commander-in-Chief and the Legislature.

In this connection it may not be amiss to call your attention to the energy displayed by the First Regiment, Second Brigade, in arming themselves, at their own expense, with breech-loading rifles. The efficiency of this regiment, as seen during a recent visit of your Excellency and Staff, is worthy of remark.

A joint resolution was passed by the Legislature, at its last session, calling the attention of our members of Congress to the fact that a quantity of arms, valued at two hundred and seventy-four thousand thirty-three and sixty-two one hundredths dollars, was issued by the General Government to the State of California, during the late war, for the purpose of quelling the rebellion; that a portion of said arms was thus expended, and others were destroyed by incendiary fires shortly after their issue, and that this amount was charged to the State of California in her account of annual quota of arms, due under Act of Congress, April twenty-third, eighteen hundred and eight. In view of which facts our members of Congress were asked to take some action to have the State relieved from this indebtedness. The following letter from the Hon. A. A. Sargent will show what action has been taken in the matter:

WASHINGTON, February 3d, 1873.

General L. H. Foote, Adjutant-General, California:

DEAR SIR: Legislation is necessary to any relief for the State in the matter of its arms; that I have fully satisfied myself of by frequent visits to the War Department on the subject. A bill is pending that will give the relief, and I hope it may pass, but fear not at this short session.

Yours truly,

A. A. SARGENT.

UNIFORMS.

Section nineteen hundred and twenty-three of the Political Code adopts the regulation uniform of the United States Army for the National Guard of California. On the thirtieth of January, A. D. eighteen hundred and seventy-three, General Orders No. 1, describing regulations for uniform and dress, was promulgated.

The last Legislature increased the monthly and yearly allowance to the companies, with the tacit understanding that as much as possible of these sums should be expended for uniforms. I am pleased to report that this has been very generally complied with. The First Regiment, Second Brigade, has procured regulation uniforms; the Second and Third Regiments, Second Brigade, have already made arrangements to do so. Many of the companies of the Fourth Brigade, as also many of the unattached companies, have purchased new uniforms.

The General Staff, regimental, and most of the company officers—in the matter of uniforms—have complied with section nineteen hundred and twenty-three of the Political Code. This material improvement has

been accomplished at great cost, and indicates the pride and interest taken by each member of the National Guard in its efficiency and advancement.

COMPANY NAMES.

Section nineteen hundred and fifty-eight of the Political Code permits each company to adopt a distinct name, like the multifarious uniforms heretofore in use. This is objectionable.

In the National Guard of older States names for companies have become obsolete, as experience proved them serious barriers to a complete unification of constituent parts of the battalion, and detrimental to the cultivation of regimental *esprit du corps*. I would recommend that the law be so amended that all attached companies be designated by letters only.

INDIAN HOSTILITIES.

From the first of December, A. D. eighteen hundred and seventy-two, until the last of May, A. D. eighteen hundred and seventy-three, a period of six months, the northern portion of Siskiyou County was the scene of Indian hostilities. Lives and property were destroyed, and fears were entertained that a general uprising of the Indians would result. On the twelfth of December, eighteen hundred and seventy-two, fifty Springfield rifles and ammunition were forwarded to Yreka, for the purpose of arming citizens in Siskiyou County. On the tenth of January, eighteen hundred and seventy-three, sixty Springfield rifles and ammunition were sent to citizens at Dorris' Bridge, Siskiyou County. On the first of May, eighteen hundred and seventy-three, an independent company of infantry, formed at Crescent City, Del Norte County, were supplied with fifty Springfield rifles and ammunition. On the fifteenth of May, eighteen hundred and seventy-three, eighty sabres and eighty Colt's pistols were sent to an independent company of mounted riflemen at Smith's River, Del Norte County. On the seventeenth of May, eighteen hundred and seventy-three, seventy-five Springfield rifles and ammunition were forwarded to citizens of Scott River, Siskiyou County. And on the twentieth of May, eighteen hundred and seventy-three, the exigencies of the case seeming to warrant such action, your Excellency authorized the formation of an independent company of scouts for active service. By arrangement with Major-General Schofield, U. S. A., Commanding Division of the Pacific, such company was to receive rations, and be subject to his orders. Arms and ammunition for the same were at once sent forward, but the capture of the hostile band of Indians by the United States troops taking place shortly thereafter, the organization of the company was not completed.

RECORDS.

In addition to the regular business of the office, a record of the California Volunteers of the late war is being made, transferring information from rolls and returns which are being worn out by constant use. The information compiled is sought for and necessary to discharged soldiers in obtaining back pay, bounties, and lands granted by the General Government. The history thus preserved will become more and more valuable with the lapse of time.

The military instruction imparted to students at the State University, and the encouragement given by law to the military academies, manifests a prudent foresight. The National Guard of the United States, economically and otherwise, is more desirable than the standing armies maintained by European countries. It has proven in the past to be a school of training for active service; it exercises a salutary influence for the preservation of order, and experience has shown that it should be fostered and maintained by judicious legislation.

In conclusion, I desire to bear testimony to the efficiency of those associated with me in this department, and trusting that the conduct of affairs may have met with your approval, I have the honor to be, your Excellency's obedient servant,

L. H. FOOTE,
Adjutant General, California.

REPORTS

OF

II. A. COBB, MAJOR GENERAL,

Commanding Division National Guard of California.

JOSIAH HOWELL, BRIGADIER GENERAL.

SAMUEL JONES, PROFESSOR MILITARY SCIENCE,

University of California.

REPORTS.

HEADQUARTERS OF DIVISION, NATIONAL GUARD OF CALIFORNIA, }
San Francisco, July 25th, 1873. }

His Excellency NEWTON BOOTH, *Commander-in-Chief, N. G. C.*

SIR: I have the honor to report that the National Guard of the State of California is, at this date, in a much better state of efficiency than at any previous period of its existence.

The action of the last Legislature, in reducing the number of companies, and increasing the money allowance to those remaining, has had a good effect. Whilst a number of companies have been mustered out, thereby making an apparent decrease in the force, it has actually been the means of increasing it, and rendering the remaining companies more effective, by the addition to their numbers of the best portion of the disbanded force, and thus raising their standard nearer the maximum than ever before.

The new law regulating the National Guard works well, which, now being strictly applied by the various commanding officers, produces a feeling of enthusiasm and pride in their commands.

In my report of last year, I made various recommendations relative to the arming and reuniforming of the National Guard, but the impoverished state of the State Treasury seems to have prevented any result.

Uniforms should be provided by the State for State troops, so they may comply with the law, which directs that they shall be uniformed in like manner as troops of the United States Army.

I again recommend that breech-loading arms should be furnished the troops under my command, of the latest and most improved pattern. Our men being expected to be ready, on warning, to do effective service to the State, they should be placed upon an equal footing with any force whom they would be likely to encounter. The weapon with which they are at present armed, being out of date and in disuse, they would, necessarily, be placed at a great disadvantage in case of an engagement.

To Colonel W. H. L. Barnes, commanding First Regiment Infantry, the State owes a great debt, as he has, so far, entirely unaided by the State, but by his own personal endeavors, equipped his regiment with the complete uniform, in conformity with the laws regulating the National Guard, and armed his regiment with the latest pattern of breech-loading rifles, and furnished his companies with a complete camp

equipage. These expenses should not be borne by the officers or men of the commands, for, as they devote their time and persons to the service of the State, they should not be compelled to provide themselves with either uniforms or arms. It is strictly the duty of the State to furnish them, and it should be done at once, and in the best possible manner, and the expense already incurred by the commander of the First Regiment should be reimbursed him by the State.

The officers of the Second and Third Regiments are now making arrangements to arm and equip themselves in the same manner as the First Regiment has done.

An inspection of the First Regiment, in its new uniform and equipments, would surely convince the Legislature, by actual demonstration, of the propriety of making the appropriations here above recommended.

I take pleasure, while commending the past acts of Colonel Barnes, commanding First Regiment, to give credit to Colonel J. W. McKenzie, commanding Second Regiment, and also to Colonel A. Wason, commanding Third Regiment of the National Guard, for their untiring (and successful) efforts to bring their commands to a strict military standard, and inculcate soldierly bearing and discipline to the respective troops under their command.

Yours, respectfully,

H. A. COBB, Major General,
Commanding Division National Guard of California.

HEADQUARTERS FOURTH BRIGADE, N. G. C., }
SACRAMENTO, July, 1873. }

GENERAL: In compliance with your request, I respectfully submit the following information:

Colonel C. V. Kellogg, Fourth Infantry Regiment, reports as follows:

Company "A," Captain Guthrie commanding, has not procured the new regulation uniform yet, but will have it before September ninth. New hats and pants, and altering old style coats, will cost this company nineteen dollars per man.

Company "C," Captain Deal commanding, has not reported lately, and is probably not equipped in the new regulation uniform.

Company "D," Captain Wiltse commanding, has procured fifty uniforms and fatigue caps, at an expense of twenty-five dollars per man.

Company "E," Captain Brown commanding, has also obtained new uniforms at the same price as Company "D."

Company "G," Captain Conboie commanding, obtained forty uniforms from New York at a cost of twenty-five dollars per suit, and three dollars and fifty cents for each cap.

Company "H," Captain Newhard commanding, still uses the old style uniform, which it bought last year.

Field and staff have obtained the new regulation uniform.

Captain Joseph Davis, commanding the Sacramento Light Artillery Company, reports that his company in eighteen hundred and seventy-two paid one thousand seven hundred and fourteen dollars for uniforms,

and in eighteen hundred and seventy-three paid seven hundred and twenty-four dollars for portions of the new regulation uniform, principally helmets.

Captain F. X. Ebner, commanding the Sacramento Hussar Company, reports that his command was uniformed recently at a heavy expense, and is not now in a condition to change to the new pattern.

In view of the fact that the State has not made any appropriation for uniforming the National Guard, the action of these companies in procuring at so large an outlay of personal funds the uniform required by law, cannot be too highly commended.

The State should reimburse the companies for the expense thus incurred.

The Fourth Infantry Regiment is, as you are aware, armed with the old style muzzle loader, which, though a good weapon of the kind, is not up with the improvements of the day. The fact that a military organization is deemed necessary at all, is sufficient to warrant me to urge in the strongest manner the equal necessity of placing in the hands of the citizen soldier the best and most effective weapon (breech-loader) now in use, so that should their services be required they may be fully prepared to give them in the most effective manner.

I would also urge the necessity of assembling the troops for instruction at least for a week, once in two years, and that the necessary appropriations to defray the expenses be made by the Legislature.

Very respectfully, your obedient servant,

JOSIAH HOWELL,
Brigadier General.

To Brigadier General L. H. FOOTE, Adjutant General.

UNIVERSITY OF CALIFORNIA, }
OAKLAND (Cal.), August 12th, 1873. }

GENERAL: In reply to your letter asking for "a statement of the affairs of the Department of Military Instruction in the University of California," I have the honor to state that the male students are organized into a battalion of four companies, called the Battalion of University Cadets.

Accompanying this is a list of the officers and non-commissioned officers of the battalion at the close of the last term.

The students have been practically instructed in the schools of the soldier, the company (including instructions for skirmishers), and the battalion, according to the system of infantry tactics in use in the United States Army.

They have also been instructed, theoretically, by a course of lectures, on the art of war, embracing the composition and organization of armies, ancient and modern, the conduct and discipline of armies in the field and in quarters, at home and in the enemy's country, the principles of strategy and grand tactics, offensive and defensive warfare, the history of small arms and artillery, the theory of firing, the construction of

different kinds of field works, and the mode of attacking and defending them, the construction and use of military bridges, etc.

The battalion returns for the quarter ending the thirtieth of June last, will exhibit the strength, and the arms and accouterments with which it is provided.

Very respectfully,

SAMUEL JONES,
Professor of Military Science.

BRIGADIER GENERAL L. H. FOOTE,
Adjutant General of California, Sacramento.

UNIVERSITY OF CALIFORNIA,
OAKLAND (Cal.), July 16th, 1873. }

Officers and non-commissioned officers of the Battalion of University Cadets:

[*General Orders, No. 5.*]

I. * * * For information of the National Guard of California, and all persons having business with this department, the following appointments on the Staff of Adjutant General L. H. Foote are hereby announced: Major W. E. McArthur, Assistant Adjutant General; Captain Charles J. Collins, Aid-de-Camp. They will be obeyed and respected accordingly.

By order of the Commander-in-Chief.

L. H. FOOTE,
Adjutant General, California.

GENERAL HEADQUARTERS, STATE OF CALIFORNIA, }
Adjutant General's Office, Sacramento, April 2d, 1872. }

[*General Orders, No. 6.*]

I. Brigade commanders will direct the regimental, battalion, and company commanders, in their respective brigades, to issue orders to their several commands for parade and target practice during the month of May, as required by law.

II. Such parade and target practice shall be held on Tuesdays, Wednesdays, or Thursdays, in any week of the month designated.

III. Reports shall be made through the usual channels to this office, prior to the eighth of June. Blanks for that purpose will be furnished upon requisition made on Brigade Headquarters.

By order of the Commander-in-Chief.

L. H. FOOTE,
Adjutant General, California.

GENERAL HEADQUARTERS, STATE OF CALIFORNIA,
Adjutant General's Office, Sacramento, May 21st, 1872. }

[*General Orders, No. 7.*]

In accordance with the decisions of the Boards for Location and Organization of the National Guard, and in order to carry into effect the requirements of the law, as embodied in Part III, Title IV, of the Political Code, the following General Order is issued:

I. The following designated companies are hereby detached from the First Cavalry Battalion, Second Brigade:

First Light Dragoons, Company "A."

San Francisco Hussars, Company "B."

Jackson Dragoons, Company "C."

Haight Light Horse Guard, Company "D."

II. The following designated companies of the Second Brigade are hereby detached from the regiments to which they have heretofore been assigned:

Ellsworth Rifles, Company "G," First Infantry Regiment.

Frisbie Guard, Company "G," Second Infantry Regiment.

Sarsfield Guard, Company "F," Third Infantry Regiment.

Oakland Grenadiers, Company "G," Third Infantry Regiment.

III. The following named unattached companies of the Second Brigade will be honorably mustered out of the State service:

First Light Dragoons (Cavalry), San Francisco.

Haight Light Horse Guard (Cavalry), San Francisco.

Veterans of the Mexican War (Foot Artillery), San Francisco.

Ellsworth Rifles (Infantry), San Francisco.

Frisbie Guard (Infantry), Vallejo.

Sarsfield Guard (Infantry), San Francisco.

Oakland Grenadiers (Infantry), Oakland.

Emmet Guard (Infantry), Petaluma.

Live Oak Zouaves (Infantry), Oakland.

IV. The First Cavalry Battalion, Second Brigade, having been disbanded, the following named officers, comprising the Field and Staff of the battalion, will be honorably mustered out of and discharged from the service of the State:

P. R. O'Brien, Major Commanding.

M. A. McLaughlin, First Lieutenant and Adjutant.

William Coreoran, First Lieutenant and Quartermaster.

Charles K. Breeze, First Lieutenant and Surgeon.

V. The following designated companies of the Fourth Brigade are hereby detached from the regiments to which they have heretofore been assigned:

Grass Valley Union Guard, Company "B," Fourth Infantry Regiment.

Emmet Guard, Company "E," Fourth Infantry Regiment.

Howell Zouaves, Company "F," Fourth Infantry Regiment.

VI. The following named unattached companies of the Fourth Brigade will be honorably mustered out of the State service:

Grass Valley Union Guard (Infantry), Grass Valley.

Emmet Guard (Infantry), Sacramento.

Howell Zouaves (Infantry), Grass Valley.

Volcano Blues (Infantry), Volcano, Amador County.

VII. Major William E. McArthur, Assistant Adjutant General at these Headquarters, is hereby detailed to act as Mustering Officer for the Second Brigade.

VIII. Brigadier General Howell, commanding Fourth Brigade, will immediately upon receipt of this order, detail a proper officer to act as Mustering Officer for the Fourth Brigade.

IX. Mustering Officers will give to each member of companies mustered out, an honorable discharge.

X. Mustering Officers will give to each commanding officer of the companies disbanded, duplicate receipts of all property returned to the State, and will cause the arms, equipments, and clothing, together with all other public property which may be delivered to them, to be packed securely in suitable packages, each to be distinctly addressed to the Adjutant General at Sacramento, and forwarded by the usual method of transportation without delay.

XI. Upon completion of the service for which they have been detailed, the officers designated will report to these headquarters a full record of proceedings in the case of each company, and transmit invoices of property receipted for, together with a copy of the orders under which service was performed.

By order of the Commander-in-Chief.

L. H. FOOTE,

Adjutant General, California.

Official: WM. E. McARTHUR,
Assistant Adjutant General.

GENERAL HEADQUARTERS, STATE OF CALIFORNIA, }
Adjutant General's Office, Sacramento, May 22, 1872. }

[*General Orders, No. 8.*]

Special Orders Nos. 1 and 2, c. s., 1871, are hereby revoked.

By order of the Commander-in-Chief.

L. H. FOOTE,

Adjutant General, California.

Official: WM. E. McARTHUR,
Assistant Adjutant General.

GENERAL HEADQUARTERS, STATE OF CALIFORNIA, }
Adjutant General's Office, Sacramento, June 28th, 1872. }

[*General Orders, No. 9.*]

The following designated parts of General Orders No. 7, c. s., 1872, are hereby revoked:

I. So much of Paragraph I, as detaches from the First Cavalry Battalion, Second Brigade, the

First Light Dragoons, Company "A."
 San Francisco Hussars, Company "B."
 Jackson Dragoons, Company "C."

II. So much of Paragraph III, as orders the First Light Dragoons (Cavalry), San Francisco, to be honorably mustered out of the State service.

III. Paragraph IV, ordering the honorable muster out of and discharge from the service of the State, of officers comprising the field and staff of First Cavalry Battalion, Second Brigade.

By order of the Commander-in-Chief.

L. H. FOOTE,
 Adjutant General, California.

GENERAL HEADQUARTERS, STATE OF CALIFORNIA, }
 Adjutant General's Office, Sacramento, August 22d, 1872. }

[*General Orders, No. 10.*]

I. The following designated companies of the Second Brigade are hereby detached from the regiments to which they have heretofore been assigned:

Oakland Guard, Company "A," First Infantry Regiment.
 Vallejo Rifles, Company "F," Second Infantry Regiment.

II. The Yuba Light Infantry, of Camptonville, Fourth Brigade, N. G. C., is hereby attached to the Fourth Infantry Regiment, and will be known and designated as Company "E."

III. The attention of officers of the National Guard is hereby invited to the following extracts from the Political Code:

"SEC. 2018. The National Guard of California must parade on the ninth day of September, by battalion, if practicable.

"SEC. 1970. The commanding officer of each company must, in the month of September in each year, muster and inspect his company, and make out and certify triplicate muster rolls showing the names and number of the members of the company, the officers in the order of their rank, and the privates in alphabetical order, and he must also attach to each roll a list of the ordnance, ordnance stores, arms, accouterments, clothing, and other property of the State in possession of the company. He must transmit, through the proper military channels, one copy of the roll and list attached, to the Major General, one to the Brigadier General of his brigade, and one to the Adjutant General.

"SEC. 1959. All persons, on entering the National Guard, must sign a company roll, and join for not less than three years' service.

"SEC. 1921. All officers and soldiers of the National Guard, on becoming members, and before performing duty, must take and subscribe the following oath, which all commissioned officers thereof are authorized to administer: 'I do solemnly swear that I will support the Constitution of the United States and the Constitution of the State of

California, and will maintain and defend the laws and all officers employed in administering the same.' Which oath, certified by the officer administering the same, must be returned to the Adjutant General, and be preserved with the rolls of companies."

IV. Brigade commanders will, if they deem it advisable, order the inspection and muster provided for in Sec. 1970 of the law above quoted, to take place on the ninth of September.

V. Mustering officers will, at the time of muster, swear the members of companies in accordance with Sec. 1921, as above set forth.

VI. Blanks will be furnished from these headquarters to the brigade commanders, and by them issued to battalion and company commanders.

By order of the Commander-in-Chief.

L. H. FOOTE,
Adjutant General, California.

Official: WM. E. McARTHUR,
Assistant Adjutant General.

GENERAL HEADQUARTERS, STATE OF CALIFORNIA, }
Adjutant General's Office, Sacramento, January 30th, 1873. }

[*General Orders, No. 1.*]

The following description of the uniform of the United States Army is published for the information of all concerned; it being the same as that promulgated in General Orders No. 92, dated at the War Department, Adjutant General's Office, Washington, October twenty-sixth, eighteen hundred and seventy-two; hereafter it will be the uniform of the National Guard of California, in accordance with section nineteen hundred and twenty-three, Article I, Chapter II, Part III, of the Political Code. Illustrative delineations of the new uniform will be distributed to the several brigade headquarters as soon as received at this office.

By order of the Commander-in-Chief.

L. H. FOOTE,
Adjutant General, California.

UNIFORM AND DRESS OF THE ARMY OF THE UNITED STATES.

UNIFORM, DRESS, EQUIPMENTS, &c.

No officer or soldier of the army shall wear any other than the prescribed uniform, when on duty.

COATS.

FULL DRESS FOR OFFICERS.

All officers shall wear a double-breasted frock coat of dark blue cloth, the skirt to extend from one half to three fourths the distance from the hip joint to the bend of the knee.

For a General: Two rows of buttons on the breast, twelve in each row; placed by fours; the distance between each row five and one half inches at top and three and one half inches at bottom; stand-up collar, not less than one nor more than two inches in height, to hook in front at the bottom and slope thence up and backward at an angle of thirty degrees on each side, corners rounded; cuffs three inches deep, to go around the sleeves parallel with the lower edge, and with three small buttons at the under seam; pockets in the folds of the skirts, with two buttons at the hip and one at the lower end of each side-edge, making four buttons on the back and skirt of the coat; collar and cuffs to be of dark blue velvet; lining of the coat black.

For a Lieutenant General: The same as for a General, except that there will be ten buttons in each row, on the breast, the upper and lower groups by threes, and the middle groups by fours.

For a Major General: The same as for a General, except that there will be nine buttons in each row, on the breast, placed by threes.

For a Brigadier General: The same as for a General, except that there will be eight buttons in each row, on the breast, placed by pairs.

For a Colonel, Lieutenant Colonel, and Major: The same as for a General, except that there will be nine buttons in each row, on the breast, placed at equal distances; collars and cuffs of the same color and material as the coat. The upper half of the cuffs to be ornamented with three double stripes of gold braid running the length of the cuff, pointed at their upper end, and with a small button below the point of each stripe, according to pattern.

For a Captain, 1st Lieutenant, 2d Lieutenant, and Additional 2d Lieutenant: The same as for a Colonel, except that there will be seven buttons in each row, on the breast, and two stripes on the cuffs.

For all Storekeepers: A single-breasted coat, as lately worn by Captains of the staff, with staff shoulder-straps to indicate rank.

This coat shall be worn on all dress occasions, such as reviews, inspections, dress parades, guards, and Courts-martial. It will be habitually worn at battalion drills, except in hot weather, or when otherwise exceptionally directed by the commanding officer.

UNDRESS FOR OFFICERS.

For fatigues, marches, squad and company drills, and other drills when authorized by the commanding officer, and for ordinary wear: A sack coat, of dark blue cloth or serge; falling collar; single-breasted, with five buttons in front, same as those worn on the dress coat; with black braid, one fourth of an inch wide, extending from each button and button hole back six inches and terminating in "herring-bone" loops.

The skirt to extend from one third to two thirds the distance from the hip joint to the bend of the knee, and to be slashed at the hip on each

side; a knot of black braid, one fourth of an inch wide, on the upper part of the cuff according to pattern.

The shoulder-straps will always be worn with it. Black braid binding, one half of an inch wide, around edge of coat.

For Storekeepers: Of pattern above described, but without braid.

For Chaplain: Plain black frock coat with standing collar; one row of nine black buttons, on the breast, with "herring-bone" of black braid around the buttons and button holes.

COATS.

FOR ENLISTED MEN.

For Infantry: Single-breasted, dark blue basque, according to pattern deposited in Quartermaster General's Office, piped with sky blue; collar same height as for officers' coats, faced with sky blue cloth four inches back on each side, cut square to hook up close in front; number of regiment or badge of corps in yellow metal in middle of sky blue facing of collar on each side; skirt of coat on each side of opening behind to be faced with sky blue cloth, ornamented with four buttons, as per pattern. Two straps of dark blue cloth, piped with the same color as the facings, let into the waist-seam on each side of the coat and buttoning above the hip to sustain the waist-belt; shoulder-straps of cloth the color of the facings let into the shoulder-seam and to button over the shoulder-belts at the collar-seam with one button; shoulder-straps for Engineer soldiers to be scarlet, piped with white.

For Enlisted Men of Artillery, Engineers, and Ordnance: Same as for Infantry, except that the facings shall be scarlet for Artillery, scarlet and white for Engineers, and crimson for Ordnance.

For Cavalry and Light Artillery: Same as for Infantry, excepting that it is shorter in the skirt, and the facing upon the skirt put on differently, according to pattern in the Quartermaster General's office; facings for Cavalry, yellow, and for Light Artillery, red.

Coats for Musicians: Ornamented on the breast with braid same color as facings, running from the bottom as now worn, the outer extremities terminating in "herring-bones" and the braid returning back to the buttons.

Coats for Hospital Stewards: Same as for Infantry, except the facings to be of emerald green.

Coats for Ordnance Sergeants: Same as for enlisted men of Ordnance.

Whenever the dress coat is worn by enlisted men, it will invariably be buttoned up and hooked at the collar.

For fatigue purposes, for general wear, and on field service: A dark blue blouse of navy flannel, according to the pattern deposited in the Quartermaster General's Office.

Blouses for Winter wear to be lined.

BUTTONS.

The same as now worn for all officers and enlisted men.

Storekeepers: General Staff button.

TROWERS.

For General Officers, Officers of the General Staff, and Staff Corps: Dark blue cloth, plain, without stripe, welt, or cord.

For all Regimental Officers of Cavalry, Artillery, and Infantry: Light blue cloth, same shade of color as prescribed for enlisted men, with stripe one and one half inches wide, welted at the edges; color, that of facings of their respective arms, except infantry, which will be dark blue.

Storekeepers: Dark blue cloth, with black stripe one and one half inches wide.

For Chaplains: Plain black.

For Enlisted Men of all Arms and of the Ordnance Department: Sky blue mixture, pattern now worn; waistband three and a half inches wide, to button with two buttons in front; pockets in front opening at top.

Sergeants to wear a stripe one inch wide, color of facings; and Corporals to wear a stripe one half inch wide, color of facings, except Infantry, which will be dark blue.

For Engineers: According to pattern in Quartermaster General's office.

For Ordnance Sergeants: Crimson stripe, one inch and one quarter wide.

For Hospital Stewards: Emerald green stripe, one inch and one quarter wide.

All stripes to be of cloth.

One third of the trowsers of enlisted men, issued on requisition, shall be sent to posts cut out, but not made up. The material of each pair of trowsers, with the buttons, thread, needles, and all necessary trimmings, shall be rolled up in a bundle, securely fastened, and marked with the size of the trowsers.

Trowsers for all mounted men to be re-enforced.

There shall be a fifth size, larger than No. 4.

CRAVATS.

For all Officers: Black; the tie not to be visible at the opening of the collar. Neither cravats nor stocks will be worn by enlisted men when on duty.

BOOTS AND SHOES.

For all Officers: Shall be of black leather, and come above the ankle.

For Enlisted Men of Cavalry and Light Artillery: Boots, to come above the swell of the calf of the leg; shoes, Jefferson rights and lefts, according to pattern.

For Enlisted Men of Artillery, Infantry, Engineers, and Ordnance, and all other Enlisted Men: Jefferson rights and lefts, according to pattern. Top boots may be worn by mounted men.

HAT OR CAP (FULL DRESS.)

For General Officers, Officers of the General Staff, and Staff Corps: Chapeau, according to pattern.

For Officers of Light Artillery and Cavalry: Black felt helmet, with gold cords and tassels, and gilt trimmings, according to pattern.

For all Storekeepers: Forage cap of dark blue cloth, without braid; badge same as for General Officers.

For all other Officers: Of dark blue cloth, ornamented with gold braid and trimmings, according to pattern.

For Enlisted Men of Light Artillery and Cavalry: Black felt helmet, same pattern as for officers, with cords and tassels of mohair—red for Light Artillery and yellow for Cavalry. Helmet ornamented with yellow metal trimmings, per pattern.

For all other Enlisted Men: Of blue cloth, same pattern as for officers, ornamented with mohair braid of the same color as facings of the coat; trimmings of yellow metal, according to pattern.

FORAGE CAP.

For General Officers: Of dark blue cloth, chasseur pattern, with black velvet band, and badge in front.

For all other Commissioned Officers: Of dark blue cloth, chasseur pattern, with badge of corps or regiment in front, top of badge to be even with top of cap, and according to pattern in Quartermaster General's Office.

For all Enlisted Men: Of plain blue cloth, same pattern as for officers, with badge of corps or letter of company, of yellow metal, worn in front, as for officers.

FORAGE CAP BADGES.

For General Officers: A gold embroidered wreath on dark blue cloth ground, encircling the letters U. S., in silver, old English characters.

For Officers of the General Staff and Staff Corps: Same as for General Officers, with the exception of those for Ordnance Officers, which will have a gold embroidered shell and flame on dark blue cloth ground.

For Officers of Engineers: A gold embroidered wreath of laurel and palm, encircling a silver turreted castle on dark blue cloth ground.

For Officers of Cavalry: Two gold embroidered sabres, crossed, edges upward, on dark blue cloth ground, with the number of the regiment in silver in the upper angle.

For Officers of Artillery: Two gold embroidered cannons, crossed, on dark blue cloth ground, with the number of the regiment in silver at the intersection of the cross-cannon.

For Officers of Infantry: a gold embroidered bugle, on dark blue cloth ground, with the number of the regiment in silver within the bend.

FATIGUE HAT.

For Officers and Enlisted Men: Of black felt, according to pattern, to be worn only on fatigue duty and on marches or campaigns.

PLUMES FOR OFFICERS.

For General in Chief: Three black ostrich feathers.

For other General Officers, for Officers of the General Staff, and Staff Corps: Two black ostrich feathers.

For Regimental Officers of Foot Artillery and Infantry: Of cocks' feathers, to rise five inches above the top of the cap, front feathers to reach the vizor, rear feathers to reach the top of the cap, with gilt ball and socket; color of the plume to be red for Artillery and white for Infantry.

For Officers of Light Artillery and Cavalry: Horse-hair plume, gilt ball and socket, plume to be long enough to reach the front edge of the vizor of the helmet; color of the plume to be red for Light Artillery, and yellow for Cavalry.

PLUMES AND POMPONS FOR ENLISTED MEN.

For Artillery: Red pompon, pattern shape; ball and socket of yellow metal.

For Infantry: White pompon, same shape and with same ball and socket as for Artillery.

For Ordnance: Crimson pompon, same ball and socket as for Artillery.

For Engineer Troops: Red pompon, with white top; same ball and socket as for Artillery.

For Light Artillery: Red; and for Cavalry, yellow horse-hair plumes, same size and length as for officers; socket according to pattern.

SPURS.

For all Mounted Officers: Yellow metal or gilt.

For all Mounted Men: Of yellow metal, plain surface.

GLOVES.

For General Officers, Officers of the General Staff, and Staff Corps: Buff or white gauntlets or gloves.

For Field Officers of Artillery, Cavalry, and Infantry; for Officers of

Light Artillery and Cavalry: White gauntlets or gloves. All other officers, white gloves.

For all Enlisted Men: Of white Berlin, to be issued as clothing.

SASH.

For General Officers: Buff silk net, with silk bullion fringe ends; sash to go twice around the waist and to tie behind the left hip, pendent part not to extend more than eighteen inches below the tie.

SWORD BELT.

For all Officers: A waist-belt, not less than one and one half nor more than two inches wide, with slings of the same material as the belt, with a hook attached to the belt on which to hang the sword.

The belt to be worn outside the full dress coat and underneath the undress sack.

For General Officers: Of red Russia leather, with three stripes of gold embroidery, as per pattern now worn.

For all Field Officers: One broad stripe of gold lace on black enameled leather, according to pattern.

For all Officers of the General Staff, and Staff Corps, below the rank of Field Officers: Four stripes of gold, interwoven with black silk, lined with black enameled leather, according to pattern.

For Company Officers of Cavalry, Artillery, and Infantry: Four stripes of gold lace interwoven with silk of the same color as the facings of their arms of service, and lined with black enameled leather.

For all Storekeepers: Of black enameled leather, of patterns lately worn.

On undress duty, marches, and campaigns, officers may wear a plain black leather belt.

For all Non-Commissioned Officers: Plain black leather.

SWORD-BELT PLATE.

For all Officers and Enlisted Men: Gilt, rectangular, two inches wide, with a raised bright rim; a silver wreath of laurel encircling the "Arms of the United States;" eagle, shield, scroll, edge of cloud and rays bright. The motto, "*E Pluribus Unum*," upon the scroll; stars, also of silver, according to pattern.

SWORD AND SCABBARD.

General Officers: Straight sword, gilt hilt, silver grip; brass or steel scabbard, same as now worn.

For Officers of Light Artillery and Cavalry: Sabre and scabbard as now worn, and according to pattern in Ordnance Department.

For Officers of the Pay and Medical Department: Small sword and scabbard, according to pattern in the Surgeon General's Office, as now worn.

For all other Officers: Same as the small straight sword now worn by the officers of the General Staff, and according to pattern in the Ordnance Department.

The sword and sword-belt will be worn upon all occasions of duty except stable and fatigue.

When not on military duty, officers may wear swords of honor, or the prescribed sword, with a scabbard, gilt, or of leather with gilt mountings.

SWORD KNOT.

For General Officers: Gold cord, with acorn end.

For all other Officers: Gold lace strap, with gold bullion tassel, as now worn.

EPAULETTES.

For the General of the Army: Of gold, with solid crescent; device—two silver embroidered stars, with five rays each, one and one half inches in diameter; and the "Arms of the United States" embroidered in gold, placed between them.

For a Lieutenant General: Three silver embroidered stars of five rays each—respectively, one and one half, one and one quarter, one and one eighth inches in diameter. The largest placed in the center of the crescent; the others, placed longitudinally on the strap and equidistant, ranging in order of size from the crescent.

For a Major General: Same as for Lieutenant General, omitting smallest star, and the smaller of the two remaining stars placed in the center of the strap.

For a Brigadier General: Same as for a Lieutenant General, omitting all but the largest star.

SHOULDER KNOTS.

*For Officers of the Adjutant General's and Inspector General's Departments, and for Aides-de-Camp to General Officers:** Of gold cord, Russian pattern, on dark blue cloth ground; insignia of rank and letters of corps or designation of regiment embroidered on the cloth ground, according to pattern; an aiguillette of gold cord to be worn with the right shoulder knot and permanently attached thereto, according to pattern.

For Officers of other Staff Corps: Same as above described, without the aiguillette.

For Officers of Cavalry, Artillery, and Infantry: Of the same pattern as for the Staff Corps, but on cloth of the same color as the facings of

* See Miscellaneous.

their arm, with insignia of rank and number of regiment embroidered on the cloth ground, according to pattern.

For Regimental Adjutants: Of the same pattern as for other officers of their arm, but with aiguillettes attached.

INSIGNIA OF RANK ON SHOULDER KNOTS.

For a Colonel: A silver embroidered eagle at the center of the pad.

For a Lieutenant Colonel: Two silver embroidered leaves, one at each end of pad.

For a Major: Two gold embroidered leaves, one at each end of pad.

For a Captain: Two silver embroidered bars at each end of pad.

For a First Lieutenant: One silver embroidered bar at each end of pad.

For a Second Lieutenant: Plain.

For an Additional Second Lieutenant: Same as Second Lieutenant.

The above insignia to be the same as prescribed for the shoulder straps.

SHOULDER STRAPS.

For the General of the Army: Dark blue cloth, one and three eighths inches wide by four inches long, bordered with an embroidery of gold one fourth of an inch wide; two silver embroidered stars of five rays each, and gold embroidered "Arms of the United States" between them.

For a Lieutenant General: The same as for the General, except that there will be three silver embroidered stars of five rays, one star on the center of the strap, and one on each side, equidistant between the center and outer edge of the strap, the center star to be the largest.

For all Major Generals: The same as for the Lieutenant General, except that there will be two stars instead of three; the center of each star to be one inch from the outer edge of the gold embroidery on the ends of the strap; both stars of the same size.

For a Brigadier General: The same as for a Major General, except that there will be one star instead of two; the center of the star to be equidistant from the outer edge of the embroidery on the ends of the strap.

For a Colonel: The same size as for a Major General, and bordered in like manner with an embroidery of gold; a silver embroidered spread eagle on the center of the strap, two inches between the tips of the wings, having in the right talon an olive branch, and in the left a bundle of arrows; an escutcheon on the breast, as represented in the "Arms of the United States." Cloth of the strap as follows: For the General Staff and Staff Corps, dark blue; Artillery, scarlet; Infantry, sky blue; Cavalry, yellow.

For a Lieutenant Colonel: The same as for a Colonel, according to corps, omitting the eagle, and introducing a silver embroidered leaf at each end, each leaf extending seven eighths of an inch from the end border of the strap.

For a Major: The same as for a Colonel, according to corps, omitting the eagle, and introducing a gold embroidered leaf at each end, each leaf extending seven eighths of an inch from the end border of the strap.

For a Captain: The same as for a Colonel, according to corps, omitting the eagle, and introducing at each end two silver embroidered bars, of the same width as the border, placed parallel to the ends of the strap, at a distance between them and from the border equal to the width of the border.

For a 1st Lieutenant: The same as for a Colonel, according to corps, omitting the eagle, and introducing at each end one silver embroidered bar of the same width as the border, placed parallel to the ends of the strap, at a distance from the border equal to its width.

For a 2d Lieutenant: The same as for a Colonel, according to corps, omitting the eagle.

For an additional 2d Lieutenant: The same as for a 2d Lieutenant.

Officers serving in the field may dispense with the prescribed insignia of rank on their horse equipments, and may wear overcoats of the same color and shape as those of the enlisted men of their commands, and omit epaulettes, shoulder-knots, or other prominent marks likely to attract the fire of sharpshooters; but all officers must wear the prescribed buttons, stripes, and shoulder-straps, to indicate their corps and rank.

The shoulder strap will be worn whenever the epaulette or shoulder-knot is not.

CHEVRONS.

The rank of non-commissioned officers will be marked by chevrons upon both sleeves of the uniform coat and overcoat, above the elbow; of cloth of the same color as the facings of the uniform coat, divided into bars a half inch wide by black silk stitching, except for Engineers, which will be white stitching, and piped with white, points down, according to new patterns in Quartermaster General's Office, as follows:

For a Sergeant Major: Three bars and an arc.

For a Quartermaster Sergeant: Three bars and a tie of three bars.

For a Principal Musician: Three bars and a bugle.

For an Ordnance Sergeant: Three bars and a star.

For a Hospital Steward: A half chevron of emerald green cloth one and three fourths inches wide, piped with yellow cloth, running obliquely downward from the outer to the inner seam of the sleeve, at an angle of about thirty degrees with a horizontal, and in the center a "caduceus," two inches long, the head toward the outer seam of the sleeve.

For a 1st Sergeant: Three bars and a lozenge.

For a Battalion or Company Quartermaster Sergeant: Three bars and a tie of one bar.

For a Sergeant: Three bars.

For a Corporal: Two bars.

For a Pioneer: Two crossed hatchets, of cloth, same color and material as the facings of the uniform coat, to be sewed on each sleeve above the elbow, in the place indicated for a chevron (those of a Corporal to be just above and resting on the chevron), the head of the hatchet upward, its edge outward, of the following dimensions, viz:

Handle, four and one half inches long, one fourth to one third of an inch wide.

Hatchet, two inches long, one inch wide at the edge.

To indicate service: All non-commissioned officers, musicians, and privates, who have served faithfully for one term of enlistment, will wear as a mark of distinction upon both sleeves of the uniform coat, below the elbow, a diagonal half chevron, one half inch wide, extending from seam to seam, the front end nearest to the cuff, and one half inch above the point of the cuff, to be of the same color as the edging on the coat.

In like manner an additional half chevron, above and parallel to the first, for every subsequent term of enlistment and faithful service. Distance between each chevron, one fourth of an inch.

Service in war will be indicated by a white stripe on each side of the chevron for artillery, and a red stripe for all other corps, the stripe to be one eighth of an inch wide.

OVERCOATS.

For General Officers: Of dark blue cloth, closing by means of four frog buttons of black silk and hoops of black silk cord; cord down the breast, and at the throat by a long loop "à échelle," without tassel or plate, on the left side, and a black silk frog button on the right; cord for the loops fifteen hundredths of an inch in diameter; back, a single piece, slit up from the bottom from fifteen to seventeen inches, according to the height of the wearer, and closing at will by buttons, and button-holes cut in a concealed flap; collar of the same color and material as the coat, rounded at the edges, and to stand or fall; when standing to be about five inches high; sleeves loose, of a single piece and round at the bottom, without cuff or slit; lining woolen; around the front and lower borders, the edges of the pockets, the edges of the sleeves, collar, and slit in the back, a flat braid of black silk one half an inch wide; and around each frog button on the breast a knot two and one quarter inches in diameter of black silk cord, seven hundredths of an inch in diameter, cape of the same color and material as the coat, removable at the pleasure of the wearer, and reaching to the cuff of the coat sleeve when the arm is extended; coat to extend down the leg from six to eight inches below the knee, according to height.

To indicate rank: There will be on both sleeves, near the lower edge, a knot of black silk braid, not exceeding one eighth of an inch in width, and composed of five braids double knot.

For all other officers: Dark blue close-fitting double-breasted surtout coat, with a cape made to detach from the coat and fall to the tips of the fingers when the arm and hand are extended; the skirt of the coat for mounted officers to reach half way between the knee and the sole of the foot; for dismounted officers, three inches below the knee.

The coat to have seven buttons on each breast of the same pattern as those on the uniform coat. The insignia of rank on the sleeves, as follows, viz:

Colonel, five braids, single knot.

Lieutenant Colonel, four braids, single knot.

Major, three braids, single knot.

Captain, two braids, single knot.

First Lieutenant, one braid, single knot.

Second Lieutenant and Additional Second Lieutenant, without braid.

Military storekeepers and Chaplains, without braid.

On the frontier and campaign, officers may wear the soldier's overcoat, with insignia of rank on the sleeve.

For enlisted men of all arms: Of sky blue cloth of the pattern now used in the mounted service.

OTHER ARTICLES OF CLOTHING AND EQUIPMENTS.

Flannel shirts, drawers, stockings, and stable frock: The same as now furnished.

Stable frocks for mounted men: Of white cotton, made loose and extending well down to the knee, without sleeve or body lining; to button in front.

Blankets: Woolen, gray, with letters U. S. in black, four inches long, in the center, to be seven feet long and five and a half feet wide, and to weigh at least five pounds; to be made of wool; the blanket now issued to troops in California to be the standard.

Canvas overalls for engineer soldiers: Of white cotton; one garment to cover the whole of the body above the waist—the breast, the shoulders, and the arms; sleeves loose, to allow free play of the arms, with a narrow wristband buttoning with one button; overalls to fasten at the neck behind with two buttons, and the waist behind with buckle and tongue.

For Cavalry and Light Artillery: White cotton overalls to cover only the waist. These overalls are to be worn at all stable duties.

Sets of stencil plates of letters and numbers of two sizes (inch and half inch) for marking equipments, etc., shall be furnished by the Quartermaster's Department to each company commander and regimental adjutant.

SIGNAL SERVICE.

For the Chief Signal Officer: The same uniform as for the Adjutant General's Department, without the aiguillettes.

The uniform of the enlisted men of the Signal Service shall be as follows:

The cavalry uniform, except that the trimmings and facings be orange instead of yellow, bearing a device on the sleeve of the coat, as follows: crossed signal flags, red and white, on dark blue cloth; size of flags three fourths of an inch square; length of staff three inches, after the pattern in the office of the Chief Signal Officer of the army. This device to be worn by the non-commissioned officers above the chevrons; by privates of the first class on both arms; and by privates of the second class on the left arm only, in the same position as the chevron of non-commissioned officers.

HORSE FURNITURE.

FOR GENERAL OFFICERS AND THE GENERAL STAFF.

Housing for General Officers: To be worn over the saddle; of dark blue cloth, trimmed with two rows of gold lace, the outer row one inch

and five eighths wide, the inner row two inches and one fourth; to be made full, so as to cover the horse's haunches and forehands, and to bear on each flank corner the following ornaments, distinctive of rank, to wit:

For the General of the Army: A gold embroidered spread eagle with two stars and "Arms of the United States" between them.

For Lieutenant General: A gold embroidered spread eagle and three stars.

For Major Generals: A gold embroidered spread eagle and two stars.

For Brigadier Generals: A gold embroidered spread eagle and one star.

Saddle-Cloth for General Staff Officers, and Officers of the Staff Corps: Dark blue cloth, of sufficient length to cover the saddle and holsters, and one foot ten inches in depth, with an edging of gold lace one inch wide.

For all other Officers: Dark blue felt, according to pattern; worn under the saddle, and trimmed around the edges with cloth one and one half inches wide, color as follows:

Infantry, sky blue.

Artillery, scarlet.

Cavalry, yellow.

For Infantry, Cavalry, and horse equipments, knapsacks, haversacks, etc., and tools and materials for Cavalry, according to patterns in Ordnance Office. See Ordnance Memoranda No. 13, and General Orders No. 60, War Department, series of 1872.

MILITARY ACADEMY.

The uniform of the Professors and Sword Master at the West Point Military Academy shall be the same as now worn, excepting they will be permitted to wear the dark blue sack coat prescribed for Army Officers, with the buttons of the General Staff to be worn on both coats.

FOR CADETS.

The same uniform as now worn.

MISCELLANEOUS.

Aids-de-Camp and the Military Secretary, who have increased rank, will wear the aiguillette with the uniform of the General Staff. Aids-de-Camp to Major and Brigadier Generals will wear the aiguillette with the uniform of their Regiments and Corps.

Whenever the full dress coat is worn by officers on duty, the pre-

scribed epaulettes or shoulder-knots will be attached. Letters to be embroidered on shoulder-knots in old English:

- A. A. Adjutant General's Department.
- I. I. Inspector General's Department.
- B. B. Bureau of Military Justice.
- S. S. Signal Service.
- Q. Q. Quartermaster's Department.
- S. S. Subsistence Department.
- M. M. Medical Department.
- P. P. Pay Department.
- E. E. Engineer Corps.
- O. O. Ordnance Department.

Sashes will no longer be worn by officers below the grade of Brigadier General, or by non-commissioned officers.

Officers when not on duty are permitted to wear a buff, white, or blue vest, with the small button prescribed for them.

When the trowsers and flannel shirts now in store shall have been issued or otherwise disposed of, the troops serving in warm climates will, upon requisition approved by commanding officers, be supplied with those articles of a lighter texture, but of the same material, cut, and color as those furnished the other troops of the Army.

Bands will wear the uniform of their Regiment or Corps. Commanding officers may, at the expense of the Corps, sanctioned by the Councils of Administration, make such additions of ornaments as they may judge proper.

[NOTE.—In the uniform of the organized militia of California, the letters N. G. C. will be substituted for U. S. wherever they occur.]

GENERAL HEADQUARTERS, STATE OF CALIFORNIA. }
Adjutant General's Office, Sacramento, April 1st, 1873. }

[General Orders, No. 2.]

I. Brigadier General James C. Roley, having tendered his resignation of the command of the Fifth Brigade, N. G. C., in consequence of removal of his residence from the limits of that brigade, the same is hereby accepted, to take effect from March 31st, 1873.

II. Charles Cadwalader, of Red Bluff, Tehama County, is hereby appointed Brigadier General of the Fifth Brigade, N. G. C., *vice* James C. Roley, resigned; with rank from the date of this order.

He will be obeyed and respected accordingly.

By order of the Commander-in-Chief.

L. H. FOOTE,
Adjutant General, California.

GENERAL HEADQUARTERS, STATE OF CALIFORNIA, }
Adjutant General's Office, Sacramento, April 7th, 1873. }

[*General Orders, No. 3.*]

I. Brigade commanders will direct the regimental, battalion, and company commanders, in their respective brigades, to issue orders to their several commands for parade and target practice during the month of May, as required by law.

II. Such parade and target practice may be held on any days of the week in the month designated, excepting Sundays.

III. Reports shall be made through the usual channels to this office, prior to the fifteenth of June. Blanks for that purpose will be furnished upon requisition made on Brigade Headquarters.

IV. A target for infantry or cavalry must be made of wood, one inch thick, six feet high, and twenty four inches broad. On the face there shall be a bull's eye, four inches in diameter, the center of which is to be two feet from the top, and equidistant from the sides; a perpendicular stripe one and one half inches wide to be drawn from the top to the bottom, and a horizontal stripe of the same width, from side to side, running through the center of the bull's eye. The face of the target must be painted white, the bull's eye and stripes painted black. Distance shall be one hundred and fifty yards for off-hand shooting, and two hundred and fifty yards for firing from the knee, for infantry; for cavalry pistol practice, thirty yards. Hits are to be measured from center of bull's eye to center of bullet hole; average for misses to be rated at twenty inches.

By order of the Commander-in-Chief.

L. H. FOOTE,
Adjutant General, California.

GENERAL HEADQUARTERS, STATE OF CALIFORNIA, }
Adjutant General's Office, Sacramento, May 8th, 1873. }

[*General Orders, No. 4.*]

Paragraph IV, General Orders No. 3, c. s. 1873, is hereby modified as follows, viz:

Average for misses shall be rated at forty-nine and one half inches, or the distance from the center of bull's eye to corners at the bottom of the target.

Commanders of regiments, battalions, and unattached companies, if they so prefer, may order their commands to use a target of the following description, instead of the one prescribed :

The target to be "six feet high; two feet wide; bull's eye two feet from the top, with vertical line four inches wide in the center; bull's eye sur-

rounded by a circle about eighteen inches in diameter. The target painted black, with stripe and ring white."

By order of the Commander-in-Chief.

L. H. FOOTE,
Adjutant General, California.

C I R C U L A R S.

GENERAL HEADQUARTERS, STATE OF CALIFORNIA, }
Adjutant General's Office, Sacramento, May 1st, 1872. }

[Circular No. 1.]

Duplicate discharge, or certificate of service of California Volunteers, will not be issued from these headquarters except upon application of the party entitled to the same. An affidavit, setting forth all facts relative to the disposition made of the original, must accompany such application.

By order of

L. H. FOOTE,
Adjutant General, California.

GENERAL HEADQUARTERS, STATE OF CALIFORNIA, }
Adjutant General's Office, Sacramento, May 21st, 1872. }

[Circular No. 2.]

Any member of the National Guard mustered out under provisions of General Orders No. 7, c. s. 1872 (of this date), who shall reënter the military service of the State within thirty days, shall be considered as having been absent with leave. Should he in the future make application for exempt certificate under the provisions of the Political Code (Section 1936), his years of service to the State will be considered consecutive.

In all cases of reënlistment of members of the National Guard (discharged under provisions of General Orders above mentioned), commanding officers of companies will, without delay, inform the Adjutant General of the fact, and note of previous service of the member shall be made on muster roll of the company at the next muster.

By order of

L. H. FOOTE,
Adjutant General, California.

GENERAL HEADQUARTERS, STATE OF CALIFORNIA, }
Adjutant General's Office, Sacramento, April 21st, 1873. }

[Circular No. 1.]

The following is a list of Blanks and Forms, regularly numbered, now in use in the Adjutant General's Office:

In making requisitions, these numbers will sufficiently designate the Form required.

Brigade commanders will always maintain a supply at their respective headquarters sufficient to meet the requirements of their commands.

- No. 2. Letters of transmittal, to accompany commissions.
- No. 5. Applications for exempt certificates.
- No. 6 A. Muster rolls of company, cavalry.
- No. 6 B. Muster rolls of company, infantry.
- No. 6 C. Muster rolls of company, artillery.
- No. 6½. Muster rolls, field, staff, and band.
- No. 7. Company oath.
- No. 8. Single (or individual) oaths.
- No. 9. Certificate of membership.
- No. 10. Non-commissioned officers' warrants.
- No. 11. Discharges.
- No. 13. Return of proceedings of elections.
- No. 14. Report of target practice, cavalry.
- No. 15. Report of target practice, infantry.
- No. 16. Company reports of parades.
- No. 17. Consolidated battalion reports of parades.
- No. 18. Consolidated brigade reports of parades.
- No. 18½. Monthly report of company drills.
- No. 19. Consolidated brigade return of musters.
- No. 24. Requisitions for ordnance and ordnance stores.
- No. 26. Invoice of ordnance and ordnance stores, infantry.
- No. 27. Invoice of ordnance and ordnance stores, cavalry.
- No. 30 A. Demands for allowances, headquarters brigade.
- No. 30 B. Demands for allowances, headquarters regiment or battalion.
- No. 30 C. Demands for armory rent, company.
- No. 41. Demands for annual allowance to companies.

By order of

L. H. FOOTE,
Adjutant General, California.

Adjutant General, California.

GENERAL HEADQUARTERS, STATE OF CALIFORNIA, }
Adjutant General's Office, Sacramento, November 23d, 1871. }

[*Special Orders, No. 42.*]

I. Brigadier General Josiah Howell, commanding Fourth Brigade, National Guard of California, is hereby detailed and specially ordered to take command of the military present at the State Capital upon the occasion of the inauguration of the Governor elect.

II. He will make all necessary arrangements for the disposition of troops on that day, receive troops arriving from San Francisco and other places, provide for salutes, detail a guard of honor from the escort, and direct the line of procession, and all other necessary proceedings incident thereto, and will issue such commands as may be needful to carry out the full intent of this order.

III. All the companies of the National Guard of the State stationed in Sacramento are hereby ordered to hold themselves in readiness to parade in full uniform upon the day which will hereafter be designated for the inauguration, and participate in the ceremonies of the occasion. They will assemble for duty at such time and place as the General in command may direct.

IV. General Howell will cause due notice to be made of the day fixed upon by the Legislature for the ceremonies of inauguration, communicating by telegraph dispatch with such commands as may notify him of their readiness to report for duty upon the occasion.

By order of the Commander-in-Chief.

THOS. N. CAZNEAU,
Adjutant General, California.

GENERAL HEADQUARTERS, STATE OF CALIFORNIA, }
Adjutant General's Office, Sacramento, November 23d, 1871. }

[*Special Orders, No. 43.*]

I. The application of certain citizens and residents of Marysville, Yuba County, for muster into the State service as a company of the National Guard of California, is hereby approved, and the said organization will be immediately mustered into the State service, and be known as "Sherman Guard," unattached, Fourth Brigade, National Guard of California.

II. Brigadier General Josiah Howell, commanding Fourth Brigade, National Guard of California, will detail a proper officer to inspect and muster the said "Sherman Guard" into the State service, and to preside at election of officers for the same.

III. A record of proceedings and copy of these orders will be duly transmitted to these headquarters.

By order of the Commander-in-Chief.

THOS. N. CAZNEAU,
Adjutant General, California.

FIFTH BIENNIAL REPORT OF THE TRUSTEES

OF THE

CALIFORNIA STATE LIBRARY,

FOR THE

YEARS 1871-2 AND 1872-3.

T. A. SPRINGER.....STATE PRINTER.

CALIFORNIA STATE LIBRARY,
Sacramento, August 1st, 1873. }

To His Excellency,
NEWTON BOOTH,
Governor of California:

SIR: I have the honor to transmit herewith, the fifth biennial report
of the Trustees of the State Library.

I remain,
Very respectfully,
Your obedient servant,

R. O. CRAVENS,
Librarian and Secretary of the Board of Trustees.

REPORT.

SACRAMENTO, July 1st, 1873.

To His Excellency,
NEWTON BOOTH,
Governor of California:

The Trustees of the State Library respectfully present their fifth biennial report.

It is our sad duty, before we touch upon the body of our report, to dwell upon the fact of the decease of two of the members of this Board: ex-Governor John Bigler, and James W. Coffroth. The latter was President of the Board at the time of his decease. It is needless to say, that we regret their loss. Their hearty coöperation and labor towards the advancement of the interests of our State Library, and the furtherance of literature, was at all times sincere and active. Both of them were men of literary habits, and of acute discrimination, as to the merits or demerits of proposed accessions to the Library, and their counsel in our deliberations was ever worthy of regard.

The present condition of the Library is highly creditable to the State, containing as it does many standard books of reference in science, literature, and art.

The total number of volumes in the Library, June thirtieth, eighteen hundred and seventy-one, was twenty-nine thousand three hundred and forty-nine. The accessions since that time have been three thousand one hundred and seven.

The whole number of volumes in the Library, excluding duplicates, on the thirtieth of June, eighteen hundred and seventy-three, is thirty-two thousand four hundred and fifty-six; twenty-one thousand four hundred and ninety-one are in the General Library, and ten thousand nine hundred and sixty-five in the Law Library.

LIBRARY FUND.

The balance in the Library Fund June thirtieth, eighteen hundred and seventy-one, was three thousand eight hundred and sixty-five dollars and fifty-nine cents (paid into the Fund during the fiscal year ending June thirtieth, eighteen hundred and seventy-two, nine thousand

two hundred and forty-four dollars and fifty cents); and during the fiscal year ending June thirtieth, eighteen hundred and seventy-three, six thousand and forty-eight dollars and ninety-five cents. The sum of nine thousand and nine dollars has been expended for books, and one thousand six hundred and four dollars and forty-seven cents for binding, insurance, postage, expressage, and contingent expenses, making the total expenditures ten thousand six hundred and thirteen dollars and fifty-seven cents, leaving the balance in the Fund June thirtieth, eighteen hundred and seventy-three, eight thousand five hundred and forty-five dollars and fifty-seven cents.

LAW LIBRARY.

It has been the desire of the Trustees to make this department as complete as possible; and to have it fully meet the wants of the bench and bar of the State, care has been taken to secure, as early as possible after their publication, all new books that would be useful in a law library. Among the additions to this department, during the last two years is a complete set of Upper Canada Reports. Eighty-five volumes of the printed records of the Supreme Court have been bound, indexed, and placed in the Library since our last report, making the total number of these records now on the shelves of the Library two hundred and thirteen volumes.

GENERAL LIBRARY.

The accessions to this department have been numerous, and embraces many rare and useful works. The most notable additions have been those made to the department of the useful arts and sciences.

The joint resolution of Congress, passed January eleventh, eighteen hundred and seventy-one, provided that the complete specifications and drawings of patents be published, under the direction of the Commissioner of Patents, and that one copy of the same be placed in the Capitol of every State. On the application of the Librarian, sixty-six volumes, folio, being those published to the present time, have been forwarded, and are now on the shelves of the Library. The medical department has received careful attention, and material additions made thereto, particularly of works relating to State medicine, mental diseases, and the care and treatment of insane persons.

Considerable additions have been made to the department relating to the history of California and the Pacific Coast, and the Library is now in possession of a large number of publications germane to the subject; still, it does not possess a tithe of what it should. A State Library should contain every book, pamphlet, magazine, manuscript, and paper that contains anything pertaining to the history of the State. Nearly everything of this kind—easily obtainable, and very many rare works—are now on the shelves of the Library, and those which we have not, are rare, and not easily obtained. Many of them will command high prices. They can only be found in the collections of Mexico and New York, or in those of London, Paris, Madrid, and other European cities. It is the intention of the Trustees to make a specialty of this department, and purchase all the works pertaining thereto, which the limited means at their command will permit.

The establishment of a more perfect system of domestic and foreign exchanges, is important to the proper maintenance of the Library.

Several of our sister States have instituted exchanges with foreign countries, by which their own State Libraries have been greatly enriched. In the present condition of things, the Librarian has no control over the subject of exchanges, and cannot even keep up a complete system of exchanges with the other States of the Union, much less establish a system of foreign or international exchanges. The mutual benefit to be derived from such exchanges must be apparent to all. To carry out the idea herein suggested, and to establish a correct system of exchanges, we would recommend legislation; providing, that the Secretary of State be empowered to issue, free of cost, to the Librarian, upon due requisition therefor, such numbers of all State publications as may be sufficient to meet the demands of a complete system of domestic and foreign exchange; and that an adequate sum be appropriated for the purpose of paying the freight and postage expenses incident thereto.

The benefit arising from a proper system of international exchanges, is well exemplified in the case of the New York State Library, and its success ought to urge us to a speedy adoption of a like system. The Librarian received from the Colony of New Zealand a complete set of the statutes of that Colony—eleven volumes—and also some other valuable publications, and has endeavored to reciprocate, but has been unable to do so as fully as he desired. On application to the Secretary of State for a set of the Codes for the purpose of sending to New Zealand, he was informed by that officer that he had no power, under existing law, to let them go without payment therefor. In furtherance of the idea embraced herein, and in view of making this recommendation, the Librarian has written to the several Consuls representing our country in the British Colonies on the Pacific, and in Mexico, and South America, asking if appropriate provision should be made by this State therefor, would the several countries of their Consulates exchange publications with us. The answer has uniformly been in the affirmative. All the States and countries on the Pacific are, more or less, in close commercial relations with us; hence, a mutual desire to establish the system we suggest, tending, as it will, to a mutual knowledge of the laws and resources of each other. In addition to these considerations, the cosmopolitan character of our population renders it highly proper that the statistical publications and statute law of all civilized countries should be found on the shelves of the State Library. Books published by the authority of this State can be evenly exchanged for books from nearly all of the European States.

CABINET DEPARTMENT.

This department of the State Library has been established under the provisions of "an Act to provide for the establishment of a Cabinet Department in the State Library," approved April first, eighteen hundred and seventy-two.

In pursuance of the terms of this Act, the cabinet of Dr. J. M. Frey has been purchased by the State, and transferred to the State Library. The State Capitol Commissioners have provided a room, and suitable furniture, for the proper display of the specimens, and they are now being properly arranged and classified. The action of the Legislature so far, in this connection, redounds to the credit of the State; yet it must be borne in mind, that to properly keep up the collection, there must be a reasonable fund created for the purpose. To divert the Library

Fund for that purpose, would leave it in a sad state of depletion. It is our aim, so far as lies in our power, to lay the foundation of a cabinet which will in time contain collections of all the rare geological, archaeological, and taxidermic curiosities attainable. This cabinet should also contain a numismatic collection. The benefit to be derived from such a collection cannot be overestimated. The people of the State will reap a tenfold benefit from a reasonable outlay in this direction. No better proof of this is needed, than the interest attaching to like collections in Europe and in the older States of the Union. There is no better time than the present to commence; a good beginning has been made, and provision should be made to secure such accessions to the collection as may be deemed desirable. We think an appropriation of two thousand dollars will be sufficient to secure a healthy and useful growth of this department.

JAMES C. GOODS,
President of the Board of Trustees.

ROBERT O. CRAVENS, Secretary.

REPORT.

OFFICE OF THE DIRECTORS OF THE INSANE ASYLUM OF CALIFORNIA, }
Stockton, California, July 1st, 1873. }

His Excellency,
NEWTON BOOTH,
Governor of the State of California:

SIR: Conformably to a duty imposed upon us by law, we now present our biennial report as Directors of the Insane Asylum of the State of California, located at Stockton, and transmit with it the reports of the Superintendent and the Treasurer.

The report of the Medical Superintendent embraces an accurate account of the general condition and progress of the institution, as well as statistical tables, showing in detail the actual state of the establishment.

We invite especial attention to and criticism upon this report of the Medical Superintendent, for we are satisfied that the more thorough the attention that is given it, the more complete and satisfactory it will appear.

We cordially approve of its various recommendations and suggestions, and commend them all to the favorable attention of the Governor and Legislature. The report of the Treasurer embraces a correct statement of the financial condition of the Asylum. It requires, however, this explanation from us, which, from its nature, could not properly appear in that report. Under the general appropriation Act of April first, eighteen hundred and seventy-two, the Legislature appropriated seventeen thousand six hundred dollars for repairs at the Asylum. One half, or eight thousand eight hundred dollars of that sum, has been drawn from the State Treasury, but only four hundred and sixty-five dollars and one cent of it has been actually paid out, leaving an apparent balance of eight thousand three hundred and thirty-four dollars and ninety-nine cents in the hands of the Treasurer. This apparent balance, however, is not real, for the Board of Directors have now under contract and in the course of completion, repairs in and about the Asylum, which will consume this apparent balance.

It affords us genuine pleasure to report that there is no deficiency in the finances of the Asylum for the twenty-fourth fiscal year. For this

fortunate condition of affairs, we are primarily indebted to the very reasonable, but much needed appropriation made by the last Legislature, but not less to the general economy, that we believe has been observed in expending those appropriations.

The fact that we are called upon to report no deficiency in the finances of the Asylum exhibits a condition of affairs anomolous in the history of this institution.

The Asylum is still overcrowded, and we anxiously look to the hoped-for relief that we expect from the Napa Asylum.

Respectfully,

EDWARD MOORE,
H. S. AUSTIN,
E. E. THRIFT,
DONALD McLENNAN,
O. HARVEY,
Directors.

TREASURER'S REPORT.

TREASURER'S REPORT.

OFFICE OF TREASURER OF INSANE ASYLUM OF CALIFORNIA, }
Stockton, July 1st, 1873.

To the Board of Directors of the Insane Asylum of California:

GENTLEMEN: In accordance with the by-laws of the institution, I have the honor to present the following biennial report of the receipts and disbursements of all moneys from all sources, commencing October the first, eighteen hundred and seventy-one, and ending June thirtieth, eighteen hundred and seventy-three:

GENERAL FUND.		
<i>Receipts.</i>		
Balance as per last biennial report.....	\$13,432 48	
Balance on Controller's warrant (hypothecated), drawn for \$26,833 33, upon which was borrowed \$24,000.....	2,833 33	
Balance on Controller's warrant (hypothecated), drawn for \$13,418 17, upon which was borrowed \$12,000.	1,418 17	
Balance on Controller's warrant (hypothecated), drawn for \$13,418 17, upon which was borrowed \$12,000.....	1,418 17

FUND FOR REPAIRS.		
Amount received on Controller's warrant....	\$8,800 00	
Amount disbursed, as per vouchers on file....	465 01	
Balance in Fund.....		\$8,334 99

RECAPITULATION.		
Balance in General Fund.....	\$15,720 99	
Balance in Improvement Fund.....	12,175 38	
Balance in Fund for repairs.....	8,334 99	
		\$36,231 36
Amount of indebtedness of the Asylum is as follows:		
General Fund.....	\$15,440 66	
Improvement Fund.....	12,301 39	
Total indebtedness.....		\$27,742 05

All of which is respectfully submitted.

Your obedient servant,

P. V. BATTE,
Treasurer.

TWENTY-FIRST ANNUAL REPORT

OF THE

SUPERINTENDENT OF THE INSANE ASYLUM

OF THE

STATE OF CALIFORNIA,

FOR THE YEAR 1873.

SUPERINTENDENT'S REPORT.

To the Directors of the Insane Asylum of the State of California:

GENTLEMEN: In compliance with the law governing the Insane Asylum of the State of California, as Superintendent thereof, I hereby submit my annual report. Heretofore the Asylum year has ended with the last day of September. The present law, as enacted by the adoption of the Code, requires the reports to be made up to the first day of July; hence the report for eighteen hundred and seventy-three embraces only nine months. The report for eighteen hundred and seventy-two, mostly statistical, and in tabular form, will also be found appended hereto, and marked Appendix "A."

ANNUAL SUMMARY.

The following summary exhibits the number of patients in the Asylum, October first, eighteen hundred and seventy-two, the number of admissions, discharges, deaths, and elopements, during the nominal year, and the number remaining in the Asylum July first, eighteen hundred and seventy-three:

From September 30, 1872, to July 1, 1873.	Males.	Females.	Totals.
Number of patients, October 1st, 1872.....	796	327	1,123
Number admitted during the nine months ending June 30th, 1873.....	295	106	401
Number under care and treatment.....	1,091	433	1,524
Number discharged recovered.....	127	58	185
Number discharged improved.....	12	6	18
Number discharged unimproved.....	1		1
Number died.....	109	43	152
Number eloped.....	10	2	12
Discharged, died, and eloped.....	259	109	368
Number of patients remaining July 1st, 1873.	832	324	1,156

The above table shows that there were eleven hundred and twenty-three patients at the beginning of the year; that four hundred and one were admitted during the year up to July; that two hundred and four were discharged; that one hundred and fifty-two died; that twelve eloped; leaving in the Asylum July first, eighteen hundred and seventy-three, eleven hundred and fifty-six patients. The falling off in the admissions is, of course, attributable to the circumstance that three months of the year are not included in the account. The result, as compared with former years, and other institutions, are not only satisfactory, but much better than could be reasonably looked for under the unfavorable circumstances of an overcrowded and overgrown institution. The recoveries exceed forty-six per cent of the admissions, and the deaths are less than ten per cent of the whole number treated, and do not vary much from the average for the past ten years.

PRINCIPAL CAUSES OF DEATH.

The following table will show, at a glance, the leading causes of death:

Causes of death.	Males.	Females.	Totals.
Consumption	16	16	32
Exhaustion from mania.....	15	5	20
Paralysis	13	3	16
Organic diseases of the brain.....	12	3	15
Chronic cerebritis.....	11	11
Marasmus	5	3	8
General paralysis.....	6	6
Epilepsy.....	5	1	6

The causes of death are given in full, for each month, in another part of the report.

ESCAPES.

The number of unreturned escapes has been less during the past two years than for several previous years. This is owing, in a great measure, to the increased facilities for communication and travel. It is not so much that fewer patients elope, as it is that a larger proportion of this troublesome class is found and returned. This evil will cease to be felt when certain prospective improvements, already provided for, are carried out, and the numerical size of the institution is made to correspond with the capacity of its buildings.

COUNTIES FROM WHICH PATIENTS WERE COMMITTED.

TABLE A.

Showing the number of patients sent from each county of the State from October first, eighteen hundred and seventy-two, to July first, eighteen hundred and seventy-three.

Counties.	Males.	Females.	Totals.

Yolo	2	2	4
Yuba.....	5	2	7
State Prison.....	3	3
Totals.....	295	106	401

COUNTIES SENDING LARGEST NUMBER OF PATIENTS.

The above table will be found to be of practical use at the present time in estimating the proportion of the insane who will go to the Napa Asylum, when that institution is in a condition to receive patients. For several years past, about two fifths of all our insane have come from San Francisco. The opening of the Napa Asylum will cut off from the Stockton Asylum this most productive source of its burdens, and enable it gradually to relieve itself. On the other hand, the next three counties furnishing the greatest number of patients, to wit: Sacramento, San Joaquin, and Santa Clara, will continue to be accommodated at Stockton. From these three counties come about one fifth of all the patients.

REMARKS ON ABOVE TABLE.

This table, containing the admissions for only nine months, is proof that the inmates of this Asylum represent nearly all parts of the world. It shows that no nation or people is exempt from mental disease. It is true, that insanity, as we see it, is a disease of civilization; but this may be owing more to the protection which the benign governments of civilization give the victims of this malady, and the consequent preservation and transmission of the unsound element, than to any sanitary effect of the uncultivated state. It is, in some degree, on account of an hereditary taint, preserved and continued from generation to generation, that we see in the above table such a large proportion of European nativities.

ASSIGNED CAUSES OF INSANITY.

TABLE E.

Showing the supposed cause of insanity of four hundred and one patients, as stated in commitments, from October first, eighteen hundred and seventy-two, to July first, eighteen hundred and seventy-three.

INTEMPERANCE AS A CAUSE OF INSANITY.

The tables giving the "supposed cause of insanity" are made up from the Examining Physician's certificates, accompanying and constituting a part of the commitments. They do not fully represent the extent of the operation of a cause which produces more insanity on the Pacific Coast than any other one influence. I refer to intemperance. For instance, during the nine months embraced in this report, the commitments assign intemperance as the cause of insanity in thirty-three cases. Add twelve, for the remaining fourth of the year, and we have forty-eight. A careful examination of all the commitments received during this period shows, that of the one hundred and eighty-nine cases in which the cause of insanity is stated as unknown, thirty-seven are represented as of "intemperate habits," "a hard drinker," "addicted to the use of ardent spirits," and so forth. This is at the rate of about fifty cases for the entire year, which, added to the forty-eight cases in which intemperance was the cause assigned, gives ninety-eight cases a year in which intemperance in alcoholic liquids was the sole or an auxiliary cause of the mental disease. Although the tables of "supposed causes," as taken from the commitments, do not show it, an examination of the history of each individual case reveals the fact, that, for several years past, intemperance has given us an average of one hundred patients annually, or about twenty per cent of the whole number admitted.

Our commitments are equally erroneous, in the opposite direction, in ascribing masturbation as a cause of insanity. Owing, perhaps, to a popular idea that this is one of the most common causes of insanity in the unmarried male, it is in doubtful cases too hastily given as such, and without sufficient evidence of the practice, or on mere suspicion. In this particular our tables are gross exaggerations, and furnish no reliable information. In other respects, I believe them to be generally correct.

GENERAL STATISTICS.

The following table presents the whole number of admissions, recoveries, the number resident at the close of each year, annual increase, ratio of recoveries and deaths, from the opening of the institution to July first, eighteen hundred and seventy-three. The Asylum was opened exclusively for the care of the insane, July first, eighteen hundred and fifty-three, but, prior to that time, the insane of California were all kept here in what was then termed the Insane Department of the General Hospital; and that period is embraced in the table, in order to give a complete statistical history of insanity in this State.

NUMBER OF ADMISSIONS, RECOVERIES, DEATHS, ETC.

YEARS.	Admissions.....	Recoveries	Discharged uncured	Deaths.....	Escaped	Number resident at the close of each year.....	Increase.....	Decrease	Whole number treated	Per cent of recoveries to admissions	Per cent of deaths on the number treated

1872	506	240	33	188	12	1,123	33	1,596	47.43	11.78
1873	401	185	19	152	12	1,156	33	1,524	46.13	9.97
Totals.....	6,588	3,134	423	1,673	202	1,159	3

An examination of the foregoing general statistics shows that six thousand five hundred and eighty-eight patients have been received into the Asylum; that three thousand one hundred and thirty-four have been discharged recovered, and four hundred and twenty-three unrecovered; that one thousand six hundred and seventy-three have died; and that two hundred and two have successfully made their escape. The recoveries average over forty-seven and a half per cent on the whole number admitted. The average annual increase of patients for the whole period of twenty-three years, is fifty and one half.

ENGINE HOUSE AND LAUNDRY.

Since our last published report, important and valuable improvements have been made. The new laundry and engine house have been completed and are now in successful use. They are built in a most substantial and careful manner, both with reference to the workmanship and the material used. The machinery is of the most improved kind. Indeed, no part of the institution presents a more attractive appearance, or contributes more essentially to the successful operation of the Asylum, than these admirable improvements. A wood house and machinery for sawing wood by steam power, have also been put up in connection with the engine and laundry building, and are in daily use.

NEW WING.

The construction of the north wing of the building for the females, provided for by an Act of the last Legislature, is rapidly progressing. The contract, awarded to Thomas H. Day, Esq., of San Francisco, is being performed by him and his sub-contractors in a satisfactory manner, and, in my judgment, with rare fidelity. On the part of the State the work is under the experienced superintendence of Henry Williams, Esq., of this city, a practical builder of inflexible exactness in the discharge of his duty. The work is already far advanced. The walls will be up and the building roofed in before the commencement of the rainy season; and, from the energy and efficiency already manifested by the contractor, a confidence that he will have it completed in April next, the time specified in the contract, is so well established in my mind, that no doubt on that point can reasonably exist. The construction of the wing will complete the entire building and carry out the plan adopted more than eight years ago. When this is done, there will be ample room for the accommodation of the females of this institution; and, according to my calculation, the time will never come again when the accommodations of this department of the Asylum need be materially enlarged. Before they again become crowded provisions elsewhere will stay the increase.

OTHER IMPROVEMENTS.

Other improvements initiated, especially the construction of cisterns for the protection against fire, hitherto hazardously delayed, are essential and worthy of mention; but, though they will be prosecuted to completion this Fall, they are not at this date sufficiently advanced to take a place in this annual record, as work done in the period embraced herein.

CROWDED CONDITION OF MALE DEPARTMENT.

I will not attempt to represent the exact degree of compactness with which the males are stowed away in their department. Like a correct description of many of California marvels, the truth would be viewed as an exaggeration, and the author thereof as a Munchausen. Furthermore, complaints are out of time now, as the Legislature has already made provision for our relief. But we watch the coming of that relief with somewhat of the fearful suspense of the mariner upon an overladen and sinking ship, who, though he sees the approaching succor in the distance, is yet doubtful whether he can hold out until it reaches him.

LIBRARIES, AND DONATION OF BOOKS AND PAPERS.

In eighteen hundred and sixty-nine, we had the pleasure of acknowledging liberal donations of books and pictures from a distant quarter—one from Miss Dix, and one from John S. Pierson, Esq., of New York. It was then determined to make these gifts the nucleus of two distinct, permanent libraries—one for the female and one for the male department—to be known as the “Dix Library” and the “Pierson Library.” The plan has been successful. The Pierson Library alone contains about nine hundred volumes; and both are annually increasing. Another generous contribution of valuable books, and chromos, engravings, and other beautiful and attractive pictures, have just been received from Mr. Pierson. No words can fully express our feelings of obligation and gratitude to this liberal and philanthropic gentleman for these repeated favors. In this connection I thankfully have to mention others who have favored us with similar contributions of books, and files of magazines and pictorials, to wit: Mrs. James, Mrs. H. F. Hubbard, R. A. Varri, A. L. Bancroft & Co., Mr. Richard Tobin, Mr. J. A. Donohue, Catholic Publishing Society, Society of California Pioneers, Mr. Charles Berwick, Mr. Sidney Newell, Mr. William A. Smyth, Mr. J. W. Tucker, Sherman & Hyde (music), and several of the officers and employes of the Asylum. We are also under obligation to Mr. M. Gray, of San Francisco, for donations of various kinds of musical instruments. We would furthermore extend our thanks to the editors and proprietors of upwards of twenty newspapers—dailies and weeklies—for a gratuitous supply of their papers. Who can fully appreciate the benefits of these gifts to nearly twelve hundred persons, retaining, in a good degree, their varied tastes and attainments, but isolated from the world and cut off from such enjoyments, but for the voluntary bestowals of charitable people? If any have been inadvertently overlooked who have thus contributed to the welfare and comfort of our inmates, I am sorry for my own neglect. They, as well as those mentioned, “will find in the act reward, and need no trumpet in the receiver.”

A CEMETERY NEEDED.

The liberality with which the last Legislature responded to our calls, has nearly saved us the necessity of asking for further special appropriations. One more want, however, is urgent. We have no place to bury the dead. The small inclosure for that purpose, unfortunately situated in the center of the grounds, is filled; and its use cannot possibly be continued more than a few months longer. I would, therefore, suggest

that the authority and an appropriation be asked for of the Legislature, to purchase ground for a suitable cemetery for the exclusive use of the Asylum, provided a conditional bargain for the same be first made at a satisfactory price. It should be situated off of the present Asylum grounds, but so near thereto as not to involve an undue expenditure of time and labor in the conveyance and burial of the dead. It would be most prudent to secure not less than ten acres. For it will be needed for a period to which we can place no limit; and, for a long time to come, the number of deaths cannot be expected to fall below one hundred annually, the average number for the last five years being one hundred and seventy-three a year.

INSANE CONVICTS.

I beg leave, through you, to suggest to his Excellency the propriety of a change in the law concerning the care of insane convicts. Under the operation of the present Act, authorizing them to be sent to the Insane Asylum, we now have in this institution twenty convicts received directly from the State Prison. Within the period of my superintendency there have been, in all, forty-six patients transferred from San Quentin to Stockton. Among them were murderers, highway robbers, burglars, thieves, and the perpetrators of other atrocious crimes. Some of them, in their physical outlines, no less than by their vicious lives, illustrate a brutalized degeneracy, reached only through a long course of ancestral debasement. They are generally familiar with all the low slang, mischievous acts, and common vices usually prevalent in the haunts of criminals. Mental disease does not deprive them of those bad attainments, nor wholly destroy their natural characteristics. It seldom changes them for the better or renders their influence other than pernicious. The murderer, becoming insane, is more disposed to homicidal violence than is the good, law-abiding citizen, with the same mental affection. So the insane thief is more likely to steal than the patient who, before his insanity, had respected the rights and property of others. And the burglar, unless stupid in dementia or a purposeless maniac, is almost certain to contrive the means of picking locks, and of making his escape from the Asylum. He is also very likely to teach others his troublesome art. In spite of the closest confinement, and the best security consistent with Asylum discipline, twenty-five per cent of our convict patients have escaped. The influence of this class of patients upon the others, is incalculably bad in every respect.

But, by this incompatible mixture, a still greater wrong is done the other inmates socially. By compulsion, and without fault of their own, they are made the associates of convicted felons.

We must not suppose the insane are stolid and indifferent as to their moral and social position. On the contrary, they are frequently rendered more acutely sensitive to every apparent disrespect or derogation. One of the chief objections many of them have to being in the Asylum, is the fancied disgrace thereby incurred. It is well known that in the proper management of the insane, the greatest caution must be observed not to wound their feelings of self-respect and pride.

If it be not so with all, there are always some in the wards who feel degraded and outraged at this compulsory association with convicts. Indeed, I question the moral right, though the Legislature has arbitrarily established the legal one, to force upon the society of the honorable and upright, who are secluded from the public by the misfortune of

sickness, the convicted felon, who has been excluded from the general society of his fellow beings solely on account of his crimes. To do so is to tantalize misfortune, and to add a needless shame to affliction.

I am not led to these remarks from any want of proper feelings of humanity toward the doubly unfortunate insane convicts. For them I would not object to an even better care, and more spacious accommodations, than they can at present get in this Asylum. In the terse phrase of the English statute of George the Second, they should be "kept, maintained, and cured." But they should be kept by themselves. In the eyes of other patients, the disgrace of the penitentiary is not removed by the supervision of insanity. The fact of their being convicts alone renders them objectionable. It has also a tendency to injure the standing of the institution where they are kept. For instance, what would be the character of an asylum devoted exclusively to the care of insane convicts? Who would desire to send a near relative or friend to such an institution, however perfect the management or spacious the accommodations?

Having less than two per cent of this class in our asylum, no complaint has yet been heard from the friends of the inmates on account of the keeping of this class herein. But the practice, in other institutions, has given rise to such complaints. It will naturally manifest itself here, in time, should the convict element increase, or should a few notorious characters, like young Quinn, be admitted. What parent would feel satisfied with having this Quinn in the same institution with their young, demented daughter, even though separated by a wall reaching to the skies?

I need not, however, suppose cases to show the impropriety of the association of convicts with other patients, or of maintaining them in our State asylums established for the accommodation of the insane generally.

There have been in this institution, District Judges, District Attorneys, and Sheriffs, regularly committed and detained as patients. Now, while it is true that insanity should suspend the punishment of the convict, it does not follow that it may with propriety compel the Judge, the District Attorney, and the Sheriff to be his associates.

Ever since the trial of the famous Hadfield case, for an attempt to assassinate George the Third—more famous for Erskine's defence than for its connection with the King (and from which the world has gained more in Erskine's speech than it would have lost in the death of a King) the British Government has been making steady progress in the policy of establishing separate prisons for its "criminal insane." I might quote from its most eminent statesmen, such as the Earl of Shaftesbury, the Earl of Derby, Lord St. Leonards, as well as from its no less eminent alienist-physicians, their expressions of condemnation of the practice of associating insane convicts with other classes of these unfortunates. Separate provision is now made in England, and generally in her Colonies, for the criminal class.

It may be said that we have less regard for class in our republican form of government. That is true. But we cannot be too careful, in our love of democratic equality, not to level down to the stratum of crime.

The term "criminal lunatic," or "criminal insane," however, as employed in England, has a conventional usage. It applies not only to prisoners who have become insane since their conviction and sentence, but to those who have been charged with criminal offenses against the

law and cleared on the ground of insanity. Those who commit grave offenses, under the influence of an insane delusion or impulse, such as homicide, arson, and so forth, are permanently confined in separate establishments for the "criminal insane." This class is denominated "criminal" from the character of the act, not because of the guilt of the actor. The act, however atrocious in itself, is but the offspring of disease. The perpetrator thereof is not accountable for its commission. But the English law prudently requires such offenders to be confined, to secure the public against the danger of a repetition of such acts.

I am unable to see the impropriety of maintaining this class in the asylum with other less dangerous but not less irresponsible patients. In the ordinary discretion and prudence in the management of the asylum, they would be classified, or kept in separate or more secure wards, or changed from one ward to another, according to their varying mental condition and disposition.

To secure society against the insane acts of persons rendered dangerous and irresponsible by reason of their mental disease, is the legitimate object of our asylums for the insane. The inmates, generally, do not regard the associations with such, as offensive or disgraceful. They have, in a remarkable degree, correct discrimination in this respect, as is illustrated by the remark, quoted in some work, of the lunatic in an asylum, on hearing that an insane man had committed a homicide: "They cannot hurt him for it," said the lunatic, "for he is one of us." For such, however dangerous they may be, the State Asylum is the proper place. It is a confinement without disgrace, because it comes not from the willful wrongdoing of the confined, but from offenses which are the offspring of a disease with which the best citizens may be afflicted. It is a confinement which holds no relation with crime, and should bear no feature of punishment.

We come now to the practical question, What shall be done with the insane convicts? The conclusion expressed in England, twenty years ago, in a memorial to Lord Palmerston, then the Principal Secretary of State for the Home Department of the British Government, suggested, in my view, the proper course:

"Convicts becoming insane in prison should not be sent to asylums, but a ward, or some other appropriate place in connection with the infirmary of the prison, should be appointed for the confinement of such patients, who should be placed under the immediate charge of the medical officer of the prison, and there remain under his treatment until the time of their imprisonment has expired, unless recovery should take place before the expiration of said term." *

This is, in substance, the view now entertained by nearly all who are or have been connected with the care of the insane. A similar opinion was formally declared by resolution, by the "Association of Medical Superintendents of American Institutions for the Insane," at its last meeting.

In conclusion, I thankfully return my acknowledgments to the resident officers and employes of the asylum, for their courtesy and faithful attention to their respective duties.

* Criminal Lunacy, by W. Charles Hood, M. D.

REPORT.

To the Directors of the Insane Asylum of the State of California:

GENTLEMEN: I herewith submit my annual report, giving a synoptical account of the operations of the Asylum for the year ending September thirtieth, eighteen hundred and seventy-two.

By the following summary, it will be seen that the year commenced with ten hundred and ninety patients; that the whole number admitted during the year was five hundred and six, making the whole number under care and treatment during the year one thousand five hundred and ninety-six; of this number, two hundred and forty were discharged cured; thirty have been discharged as improved; three were discharged as unimproved; one hundred and eighty-eight died, and twelve eloped, leaving eleven hundred and twenty-three in the Asylum October first, eighteen hundred and seventy-two.

From September 30th, 1871, to October 1st, 1872.	Males.	Females.	Totals.
Number of patients, October 1st, 1871.....	786	304	1,090
Number admitted during the year.....	359	147	506
Number under care and treatment.....	1,145	451	1,596
Number discharged recovered.....	176	64	240
Number discharged improved..	16	14	30
Number discharged unimproved.....	3	3
Number died	144	44	188
Number eloped	10	2	12
Discharged, died, and eloped.....	349	124	473
Number of patients, October 1st, 1872.....	796	327	1,123

The following tabular statements will present the full and usual statistical information of the year. As you are not required to report to

the Governor until after my next annual report will be submitted to you, and as monthly reports have been made of our financial affairs, it is unnecessary to comment further upon the statistical facts herein presented.

BIENNIAL REPORT

OF THE

BOARD OF DIRECTORS

OF THE

CALIFORNIA STATE PRISON,

COMMENCING JULY 1ST, 1871, AND ENDING JUNE 30TH, 1873.

OFFICERS.

BOARD OF DIRECTORS:

NEWTON BOOTH.....Governor.
DRURY MELONE.....Secretary of State.
R. PACHECO.....Lieutenant Governor.

WARDEN:

R. PACHECO.....Lieutenant Governor.
WM. M. HARRON.....Commissary.
P. W. RANDLE.....Physician.
LEE B. MATTHEWS.....Captain of the Yard.
JAMES TOWLE.....Captain of the Guard.
WM. H. MCGREW.....Clerk.
C. P. TINKHAM.....Turnkey.
MIGUEL SMITH.....Moral Instructor.
R. M. APGAR.....First Gate Keeper.
JAS. FITZPATRICK.....Second Gate Keeper.

REPORT.

OFFICE OF THE BOARD OF STATE PRISON DIRECTORS, }
SAN QUENTIN, July 1st, 1873. }

To His Excellency,
NEWTON BOOTH,
Governor of California:

In compliance with the requirements of law, we beg leave to submit the following report of the Resident Director, giving the transactions in full of the California State Prison for the two years ending June thirtieth, eighteen hundred and seventy-three, and general statistics relating to the inmates of the same. Also, the report of Dr. Randle, Resident Physician, together with inventory of all real and personal property belonging to the prison.

Very respectfully,

R. PACHECO,
DRURY MELONE,
State Prison Directors.

Resident Director's Report.

RESIDENT DIRECTOR'S REPORT.

CALIFORNIA STATE PRISON,
SAN QUENTIN, July 1st, 1873. }

To the Honorable Board of Directors:

GENTLEMEN: I have the honor herewith to present my biennial report as Resident Director, commencing July first, eighteen hundred and seventy-one, and ending June thirtieth, eighteen hundred and seventy-three, containing a financial statement of receipts and disbursements, inventory of property, classification of prisoners, etc.

NUMBER OF PRISONERS.

In confinement July 1, 1871.....	880
Received during the two years.....	774
Total	1,654
Discharged by expiration of sentence..... 530	
Commutation	4
Pardon	108
New trials and habeas corpus.....	40
Death	25
Escape.....	4
Sent to Insane Asylum..... 12	
	723
Leaving in confinement July 1, 1873.....	931

Of these, five hundred and ninety-four are in cells. The number of cells is four hundred and forty-four. Of this number, three hundred and ninety-six are single cells, and contain four hundred and fifty-five

prisoners. The other cells, forty-eight in number, are double, and contain one hundred and thirty-nine prisoners. Besides the cells, there are nine rooms (including hospital). Three hundred and nineteen prisoners are confined in these. The greatest number contained in either room is forty-five, and the smallest number is twenty-two. The residue are females and trusties.

It must be apparent to all thoughtful minds that a system of congregating in one room over twenty-two persons, who may have been convicted of as many different crimes, is entirely wrong, and must reflect severely upon the people of our State. Surely words are not needed to show the terrible consequences of the free mingling together of all sorts of convicts, or of thrusting them indiscriminately, by the couple or the half dozen, into the same cell. Nothing could be more utterly subversive of all the purposes of punishment, whether exemplary or reformatory; no better contrivance could be invented for giving vice the fullest opportunity for fermenting and propagating its contagion.

The young in years and crime are thrust into the companionship of old and hardened graduates from every prison in the civilized world. These old transgressors not only embrace every opportunity of recounting past exploits in crime, but ridicule every effort at reformation they may detect in their associates. It is impossible to over-estimate the moral injury thus inflicted.

Not a great many years ago it was believed that the sole use of imprisonment was the protection of society and the suppression of crime—the moral amendment of convicts was held to be an impossibility. Happily for the poor criminal, a more merciful belief has taken the place of this cruel doctrine.

It has been proven, not once, but frequently, that thorough reformation has taken place inside the walls of a prison, and it is now believed by the majority of those who have given the subject much thought, that the chief object of prison discipline should be to correct the bad habits of those subject to it, and to return them to society, as far as possible, honest, industrious, and useful members of it.

Separate cells for each and every individual within the walls of our State Prison are absolutely necessary, if we are to hope for their moral amendment.

Five hundred single cells are very much needed, and should be constructed without delay, if we are to maintain the present number of convicts.

Nativity of the Prisoners now in Confinement.	No.

Colusa.....	6
Inyo.....	6
Mariposa.....	6
Mendocino.....	6
Monterey.....	6
Stanislaus.....	6
San Diego.....	7

Other counties represented range from one to five each.

Of the natives of the United States, one hundred and fourteen are natives of California: one hundred and twelve are natives of New York; thirty-two are natives of Pennsylvania; Kentucky, Massachusetts, Ohio, and Missouri, twenty-one each; Louisiana, fourteen; Illinois, eleven; Maine and New Jersey, ten each. The other States represented, range from one to nine each.

Five hundred and thirty-one prisoners are working for contractors.

The contract with A. W. Baldwin, shoemaker, is dated February first, eighteen hundred and seventy, to continue till February first, eighteen hundred and seventy-two, for fifty convicts, with privilege to increase to one hundred, at the rate of forty cents each per day.

Contract with N. P. Cole & Co., furniture manufacturers, is dated July, eighteen hundred and seventy, to continue to January, eighteen hundred and seventy-four, for two hundred convicts, with privilege of one hundred more, at forty cents.

Stone & Hayden, harness makers, dated March first, eighteen hundred and seventy-two, to continue till March first, eighteen hundred and seventy-six, for one hundred and twenty-five to one hundred and fifty convicts, at same rate as above.

G. Oliva & Co., brick makers, contract commenced June first, eighteen hundred and seventy-two, to continue for two or more seasons, for sixty-five or more convicts, at fifty-five cents each per day.

E. Soule, wagon maker, works twenty men, at forty cents per day.

The residue, except the sick, insane, and indigent, are in the service of the State in various capacities. A day's work in the shops is nine hours, from the twenty-first of March to the twenty-first of September, and seven hours the residue of the year.

It will be seen, by the foregoing, that the labor of the convicts is let to contractors, who hire it for a stipulated period, at forty cents per day

for each man. I believe the rates paid for the same are not, on the average, more than one third what is paid for the same kinds of labor outside, while the convict laborers do about three fourths as much work as the same number of free men. The contractor can obtain the labor of three convicts where he would get that of one citizen. In other words, the labor of twelve convicts will cost no more per day than that of four citizens, yet the convicts will do nine days' work while the citizens will do but four. Thus, every dollar paid for convict labor should produce at least as much as two dollars and an eighth expended on citizen labor. Besides getting the labor of prisoners at these cheap rates, the contractors are furnished with water, machinery, and all necessary shop and yard room, rent free, an item which should be considered worth hundreds or even thousands of dollars per annum. Under these circumstances, without competition, or even demand, for our full number of men, the State will continue to be the loser by a system which sells the labor of its convicts at such terribly low rates.

The following fact is worthy of consideration: While our free laborer earns higher wages, we do not receive as much for convict labor as similar institutions do in the Eastern States; and wherever the prisoners are self-sustaining, convict labor brings no less than seventy-five cents per day.

I would be inclined to recommend that the State should work its convicts upon its own account, provided the officers of the prison were made permanent, and the Warden a man of integrity, and possessed of fair business talent.

The average number of prisoners in confinement during the last two years is nine hundred and fifteen and one half.

The expense directly and solely applied to prisoners during the same time amounts to one hundred and twenty-nine dollars and seventy-six cents each, and one hundred and eighteen thousand seven hundred and ninety-five dollars and eight cents, in the aggregate. The earnings by convict labor for the same time is one hundred and sixteen thousand one hundred and eighty-six dollars and twelve cents; this, apportioned to the number of convicts, would be one hundred and twenty-six dollars and ninety-one cents each.

The cost of maintaining the prison for the two years is..	\$298,350 76
Expenses for improvements, buildings, and property.....	57,433 35
Entire expenditures.....	\$355,784 11
Earnings and sales.....	143,173 86
Excess of expenditures.....	\$212 610 25
The average cost per month, not including buildings and improvements, has been.....	\$12,431 28
And the average earnings.....	5,469 06
Hence, an average excess of cost per month of.....	\$6,962 22

The total expenses incurred during the past two years, being \$355.784 11, and this expense being incident to keeping in confinement 915 prisoners, the expense for each for that length of time is.....	\$388 63
Per month per prisoner.....	16 19
Per day per prisoner.....	53½
<hr/>	
The total earnings, \$131,257 44, apportioned to number of prisoners would be, each.....	\$143 37
Per month, each.....	5 97
Per day, each.....	19½
Excess of expense per day per prisoner, about.....	33½

The liabilities of the prison this day amount to thirty-two thousand and seventy-three dollars and forty-five cents.

IMPROVEMENTS.

The buildings and property belonging to the State, connected with the State Prison, are all substantial and in good repair, with one exception. The main walls surrounding the prison are built of very inferior brick, and are rapidly softening and decaying. It is of the utmost importance that they should be repaired and strengthened, but it has not been done owing to the lack of funds.

The roofs of the prisons and workshops, together with the commissary store and outside offices, have undergone general repairs and renovating; plank floors have been laid in the large rooms of the old prison and in the lower dining rooms of the new building, adding much to the cleanliness and comfort of the prisoners. The cells and rooms have regular and constant attention in the way of scrubbing and whitening, and the prison throughout has been thoroughly painted.

Improvements have been made in the way of filling and raising our roads and grounds, which are being generally macadamized. Sidewalks are laid down where needed, new flower gardens laid out, shade and ornamental trees planted, and the entire prison grounds inclosed with a neat board fence.

The slaughter-house and hog-pens have been removed and rebuilt, thereby adding to the comfort and health of the prison.

A powerful donkey engine has been added to the salt water reservoir, with pipes and fittings in connection, that gives us a wholesome supply of salt water, indispensable for the cleansing of sewers, yards, etc. A fine and ample laundry, built of brick within the walls, is now in daily use and operation. A dwelling for the use of the Resident Director has been completed in a substantial and durable manner; also, residences for the Captain of the Yard and the Gate Keeper, all of which are ornaments to the grounds.

Many alterations and improvements are continually being made, all of which tend to the better discipline and welfare of the prisoners. The food of the prisoners is abundant, nourishing, and palatable, and we are sure will compare very favorably with what is afforded convicts in similar institutions. They are provided with a sufficiency of good clothing,

shoes, and bedding, and no effort spared to render them as comfortable as circumstances will admit.

The great scarcity of water was a well founded source of complaint from both contractors and prisoners, as our former supply was insufficient for the purposes of cooking and the proper cleansing of the prison. The sinking of extra wells in Happy Valley, together with the purchase of a twelve-horse power engine, and twenty-five hundred feet of two-inch iron pipe still proved inadequate to the necessities of the increased number of prisoners.

The Board of Directors, under the existing circumstances, entered into a contract with the Marin County Water Company, for a supply of fifty thousand gallons per day, for the sum of one thousand dollars per month.

I need not speak of the importance of this step, nor of the increased comfort of all in any way connected with the prison. A reservoir of cement and brick, capable of containing four hundred and twenty thousand gallons, has been built upon the brow of the hill north of the prison. It is now in perfect order, and already in use. It was built in the most thorough and substantial manner, and will last for ages.

DISCIPLINE.

It is difficult in the extreme to know just how to enforce prison discipline, and at the same time to encourage the culprit to attempt a different and better life. There are comparatively but few who do not appreciate that kind of treatment which recognizes and appeals to their manhood. Let a prisoner feel that he is treated with injustice, and a defiant, dogged spirit is roused within him, which will put an effectual bar to all hope of amendment upon his part. But give him facilities for improvement, commend him kindly for duties well performed, hold out the possibilities of a better life, and there are but few who will not begin by wishing to amend; and that this is the first and most important step in the right direction, no one will deny.

Let the officers of a prison be only those who believe that however abased or hardened a criminal may be, it is yet *possible* for him to reform, and another great point is gained. Such an officer will not readily abandon his efforts to rouse into life the dormant spark of right feeling, which, let us hope, exists in every breast, however deeply steeped in crime its possessor may be.

Our policy has been to govern, as far as possible, by presenting to the man motives that would induce him to right action and good behavior. The atrocities which disgraced the prisons of a bygone period should not be repeated or even tolerated. Yet punishment is sometimes an absolute necessity. To fail to inflict it would be to fail to govern, since there are those who seem to construe everything like humane treatment as indication of weakness.

The mode of punishment now generally practiced is confinement in the dungeon, with a limited allowance of food. We have used to some extent the shower-bath, applied moderately, and but very rarely the whip.

EDUCATION.

That the lamentable ignorance of the majority of criminals is in a great degree the cause and prompter of vice, can scarcely be doubted.

But the existant contract system deals an almost fatal blow at the project of edneating, in however slight a degree, the men whose labor they buy. However, the little that can be done is being done. The school under the direction of the Moral Instructor is carried on, but with far fewer pupils than could be wished; and if the desire for useful knowledge is strongly implanted in but two or three breasts, the work should be continued. Much good is being done by the members of the Prison Commission, whose visits are unfailing and regular. The very fact that the sole aim of these gentlemen is to promote the welfare of the prisoners, without any hope of reward, has a strong moral effect.

Religious service is held regularly in the chapel of the prison, and is invariably well attended.

I desire, in conclusion, to speak as to the faithfulness and efficiency of all the officers and guards, while in the discharge of their respective duties; and to you, gentlemen of the Board of Directors, my thanks are due for the uniform kindness and courtesy shown me in all our official intercourse.

Respectfully submitted.

R. PACHECO,
Resident Director.

AVERAGE MONTHLY EARNINGS.

Labor of convicts.....	\$4,841 09
From United States.....	526 83
Drayage.....	92 07
Wash house.....	9 07
Total.....	\$5,469 06

GENERAL SUMMARY—Continued.

AVERAGE DAILY EARNINGS.

Labor	\$158 94
United States.....	17 30
Drayage.....	3 02
Wash house.....	29
Total	\$179 55
Total cost.....	\$298,350 76
Total earnings.....	131,257 44
Excess of cost.....	\$167,093 32
Average monthly excess.....	\$6,962 22
Average daily excess	228 59

Estimated cost of boarding and lodging, clothing, washing, and medicines, for each prisoner for the last two years:

Subsistence	\$91 58
Clothing.....	20 00
Shoes	6 85
Bedding	6 04
Medicines.....	4 41
Washing.....	88
Total	\$129 75

In the above calculation, the cost of subsistence of officers and guards is estimated at one thousand dollars per month, and of the total cost for bedding, one sixteenth, and of washing expenses one half.

Cost per month of each prisoner for board, etc., as per last exhibit:

Subsistence.....	\$3 81 $\frac{7}{12}$
Clothing	83 $\frac{1}{2}$
Shoes	28 $\frac{1}{12}$
Bedding	25 $\frac{1}{6}$
Medicines	18 $\frac{1}{2}$
Washing	3 $\frac{3}{8}$
Total.....	\$5 40—

The earnings of convicts by labor in the last two years, \$116,186 12, divided by average number of prisoners in confinement during the same time, gives \$126 91—; monthly to each, \$5 29—.

Average number of prisoners monthly, 920. Average number in hospital, 19. Ratio of deaths per annum in 1,000, 12.

REMARKS.

There remained in the hospital August 1, 1871, the date of Dr. Taliaferro's last report.....	22	
As far as I can ascertain, there were admitted during the months of August, September, October, November, and to December 14, 1871, the date when I took charge of the hospital.....	49	
Making total in hospital.....		71
There were discharged during the above months, cured.....	41	
Died during same period.....	5	
		46
Remaining in the hospital when I took charge, December 14, 1871.....		25

Since January 1, 1872, I have rendered quarterly reports of the sanitary condition of the prison, from which the accompanying tabular statement is consolidated, comprising dates, names, and number of diseases, number of patients treated, both in and outside the hospital; deaths natural, by homicide, suicide, and accidents, with the average number of prisoners monthly, average number in hospital monthly, and ratio of deaths per annum per thousand.

It may not be inappropriate for me to show, in a sanitary point of view, the sleeping capacity of the prison, with the present amount of space occupied by each prisoner. Some of the prisoners sleep in large rooms, some in cells with four (4) beds, some with two (2) beds, and some with one (1) bed, as follows:

Rooms.	No. beds.	Size.	No. cubic feet.	Obstruction.	Cubic feet to each man.
Red room.....	36	25.9x21.7x10	5,553.4	810	131.9
B.....	45	34x22x11.5	8,539.8	189.9
No. 1.....	21	12.7x22.7x10	2,712.6	405	109.10
No. 2.....	39	25.9x21.7x10	5,553.4	810	121.8
No. 3.....	45	25.9x21.7x10	5,553.4	810	105.5
No. 4.....	45	25.9x21.7x10	5,553.4	810	105.5
No. 5.....	39	25.9x21.7x10	5,553.4	810	121.8
No. 6.....	45	25.9x21.7x10	5,553.4	810	105.5
48 cells, each.....	4	10x6x7.9	465	116.3
66 cells, each.....	2	9x4x7.9	279	139.6
330 cells, each.....	1	9x4x7.9	279	279
Total accommodation.	969	Total No. cubic feet	177,326.2	5,265

Total number of beds outside the hospital for prisoners...	969
Total number of cubic feet.....	177,376.2
Average cubic feet to prisoner.....	177.7
Highest number of prisoners since January, 1872.....	951
Lowest number of prisoners since January, 1872.....	894
Average number of prisoners since January, 1872.....	920

Hospital has two rooms, 34x22x10.10, each. Total cubic feet, 16,206.8. Average beds, 23. Cubic feet to each patient, 704.7.

It will be seen by the above statement, which is strictly in accordance with measurement, that the patients in the hospital have an average of seven hundred and four cubic feet of space, which is quite little enough. The laws of physiology and hygiene require, as minimum, five hundred (500) cubic feet of well ventilated space for each individual; and when prisoners are crowded together, with only one hundred and seventy seven feet of illy ventilated space, re-respiring an atmosphere loaded with an effluvia from more or less diseased lungs, and unhealthy and unclean surfaces of the bodies of their companions, they cannot remain free from the contaminating and deteriorating influences and effects of such abnormal conditions, and are constantly frequenting the surgery. And in this connection I would respectfully suggest the absolute necessity (though under present circumstances, perhaps, not practicable), of classifying and grading the prisoners, that those susceptible of moral improvement might be exempted from the inevitable education into those secret and most degrading vices indulged in by the incorrigibles. If space would allow me, I think my experience would enable me to make some wholesome suggestions with reference to the general diet and hygiene of the prisoners, both as to their health and the financial interests of the State. In July, eighteen hundred and seventy-two, I vaccinated from original, unhumanized crusts, all the convicts then in the prison who did not seem thoroughly protected—six hundred and forty-five in number.

The sanitary management of the prison has been conducted with unremitting and scrupulous attention and energy by Lieutenant-Governor Pacheco, who has the respectful confidence and good-will of all the prisoners. A large proportion of the convicts sent to the prison, especially those from the large cities and towns, are effected with chronic diseases upon their arrival, such as syphilis, phthisis, scrofula, rheumatism, etc., generally contracted previous to their arrest, and aggravated by confinement and want of attention in the County Jail, some of whom do not sufficiently recuperate to be able to perform ordinary labor for weeks and months, and some never recover, but linger awhile and die from exhaustion and a dilapidated constitution, notwithstanding all the attention (both medical and nursing) that can be rendered them. I take pleasure in believing that the hygienic condition of the prison has much improved since the physician has been required to reside here.

REMARKS.

Number of cases treated outside the hospital (as far as I can ascertain), from date of Doctor Taliaferro's last report, July 31st, 1871, to December 14th, 1871, are as follows, viz :

Month of August.....	393
Month of September.....	318
Month of October.....	308
Month of November.....	279
Fourteen days of December.....	150
Total.....	1,448

The above accompanying remarks are respectfully submitted. With sentiments of consideration and esteem, I have the honor to be, very respectfully, your obedient servant,

P. W. RANDLE, M. D.,
Physician State Prison.

To the Honorable Board of State Prison Directors.

INVENTORY.

5—(e)

INVENTORY OF PROPERTY

BELONGING TO THE

CALIFORNIA STATE PRISON.

REAL ESTATE.

One hundred and forty-six acres.

BUILDINGS INSIDE THE WALL.

Large workshop.
Small workshop.
Two brick cell buildings.
One stone cell building.
Wash house.
Hospital.
Captain's office.

OUTSIDE THE WALL.

Guard building over front gate.
Commissary building.
Warden's residence.
Captain of the Guard's residence.
Front Gate Keeper's residence.
Physician's residence.
Stable and carriage house.
Five round houses—guard posts.
Slaughter house.
Engine house.
Building over lower gate.
Blacksmith shop.
Carpenter shop.
Two fresh water reservoirs—capacity of one is four hundred and twenty thousand gallons; capacity of the other, one hundred thousand gallons.

One salt water reservoir—capacity, one hundred and twenty thousand gallons.

Value altogether, eighteen thousand five hundred dollars.

Pipes and fittings in connection, to the value of twelve thousand dollars.

Tools and implements for cultivation and irrigation of vegetable and flower gardens.

Nine hundred and sixty bunks for prisoners.

Furniture and crockery in rooms and residences of officers of the prison, not hereinafter enumerated in detail, to the value of five thousand dollars.

Commissary stores on hand, four thousand two hundred and eight dollars and seventy-one cents.

Medicines and medical instruments, six hundred and eight dollars.

LIVE STOCK.

Fifteen horses.

Six milch cows.

Six calves.

One hundred and twenty-six hogs.

WAGONS AND HARNESS.

Two truck wagons.

Five carts.

One buggy.

One passenger wagon.

Two old lumber wagons.

Three sets double harness.

Three saddles and bridles.

One buggy harness.

ORDNANCE.

Three six-pounder brass field pieces.

One twelve-pounder brass howitzer.

Eleven minnie rifles.

Forty-six Colt's revolvers.

Three Remington revolvers.

Twenty-eight Henry rifles.

Three double-barreled shotguns.

Two marine glasses.

One spyglass.

Fifty pistol belts.

Fifty pistol holsters.

Forty-eight powder flasks.

Eighty cartridge boxes.

Ammunition.

ENGINE ROOM.

One seventy-five horse-power engine.

One eight-horse power donkey pump.

One tubular boiler, sixteen feet long.

One supply pump for boiler.

One spare set of grate bars.

Three spare door linings.

One spare door frame.

One balance wheel, fourteen feet diameter.
 One driving pulley, twelve feet diameter.
 One hundred feet main belt, two feet wide.
 Two hundred and fifty feet main shaft, complete.
 Three thousand five hundred feet fire pipes.
 Twenty-six fire boxes and plugs, complete.
 One thousand six hundred feet two and-one-half-inch fire hose, and
 nozzles, complete.
 Twenty-six feet six-inch rubber belt.
 Seventy-five one-inch hose nozzles, complete.
 One clock.
 One vise and bench.
 One step ladder.
 One twelve-pound sledge hammer.
 One sprinkling pot.
 Four chairs
 Fifty feet floor matting.
 Six fire buckets.
 Three shovels.
 One pair belt clamps, complete.
 Two spare pulleys.
 One hand hammer.
 Ten chisels.
 Two screw wrenches.
 Nine open end wrenches.
 One ratchet wrench.
 Four drills.
 One handsaw.
 Five files.
 Two belt punches.
 Two belt awls.
 Two wood chisels.
 Two oil cans.
 Two spare gauge glasses.
 Two dozen bolts.
 Twenty washers.
 One screwdriver.
 One caliper.
 Three scrubbing brushes.
 Two brooms.
 One set belt lacing.
 Two pounds black lead.
 Ten pounds red lead.
 Twenty pounds rubber packing.
 Fifteen pounds hemp packing.
 One wheelbarrow.

OUTSIDE THE WALL.

One five-horse power pumping engine, pump and boiler, six feet long,
 complete.
 One spare pump and frame.

GAS FITTERS' TOOLS.

Eight pair tongs.
 Three sets stocks and dies.

One pipe cutter.
Two screw wrenches.

TOOL SHOP.

Forty stone hammers.
Four cutting hammers.
Four stone drills.
Three mortar hods.
Three whip saws.
One crosscut saw.
One circular saw.
One scythe and snath.
Four shovels.
Four picks.
Six wheelbarrows.
One sledge hammer.
Three trowels.
Two hand hooks.
Two asphaltum kettles.
One derrick, block and tackle.
Twenty-five water barrels.
One spirit level.
One tar brush, bucket, and ladle.
One spinning jenny.
Six whitewash brushes.
Six whitewash buckets.

CARPENTERS' SHOP.

Three levels.
One bow saw.
One monkey wrench.
Two mallets.
One adze.
One glue pot.
Five squares.
Two pair compasses.
Three hammers.
Four hatchets.
Five saws.
Ten planes.
Thirty hollowed rounds and bevels.
Ten chisels.
Two gauges.
One brace.
Ten brace bits.
One auger.
Three screwdrivers.
Two spokeshaves.
Eighteen wood files.
Two saw sets.
Two oil cans.
Three oil stones.
Three drawing knives.
Three work benches.
Three wood vises.
One iron vise.

TINNER AND TURNER SHOP.

One screwdriver.
 Five files.
 Six mallets.
 Six soldering irons.
 Four folders.
 Two roofing tongues.
 One roller.
 One creasing.
 One large T stake.
 One small T stake.
 One gutter machine.
 Two stools.
 Two cutting pliers.
 One baising hammer.
 One wire pliers.
 Two scratch awls.
 One stone.
 Turning lathe.
 Four gauges.
 Four chisels.
 One pair compasses.
 One pair dividers.
 One hammer.
 One vise.
 One work bench.
 Four brace bits.
 One saw.
 One brace.
 One hatchet.
 One monkey wrench.
 One pair large bench shears.
 Two pair large snipes.
 One square plier.
 Three tools for turning metal pieces.
 Three mandrels.
 One square head.
 One dozen punches.
 Three rivet sets.
 One square.

BLACKSMITH SHOP.

Two bellows.
 Three anvils.
 Five hand hammers.
 Two drill machines.
 Two lots anvil tools.
 One lot shoeing tools.
 Four vises.
 Sixty-six files.
 One lot of bolts.
 Four work benches.
 One horse bench.
 Three tubs.
 One lot rivets.

One grindstone.
 One fire stone.
 Two sledge punches.
 One wheelbarrow.
 One balance wheel.

GLAZIER'S SHOP.

Two chisels.
 One diamond.
 One putty knife.
 One hammer.
 One pair pliers.

UPHOLSTER AND MATTRESS SHOP.

Three hammers.
 Two mattress needles.
 Two pair shears.
 Sewing machine and needles.
 One dozen ticks.

TAILOR SHOP.

Three sewing machines.
 Six pair scissors.
 Four goose irons.
 Five press boards.
 One stove.
 Two water pails.
 Four work tables.
 Lot of thread, needles, and thimbles.
 Two brushes.

BARBER SHOP.

Three pairs shears.
 Three razors.
 Three barber chairs.
 One stove.
 One bucket.
 Three brushes and combs.
 Ten towels, cups, etc.
 Two wash basins.
 One hone.

LAMP DEPARTMENT.

Five lanterns.
 Sixteen small lamps.
 Twenty-one large lamps.
 Seventeen reflectors.
 One pair lamp trimmers.
 Three oil cans.

BLANKETS AND MATTRESSES INSIDE PRISON WALL.

OLD (STONE) PRISON.

One hundred and ninety-six new mattresses.
 One hundred and ninety-six old mattresses.
 Three hundred and ninety-two old blankets.
 Three hundred and ninety-two new blankets.

MIDDLE PRISON.

One hundred and ten new mattresses.
 One hundred and ten old mattresses.
 Two hundred and twenty old blankets.
 Two hundred and twenty new blankets.

SOUTH PRISON.

One hundred and seventeen new mattresses.
 One hundred and seventeen old mattresses.
 Two hundred and thirty-four old blankets.
 Two hundred and thirty-four new blankets.

HOSPITAL.

Thirty-three new mattresses.
 Thirty-three old mattresses.
 Sixty-six old blankets.
 Sixty-six new blankets.

FEMALE DEPARTMENT.

Six mattresses.
 Twelve blankets.

HOSPITAL FURNITURE AND KITCHEN UTENSILS.

CLERKS' KITCHEN.

One table.
 Four stools.
 Three tin buckets.
 One wooden bucket.
 Three saucepans.
 Two coffee pots.
 One teapot.
 One glazed saucepan.
 One ten-gallon boiler.
 One steamer.
 One cooking stove and furniture.
 Four tin pans.
 Four tin cups.
 Eleven porcelain plates.
 Five vegetable dishes.
 Four saucers.
 Six tea cups.
 One rolling pin.
 One carving knife and fork.
 One potato masher.
 Two large spoons.
 One skimmer.
 Four tin plates.
 One dipper.
 One shovel.
 One dust pan.

One sieve.
 One tin boiler.
 One oil can.
 One cupboard.
 One bread pan.
 Fourteen joints stovepipe.
 One cake turner.
 One broom.

HOSPITAL KITCHEN.

One locker.
 One coffee mill.
 Two tables.
 One cupboard.
 Six porcelain plates.
 Five porcelain cups and saucers.
 Forty knives and forks.
 One teaspoon.
 Two table spoons.
 Twenty-five tin plates.
 Two tin pans.
 One rolling pin.
 One quart cup.
 Three coffee pots.
 One teapot.
 One cooking stove and furniture.
 Four joints pipe.
 One large frying pan.
 One small frying pan.
 Three cooking spoons.
 Six baking tins.
 Two boilers.
 Two steamers.
 Seven tin buckets.
 Six saucepans.
 Three dippers.
 One sink and fixtures.
 Nine 4-4 pans.
 One chop knife.
 One colander.
 One bread tray.
 Three wooden buckets.
 One small frying pan.
 One potato masher.
 One meat safe.
 One broom.
 One shovel.
 One cake turner.
 One padlock and key.
 Two large baking pans.
 Two carving knives.
 Sixteen tin cups.
 One bread knife.

HOSPITAL FURNITURE.

Ten wash basins.
 Three dippers.

One teapot.
 Two large craters.
 One cupboard.
 One dustpan.
 One waterpot.
 One bandage roller.
 Six stools.
 One night-chair.
 Four brooms.
 Nine stands.
 One writing desk.
 One small table.
 One office chair.
 Eight joints pipe.
 One office coal stove.
 One wood box.
 One stew kettle.
 One clock.
 Two dozen spittoons.
 Two washtubs.
 Twenty bedsteads.
 Two large tables.
 Four long benches.
 One bread box.
 One ten-gallon water jar.
 One large oil lamp and chimney.
 One whitewash brush.
 Two small washtubs.
 Two lamps and chimneys.
 Six pulu pillows.
 One pulu mattress.
 Thirty pillow slips.
 Thirty-four pairs sheets.
 Twelve pairs extra blankets.
 Eighteen towels.

PRISON DINING-ROOM.

Eighty-two tables.
 Twenty-four buckets.
 Ten bread trays.
 Two water barrels.
 Three swill tubs
 Four cupboards.
 Twenty-eight dippers.
 Eight hundred tin plates.
 Five large bread knives.
 Seven brooms.
 Three dusting pans.
 Eighty-two benches.
 Four sprinklers.
 Twenty-one coffee pots.
 Five bread tables.

PRISON BAKERY.

One bake oven.
 One bread tray.
 One pair scales.

Three peels.
 Four yeast tubs.
 Two ferment barrels.
 Thirty bread pans.
 Two long pokers.
 One duster.
 One broom.
 Two water buckets.
 One yeast kettle.
 One tub.
 Two single blankets.
 Two tables.
 One dipper.
 One colander.
 One scraper.

PRISON KITCHEN.

One range.
 Four boilers.
 One large water cask.
 Two water tubs.
 Two lockers.
 Twelve barrels.
 One steel.
 One fork.
 One bucket.
 Five meat trays.
 Four dippers.
 Two paddles.
 One potato masher.
 Two sieves.
 Two strainers.
 Two pokers.
 One shovel.
 Two large spoons.
 Two coffee mills.
 Three carving knives.
 One water pipe.
 Two large forks.
 One lamp.
 One hammer.
 Four slop pails.

LAUNDRY.

One clothes press.
 Twenty flat-irons.
 Six ironing tables.
 Three small tables.
 Two desks.
 One clothes chest.
 Fourteen washtubs.
 Ten washboards.
 Sixty-five dozen clothes pins.
 Clothes line—2386 feet.
 Six large tables.
 Two wheelbarrows.
 Hot water pipe—251 feet.

Large drying pipe—201 feet.
 One large steam boiler.
 Two large dippers.
 Twelve water buckets.
 Three ironing sheets.
 Two iron holders.
 Sixteen pairs blankets.
 One hatchet.
 Two shovels.
 Six brooms.

FEMALE DEPARTMENT.

One cupboard.
 Six water buckets.
 Six washstands and fixtures.
 Two chairs.
 Four tables.
 Seven bedsteads.

WOOD AND COAL YARD.

Three saws.
 Four axes.
 Three saw-horses.
 Two wheelbarrows.
 Two sledge hammers.
 Five steel wedges.
 Two shovels.
 One vise.
 One rake.
 One bucket.
 One workbench.
 One grindstone.
 One stepladder.

CAPTAIN OF THE YARD'S ROOM.

Three writing desks and fixtures.
 One table.
 One washstand.
 One looking-glass.
 Five chairs.
 One water pitcher.
 Three books of record.
 One grate, shovel, and poker.
 One clock.
 One night lamp.
 Three stools.

TURNKEY'S ROOM.

Four chairs.
 One writing table and fixtures.
 One washstand and fixtures.
 One table.
 One looking-glass.
 Two writing desks.
 One clock.
 One coal bucket.
 One grate, poker, and shovel.
 One night lamp.

One stamp and letter press.
Three stools.

PRISON LIBRARY.

CHAPEL APPURTENANCES.

One Bible stand.
One altar.
One cabinet organ.
One sofa.
One table.
Forty benches.

SCHOOL.

One blackboard.
One globe.
One half dozen anatomical charts.
One half dozen maps.

LIBRARY.

One ladder.
One book binder's bench and tools.
One table.

ALCOVE.

One bed.
One small wood stove.
One looking-glass.
One table.

WARDEN'S OFFICE.

One desk.
One pitcher.
Two glasses.
One grate and appliances.
One table.
One inkstand.
Chairs and carpet.

COMMISSARY'S OFFICE.

One desk and appurtenances.
Four chairs.
One table.
One lounge.
One stove and fixtures.
One clock.
One carpet.
Two mats.
Two spittoons.
One water pitcher.

BED-ROOM.

One bed and appliances.
One wardrobe.
One washstand and appurtenances.
One table.
One looking-glass.
One bureau.
One carpet.
One chair.

COMMISSARY STORE ROOMS.

One large desk.
 One medicine case.
 Two cupboards.
 One long table.
 Three chairs.
 One washstand.
 One looking glass.
 One water pail.
 One water basin.
 One platform scales.
 Eight oil cans with faucets.

VISITORS' RECEPTION ROOM.

One grate and appliances.
 Four chairs.
 One table.
 One pitcher and tumbler.
 One spittoon.
 One sofa.
 One spyglass.

BED-ROOM.

One bed with appliances.
 One table.
 Two chairs.
 One washstand and appliances.
 One looking-glass.
 One lamp.

CLERK'S APARTMENTS.

Safe.
 Seven chairs.
 One stove.
 One carpet.
 One bed, complete.
 One bureau.
 One wardrobe.
 One washstand.
 One lounge.
 One pitcher and bowl.
 One towel rack.
 One damask table cover.
 Two tables.
 Two lamps.
 Two spittoons.
 One large office desk.
 Set of books and case.
 One chest.
 One stool.
 Rulers.
 Penholders.
 Inkstands, etc.

CAPTAIN OF THE GUARD'S ROOM.

One bed and appliances.
 One table.
 One looking-glass.
 Two chairs.
 One lamp.
 One washstand and appliances.
 One sofa.
 One safe.
 One desk.
 One spittoon.

GUARDS' SLEEPING APARTMENTS.

Thirty beds and appliances.
 Two washstands and appliances.
 Two tables.
 Four chairs.
 One looking-glass.
 One grate and appurtenances.
 One wardrobe.
 One bucket.
 Thirteen towels.

WASH-ROOM.

Two benches.
 Four washbasins.
 Two barrels.
 Two buckets.
 One looking-glass.
 One dipper.
 Six towels.
 One lamp.

OFFICERS' DINING ROOM.

One extension table.
 Two side tables.
 Eight chairs.
 Two castors, complete.
 Three syrup jugs.
 One and a half dozen table knives.
 One and a half dozen plated forks.
 Two dozen table spoons.
 One and a half dozen teaspoons.
 Three butter knives.
 Four sugar bowls.
 Four cream ewers.
 Two water pitchers.
 Three salt cellars.
 Twenty-four water tumblers.
 Twelve cups and saucers.
 Eighteen dining plates.
 Eleven soup plates.
 Thirty-six napkins.
 One water cooler.

One knife box.
 One soup tureen and ladle.
 One cake box.
 One tumbler drainer.
 Three butter dishes.
 One wooden bucket.

KITCHEN.

Nine enameled pots.
 Three large tin pans.
 Twenty-five small pans.
 Twelve sheet-iron pans.
 Nineteen tin boilers.
 Five stock boilers.
 Eleven tin saucepans.
 Thirteen coffee pots.
 Nine milk pans.
 Fifteen tin dippers.
 Three milk buckets.
 Two large milk buckets.
 One soup tureen.
 Six soup ladles.
 Forty tin plates.
 Four tin buckets.
 Seven small tin buckets.
 One chopping tray.
 One sausage machine.
 One nutmeg grater.
 Three large knives.
 Three steels.
 Three forks.
 Two cleavers.
 One clock.
 One lemon squeezer.
 Six spoons.
 Two egg slicers.
 One funnel.
 Scales.
 One coffee screen.
 One tea²screen.
 Eighteen pudding cups.
 Four tables.
 Two cupboards.
 One cooking range, **new, all complete**, large copper boiler, poker, and shovel.
 Two washing sinks.
 One ice box.
 One milk safe.
 Two meat safes.
 Two brooms.
 Three meat boards.
 Two stools.
 Two ash buckets.
 One swill bucket.

Five frying pans.
 Thirty-one shallow oval dishes.
 Twenty-four deep oval dishes
 Two white bowls.
 Two sugar cans.
 Two coal boxes.
 One wood box.

OUTSIDE BAKERY.

Twelve bread pans.
 Twelve tin pans.
 Six cake moulds.
 Twelve jumble moulds.
 Twenty-four pie plates.
 Three water pails.
 Bread scales.
 Four kettles.
 One cook stove.
 Two yeast cakes.
 Two oven peels.
 One swab.
 One fruit kettle.
 One clock.
 Three tin dippers.

GUARDS' DINING ROOM.

Six table cloths.
 Eight sugar bowls.
 Seven butter dishes.
 Five castors.
 Four water pitchers
 Forty-nine table spoons.
 Thirty-eight teaspoons.
 Twenty-seven table knives.
 Thirty-five forks.
 Five salt cellars.
 Fifty dining plates.
 Twenty-six soup plates.
 Forty pie plates.
 Fifty-five saucers.
 Twenty-six cups.
 Eight cold meat dishes.
 Forty side sauce dishes.
 Two sugar cans.
 One molasses can.
 Two large tin pans.
 Six syrup cans.
 Five honey cans.
 One large water pitcher.
 One large tin sugar can.
 One old bread dish.
 Two butter moulds.
 One lamp.
 One water bucket.
 Two table screens.
 One meat pan.
 One vinegar jar.

VEGETABLE ROOM.

One coffee roaster.
 One coffee keg.
 One coffee box
 One stool.
 One chair.
 Four kegs for vegetables.
 Two small tubs.
 Four boxes.
 One salt box.
 One cornmeal box.
 One meal barrel.
 One potatoe barrel.
 One cupboard.
 Two large milk buckets.
 Two small milk buckets.
 One coffee mill.

OUTSIDE LAUNDRY.

One stove and appointments.
 Five flatirons.
 One copper boiler.
 Three tubs.
 Two tin buckets.
 Two tables.
 Two washboards.
 Sixty feet clothes line.
 Fifty clothes pins.
 One clothes box.
 One pair blankets.

SLAUGHTER HOUSE.

Ten beef trays.
 One saw.
 One ax.
 One cleaver.
 Two knives.
 One windlass.
 One water tank.
 One platform scales.
 Two iron kettles.
 Ten feet rubber hose and nozzle.

BUTCHER SHOP.

One Fairbank scales.
 One spring balance.
 One truck.
 One ice box.
 One butter box.
 One bench.
 Two blocks.
 One ax.
 One hatchet.

One scraper.
One sprinkler.
One half-gallon measure.
One water bucket.
Three saws.
Five large knives.
Three small knives.
Two choppers.
Three beef trays.
Five racks.

REPORT
OF
The State Board of Equalization
OF THE
STATE OF CALIFORNIA,
FOR THE YEARS 1872 AND 1873.

T. A. SPRINGER.....STATE PRINTER.

REPORT.

OFFICE OF THE STATE BOARD OF EQUALIZATION, }
SACRAMENTO, November 1st, 1873. }

To His Excellency,
NEWTON BOOTH,
Governor of California:

The State Board of Equalization herewith submit to your Excellency the following report:

The statements particularly required by the Political Code to be reported, are contained in the tabular statements in the several schedules hereto annexed, marked "A," "B," "C," etc.

Schedule "A" represents the number of acres of land assessed in each county, and the average value per acre, exclusive of improvements thereon, in eighteen hundred and seventy-two and eighteen hundred and seventy-three.

Schedule "B" represents the aggregate value of all city and town lots in each county in eighteen hundred and seventy-two and eighteen hundred and seventy-three, with the value of the improvements thereon separately stated.

Schedule "C" represents the aggregate value of all real estate with the improvements; also, all personal property in each county in eighteen hundred and seventy-two and eighteen hundred and seventy-three.

Schedule "D" represents the kinds of personal property and the assessed value of each kind in the several counties in eighteen hundred and seventy-two.

Schedule "E" represents the same in the year eighteen hundred and seventy-three.

Schedule "F" contains a summary statement of the reports of the Auditors of the several counties in eighteen hundred and seventy-two, showing the number of acres of land, the value of the same, the value of the improvements upon real estate, the value of personal property, exclusive of money, the amount of money, and the total value of all property after equalization by the Boards of Supervisors.

Schedule "G" contains the same for the year eighteen hundred and seventy-three.

Schedule "H" shows the total value of all real estate, the total value of all personal property, and the total value of both in each county in eighteen hundred and seventy-two, from Auditors' reports; also, the solvent debts assessed in the same year in each county from Assessors' reports.

THE FORMER PRACTICE OF ASSESSING.

Further information relative to the assessment of property and the collection of the revenue is contained in other statements in the Appendix hereto annexed, and in statements set forth in the body of this report.

In the discharge of its duties, the Board kept in view the attainment of two principal objects in the assessment of property for taxation: First—The assessment of all property in the State as required by the Constitution and the Political Code; and, second—The assessment of all property at its full cash value. The fulfillment of these two conditions produces the uniformity and equality required by the thirteenth section of the eleventh article of the Constitution.

At different times in the history of the State the Legislature had enacted laws exempting mortgages and other descriptions of property from assessment, but the Supreme Court had uniformly held such enactments to be unconstitutional and void. Every revenue bill, without exception, had required property to be assessed at its full cash value. The Code, therefore, did not introduce a novelty in the rule of valuation; and in respect to the demand that all property in the State, except that belonging to the State or General Government, should be taxed, the Code did not extend the law beyond what it was before, both by constitutional provision and judicial interpretation.

The most casual acquaintance with the practice of assessing property in the several counties of the State prior to eighteen hundred and seventy-two, shows a very wide departure from the two essential requirements above referred to. No general rule governed the Assessors in the valuation of either real or personal property. Considerable amounts of both real and personal property escaped assessment in many of the counties, while in nearly all it was rarely the practice to assess any property at its full cash value. Having cut loose from the rule of valuation prescribed by the revenue laws, apparently by the common consent of the Assessors and the taxpayers, the Assessors in the wealthier counties generally assessed property fifty per cent lower than in the poorer counties. A careful examination made in eighteen hundred and seventy-one, by the members of the former State Board of Equalization, based upon reports of Assessors and upon personal inspection, exhibits the percentage of full cash value at which real estate and personal property was assessed in eighteen hundred and seventy.

The following is an abstract statement of the same:

Making due allowance for the imperfections which may be supposed to affect the calculations upon which the above estimates were made, they still afford a reliable and striking illustration of the degree to which the inequality and consequently the injustice of taxation for State purposes had advanced under the practice, which by long use had

become the system of assessing property prior to the efforts at reform under the Code.

PUTTING THE REVENUE PARTS OF THE CODES INTO EFFECT.

The Acts putting into effect the provisions of the Codes relative to the revenue, and to provide for their publication, were passed upon the sixteenth and twenty-second days of March, eighteen hundred and seventy-two. Immediately thereafter the present Board of Equalization entered actively upon its duties, among which were the distribution of the laws mentioned to the Assessors, Auditors, Boards of Supervisors, and Collectors throughout the State, the preparation of rules for the government of Assessors when assessing, and Supervisors when equalizing, and the preparation and enforcement of the use of forms in relation to the assessment of property. The Assessors had already commenced and made considerable progress with their assessments under the old revenue laws when the Code was put into effect. The fifth section of the Act declared all assessments made subsequent to the first day of January, eighteen hundred and seventy-two, and prior to the sixteenth of March, eighteen hundred and seventy-two, void. Consequently the Assessors were obliged to commence anew, and to wait until they could receive the new laws and the rules and instructions of the State Board of Equalization. As the assessments were to be completed on the first Monday of July, it required great activity on the part of the Assessors to perform their work within the limited period provided. In view of this the Legislature, by the Act of March twenty-second, eighteen hundred and seventy-two, required the Boards of Supervisors of the several counties to meet on the second Monday of April following, and allow the Assessors a sufficient number of extra deputies to enable them to complete their assessments within the time prescribed by law.

That the Assessors, in a manner so general throughout the State as to scarcely justify the mention of any exception, performed their duties with faithfulness, industry, and ability, will appear manifest upon an examination of the several exhibits and schedules contained in this report.

On the twenty-seventh of March, eighteen hundred and seventy-two, the State Board issued rules and regulations to the Supervisors, Assessors, and Collectors, and also some additional rules on the ninth of April following. On the twenty-fourth of February, eighteen hundred and seventy-three, the rules were revised, and, with a few more added, were distributed in convenient form to all the proper county officers. The rules appear in the appendix annexed hereto. *

RULES AND REGULATIONS FOR ASSESSORS, ETC.

On the fourth of April, eighteen hundred and seventy-two, the Board addressed a circular letter to all the County Assessors, Auditors, Tax Collectors, and County Boards of Equalization, in relation to their duties, from which, as an expression of the views then, and still entertained by the Board, the following portion is given:

"The assessment and collection of the public revenue of this State, under the Political Code, is based upon the Constitution of the State, and there are few, if any, questions as to the meaning of that instrument in its relation to this subject which have not been settled by decis-

ions of the Supreme Court. The execution of this law mainly rests with you. In a State where for more than twenty years inequality and want of uniformity in the assessment of property for taxation has been the rule rather than the exception (to the great injury of a majority of the citizens and the general detriment of the State), the enforcement of a constitutional system, which subjects all property to equal and uniform taxation in proportion to its full value, will, doubtless, at first encounter some opposition from those who by long exemption from just and equal burdens have come to regard the sudden change from wrong to right as an act of injustice to them, in the nature of an encroachment upon privileges almost vested by reason of long enjoyment. But when the equality and justice of these laws are reduced to practice by an energetic and faithful administration of them on your part, they will readily be understood and appreciated by all classes of citizens, and will soon come to be acquiesced in and obeyed with cheerfulness, and with the well founded hope that in the end, when the desired standard of completeness, equality, and uniformity is once attained, the rates of taxation will be greatly reduced, and the State be rapidly pushed forward to a realization of that measure of prosperity to which it is entitled by its advantages of climate, soil, means of production, and geographical position.

"The practical part of assessing every kind of property at its full cash value, on account of the great varieties of form in which property is found to exist, and on account of the honest differences of opinion in respect to the value of many kinds of property, will often be difficult and perplexing. These difficulties must be dealt with by Assessors in a spirit of impartiality between the State on the one hand and the property holder on the other. All that is required is that the duty be performed with a mindful regard of the oath which, at the close of the whole assessment, is required by section three thousand six hundred and fifty-two, from every Assessor, and from each of his deputies.

"The most marked inequality heretofore existing in this State in the assessment of property has been in the failure, in many counties, to assess lands at their full value, and in assessing large tracts at a much less rate per acre than small ones, and also in permitting considerable amounts of land to escape assessment altogether. The duty devolves upon Assessors and County Boards of Equalization to put an end to this crying injustice. The State Board can exercise an influence toward the correction of this evil only to a limited extent. If the county officers neglect their duty in this regard, and thereby render it necessary for the State Board to use its authority to raise the assessed value of land in a particular county, the excess of burden upon the small landholder will be the greater, because such increase will fall by a uniform percentage upon all alike. The responsibility, therefore, of a continuance of this unequal and unjust practice must fall upon the county officers, and we trust they will feel the full force of their sworn obligations to see that hereafter the burdens of taxation shall in fact, as well as in name, and as the law demands, be borne by all in equal and proportionate degree. * * *

"The office of Assessor is a responsible and important one, and the success of revenue reform, under the Code, depends almost entirely upon the men who now hold these positions. The Legislature, wisely, as we think, provided that hereafter the term of the office should be extended to the full constitutional limit of four years, and that the present incumbents should hold for four instead of two years, confident that such ex-

tension would fit the officers for and encourage them in the performance of their whole duty. The State Board of Equalization will at all times aid them with advice, and with such assistance as may be within the scope of its authority. The rules adopted by the Board for your instruction do not, and from the nature of the subjects cannot, prescribe a rule of action for the exceptional cases which may arise in the experience of Assessors; but it is believed they are sufficiently explicit and comprehensive to afford valuable assistance to all the officers charged with the duties imposed by the revenue laws. It should be borne in mind that all the old revenue laws are repealed, and that the Code, recently put in force, is the only law governing the mode of assessing and collecting State and county taxes."

ASSESSMENTS COMPARED.

The following table shows the total assessed value of all property in the several counties of the State in the years eighteen hundred and seventy, eighteen hundred and seventy-one, eighteen hundred and seventy-two, and eighteen hundred and seventy-three:

Notwithstanding the efforts industriously put forth by the former State Board of Equalization, in the first two of the years mentioned the standard of valuation was not in any degree reformed. On the contrary, in eighteen hundred and seventy-one the total valuation was about nine millions less than in eighteen hundred and seventy. This lack of results was unquestionably caused by the want, on the part of the old Board of Equalization, of the powers which the Code conferred upon the present Board, as the valuations in eighteen hundred and seventy-two and eighteen hundred and seventy-three, compared with those of eighteen hundred and seventy and eighteen hundred and seventy-one, abundantly show.

COUNTY DEBTS AND RATES OF TAXATION.

The following table shows the county debts of the several counties in eighteen hundred and seventy-two, and the total rate of the tax for State and county purposes in each county in eighteen hundred and seventy-one and eighteen hundred and seventy-two:

Alameda Santa.....	75,180	2 06½	1 90
Alameda Santa.....	85,450	4 30	3 70
Alameda Santa.....	120,598	2 21	1 50
Alameda Santa.....	208,626	2 50	2 00

In Alameda the rate in incorporated cities is seventy-six cents. In Oakland and Alameda townships, ninety-six cents. In the remainder of the county, one dollar.

An examination of the two foregoing tabular statements will show that in those counties where, prior to eighteen hundred and seventy-five, property had been assessed the highest in proportion to its full cash value, the increase in valuation in eighteen hundred and seventy-five was small compared with the increase in those counties where the standard of valuation had been the lowest, and consequently the decrease in the rate of the tax levy upon each one hundred dollars was less in the case of counties first named than in those where the valuations were not largely increased. As examples: In the Counties of El Dorado, Colusa, Colusa, Trinity, and Tulare, the decrease in the rate of the tax levy was from twelve and one half cents to twenty-five cents. In the other counties the increase in the valuations are small in about the same proportion, property therein, prior to eighteen hundred and seventy-five, having been assessed more nearly to the full cash value than in any other counties.

In the County of Alameda the rate is reduced from....	\$2 21½	to	\$1 00
In San Francisco from	2 97	to	1 50
In Sacramento from.....	2 47	to	1 28
In San Mateo from.....	1 92	to	92
In Santa Clara from.....	2 46½	to	1 20
In San Joaquin from.....	2 21	to	1 05

And in these counties the valuations were largely increased, property therein, prior to eighteen hundred and seventy-two, having been assessed at from fifteen to fifty per cent of the full cash value.

RATE OF THE STATE TAX.

It will be noticed that the rate of the tax levy for State purposes in eighteen hundred and seventy-two and in eighteen hundred and seventy-three is not reduced in as great proportion as the valuations are increased. This is imputable, mainly, to two causes; the one being that prior to the Code the State derived a large revenue from other sources than the property tax, such as licenses, half of the poll taxes, stamps, etc., amounting to an average of about four hundred and twenty thousand dollars per annum. Under the Code the State depends for revenue entirely upon the property tax. The other cause arises from the unusually large appropriations made by the last Legislature for educational and other purposes, and to meet the deficiencies of revenue for the twenty second and twenty-third fiscal years. These deficiencies were large, from the fact that the rate of the State tax for those years, fixed at eighty-six and one half cents by the Legislature of eighteen hundred and sixty-nine and eighteen hundred and seventy (1869-70), was insufficient. The same Legislature passed the first bill creating a State Board of Equalization; and it being well understood at that time that the valuations of property in the State for purposes of taxation had been far below the proper constitutional standard, it was confidently expected that the assessments would at once be increased to such a degree, at least, as would make the product of the levy of eighty-six and one half cents, together with the other revenues above mentioned, then collected by the State, fully sufficient for the demands upon the treasury for the two succeeding years. These reasonable expectations were not realized, as has already been shown; and the deficiency referred to followed as a necessary result.

HISTORY OF THE TAX LITIGATION IN SAN FRANCISCO.

The Board of Supervisors of the City and County of San Francisco, on the sixth day of August, eighteen hundred and seventy-two, made an order canceling the following named assessments of solvent debts secured by mortgage:

Name.	Amount.
Masonic Savings and Loan Bank.....	\$365,000 00
Savings and Loan Society.....	7,968,740 00
Societe Francais de Espargnes, etc.....	4,957,583 00
German Savings and Loan Society	2,629,021 00
Odd Fellows' Savings Bank.....	3,080,793 00
San Francisco Savings Union.....	4,227,940 00
Libernia Savings and Loan Society.....	11,354,532 00
Land Mortgage Union of California.....	33,916 00
Security Savings Bank.....	313,962 00
Humboldt Savings and Loan Society.....	507,303 00

This cancellation was effected by drawing red lines through the entries of the several assessments upon the assessment book.

The State Board of Equalization, deeming these cancellations illegal and void, and apprehensive that the Auditor would treat them as valid, brought the matter to the attention of the Controller and Attorney General, and urged that immediate steps be taken to compel the restoration of the assessments. The Attorney General, assisted by Henry Edgerton and Creed Haymond, whose services were requested by the Board and by the Controller, brought an action in the Supreme Court in the name of the People of the State of California against the Supervisors of San Francisco, which resulted in the decision of that Court rendered on the sixteenth day of October, eighteen hundred and seventy-two, by which the above mentioned acts of cancellation were adjudged to be void, and the order of the Supervisors directing the same was reversed, annulled, and set aside."

It was supposed that this decision would be regarded by the Auditor, and be taken by him as a sufficient admonition that it was his plain duty to transfer upon the duplicate assessment book to be prepared by him for the Tax Collector the assessments thus determined to have been lawfully made by the Assessor, and to have been unlawfully interfered with by the Supervisors. But it was soon afterwards ascertained that the Auditor, upon the alleged ground that he was forbidden by the corporations interested, intended to act in precisely the same manner as though no such decision had been made, and to refuse to transfer said assessments to the duplicate assessment book, although his attention had been called to the decision, and he had been formally requested by the State Board to compute and enter the amount of taxes due upon said assessments, and copy the same into the duplicate assessment book with all other assessments of solvent debts and other property.

It became necessary, therefore, to institute another suit, which was commenced, prosecuted, and terminated as expeditiously as possible. The Supreme Court, on the twenty-sixth day of October, eighteen hundred and seventy-three, awarded a peremptory writ of mandate against the Auditor, commanding him specifically and in detail to perform promptly all his clerical duties in the matter of the assessments against said corporations. A copy of the writ is contained in the appendix hereto.

The above-mentioned suits, in each of which the Supervisors and

Auditor were defended by the best legal skill at the command of the corporations interested, were rendered necessary in order to get the proper warrant for the collection of the taxes in the hands of the Tax Collector.

This having been accomplished in the manner stated, the corporations mentioned, after their taxes became delinquent, in February, eighteen hundred and seventy-three, commenced actions in the Fifteenth District Court of San Francisco against the Tax Collector, and injunctions were procured restraining him from selling the property of the delinquents.

In addition to these, the following named corporations in San Francisco also commenced similar suits in the same Court at the same time, and procured injunctions:

Name of corporation.	Amount of tax.
Fireman's Fund Insurance Company.....	\$5,114 97
City Railroad Company.....	1,844 52
Visitation Land Company.....	437 78
Farmers' and Mechanics' Bank.....	2,075 01
Merchants' Mutual Marine Insurance Company.....	3,114 00
The North Pacific Transportation Company.....	7,137 00
The Willows Land Association.....	1,351 30
Societe Italiana Mutual Beneficienza.....	693 96
Ahabra Shalome Congregation.....	336 25
Sunny Vale Homestead Association	400 73

Other suits, to the number of about one hundred and thirty, combining between two hundred and three hundred private citizens of San Francisco, as plaintiffs, and involving an aggregate amount of two hundred and thirty-five thousand seven hundred and twenty-two dollars, city and State taxes, ranging in sums of from eighty-four dollars to seventeen thousand three hundred and twenty-six dollars, were also commenced about the same time by private delinquents enjoining the Tax Collector. Of these taxes one hundred and ninety-one thousand five hundred and twenty-seven dollars were assessed against real estate, and forty-four thousand one hundred and ninety-five dollars against personal property, almost exclusively other than solvent debts. The pretext urged in behalf of this last class of delinquents was certain constitutional objections entertained by them respecting the powers conferred by the Code upon the State Board of Equalization.

The Appendix hereto annexed contains a list of the names of the delinquent taxpayers of San Francisco who commenced suits to enjoin the Tax Collector from enforcing the collection of their taxes, with amounts due from each. In all these cases the District Court granted injunctions.

By agreement between the attorneys, two of these cases were appealed to the Supreme Court as representative cases, the attorneys stipulating that the other cases should abide the decisions in the two thus appealed.

Savings and Loan Society, respondent, v. Alex. Austin, Tax Collector, etc, appellant, represented the corporations assessed for solvent debts,

and Bartlett, Doe, et al., respondents, v. Alex. Austin, Tax Collector, etc., appellant, represented the private delinquents above referred to.

The defense of these cases on the part of the State was prepared by John L. Love, Attorney General; W. C. Burnett, City Attorney of San Francisco; Joseph P. Hoge, Henry Edgerton, Creed Haymond, and James G. Eastman. They were argued before the Supreme Court at the April term, eighteen hundred and seventy-three. A decision was rendered on the eighth day of May following. The appeals having been taken on the part of the Tax Collector from the orders of the District Court refusing to dissolve the injunctions, such orders were reversed and the causes remanded.

The opinions delivered are referred to for information touching the questions decided, but it may be stated that while the Court held that it was improper to enjoin the Tax Collector from proceeding with the sale for delinquent taxes, nevertheless, with respect to the assessment of solvent debts secured by mortgage, a majority of the Justices held in effect that the same was unconstitutional, because it resulted in double taxation, and was, therefore, in contravention of that clause of the Constitution which requires taxation to be equal and uniform.

The Court also (one member dissenting) sustained the constitutionality of the three thousand six hundred and ninety-sixth section of the Code, authorizing this Board to fix the rate of the State tax, this being the particular objection raised by the delinquent taxpayers in the numerous suits represented by the case of Doe v. Austin, above mentioned.

The respondents immediately filed petitions for rehearing, and the Court, subsequently, without acting upon the petition, ordered the cases to be opened for reargument on both sides upon all the questions involved. They were argued the second time before the Court in chambers, in San Francisco, on the fourth, fifth, seventh, and eighth of August last, and submitted. At the date of this report the cases are under advisement, but there is reason to expect a final decision during the October Term.

LARGE AMOUNTS DUE, AND PAID UNDER PROTEST.

Besides the delinquent taxes above mentioned there was paid to the Tax Collector in San Francisco, under protest, the sum of three hundred and thirty-one thousand six hundred and seventy-five dollars of taxes, for the fiscal year eighteen hundred and seventy-two and eighteen hundred and seventy-three (1872-3). This sum is retained in the hands of the Tax Collector. A suit was commenced by the Controller to compel the payment of the portion belonging to the State into the treasury, which was argued and submitted in the Supreme Court.

The following is a summary statement of all the delinquent taxes due on solvent debts, money, real estate, personal property, exclusive of solvent debts and money, and taxes collected, but held under protest, in San Francisco, in the year eighteen hundred and seventy-two:

Solvent debts of the banks secured by mortgage, enjoined.	\$479,268 80
Money on hand of banks, enjoined	7,428 35
Insurance companies (money, etc.), enjoined	9,577 52
Personal property, enjoined, exclusive of the personal property of banks and insurance companies.....	44,195 01
Real estate, enjoined	191,527 95
Amount of taxes paid to Collector under protest, and held by him	331,675 23
Total amount taxes due	\$1,063,672 86

The rate of tax was fifty cents for State, and one dollar for city purposes, so that one third, or three hundred and fifty-four thousand five hundred and fifty-seven dollars and sixty-two cents (\$354,557 62) of the above amount is due to the State Treasury. If the amount due from the banking corporations on account of mortgages be left out of the account, the amount of taxes remaining due would be five hundred and eighty-four thousand four hundred and four dollars and six cents (\$584,404 06), one third of which—the State's share—would be one hundred and ninety-four thousand eight hundred and one dollars and thirty-five cents (\$194,801 35). The State's portion of the amount actually paid to the Tax Collector and withheld from the Treasurer by him upon the plea of the same having been paid under protest by the taxpayer, alone amounts to the sum of one hundred and ten thousand five hundred and fifty-eight dollars and forty-one cents (\$110,558 41).

FURTHER AMOUNTS OF FORMER YEARS.

There are in addition to this sum for the year eighteen hundred and seventy-two and eighteen hundred and seventy-three, the following sums, paid in to Tax Collectors of San Francisco, and held by them in the same way, a large portion of which belongs to the State:

For the year 1871-72, by Alexander Austin.....	\$14,503 94
For the year 1870-71, by Alexander Austin.....	45,958 84
For the year 1869-70, by Alexander Austin.....	3,572 80
For the year 1868-69, by Charles R. Story.....	3,362 63

TAXES PAID UNDER PROTEST SHOULD BE PAID OVER TO THE STATE OR COUNTY.

It is suggested that the Legislature might provide by law that all taxes paid under protest should be paid over by Tax Collectors to the County Treasurers, in the same manner as other taxes, and that it should be provided that the taxpayer desiring to test the legality of taxes so paid should be denied an action against the Tax Collector to recover such taxes, but be allowed an action against the county and State. This would prevent the county and State from being deprived, during long periods of litigation, of the use of the taxes, and would afford the taxpayer a security, at least as good as that which he now has, in case of being compelled to pay a tax which it is illegal to exact.

SUITS IN OTHER COUNTIES.

A number of other suits were commenced in the Counties of Sacramento, Alameda, Santa Clara, Napa, and in other counties, against the Tax Collectors, by banking corporations and private persons, generally upon the same grounds as in the San Francisco cases, by which the collection of taxes was more or less obstructed.

ASSESSMENTS OF BANKS IN EIGHTEEN HUNDRED AND SEVENTY-TWO AND EIGHTEEN HUNDRED AND SEVENTY-THREE COMPARED.

The following statement shows the difference in the assessments of the property of most of the savings banks in the State in eighteen hundred and seventy-two and eighteen hundred and seventy-three:

BANKS.	1872.	1873.
Hibernia Savings and Loan Society.....	\$11,713,432	\$538,516
Masonic Savings and Loan Bank.....	385,800	51,450
Savings and Loan Society.....	8,131,840	130,996
San Francisco Savings Union.....	4,445,840	142,794
Security Savings Bank.....	324,661	7,413
Humboldt Savings Bank.....	538,003	12,565
Odd Fellows' Savings Bank.....	3,147,693	45,721
German Savings and Loan Society.....	2,722,221	144,000
Land Mortgage Union.....	27,210	500
Société Française de Epargnes.....	4,957,583	83,750
Sacramento Savings Bank.....	1,875,700	49,200
Capital Savings Bank, Sacramento.....	1,479,860	141,440
Odd Fellows' Bank of Savings, Sacramento.....	496,640	9,500
San José Savings Bank.....	101,280	78,567
Stockton Savings and Loan Society.....	159,000	72,495
Marysville Savings Bank.....	274,200	6,360
Vallejo Savings Bank.....	145,165	12,250

ASSESSMENTS, CANCELED IN SAN FRANCISCO.

The revenue law provides that the delinquent taxes not canceled must be entered by the Auditor upon the assessment book of each succeeding year until paid. Boards of Supervisors are authorized to cancel any delinquent taxes which in their judgment cannot be collected, but the exercise of this important discretionary power is allowed only after the Tax Collector has made oath "that he has not been able to discover any property belonging to or in the possession of the persons liable to pay the same whereof to collect" such delinquent taxes. In relation to these taxes due from the banking corporations in San Francisco for the year eighteen hundred and seventy-two, being the same involved in the suits before mentioned, the Tax Collector, though besought by parties interested, could not and did not make such oath. Nevertheless the same Board of Supervisors, whose action in attempting to cancel the assessments upon which these taxes were levied was adjudged to be void

in October, eighteen hundred and seventy-two, by the Supreme Court, made another effort to accomplish its purpose on the twenty-fifth of October, eighteen hundred and seventy-three, by adopting another order, necessarily as illegal and void as the former one, canceling the assessments against the property of said corporations. The grounds assigned in support of this proceeding were that in the judgment of said Board of Supervisors the tax was "onerous and oppressive;" and the consummation of the transaction was purposely concealed and delayed until the Saturday evening prior to the Monday upon which the assessment book was by law to be delivered to the Tax Collector, for the avowed purpose of making it impossible to restore said assessments "by the action of any Court."

Unless some means can be provided for the proper punishment of officials who, in the interest of large aggregations of wealth, openly violate plain provisions of law, and evade the decrees of Courts in furtherance of schemes to defraud the revenue, the results will be most disastrous to the success of any system of taxation that can be devised. Those who are loaded from year to year with extra taxation to provide against the deficiencies caused by those who escape, no matter how, from just and equal burdens, weary of continued injustice, will at length seek relief by resort to evasion and defiance of the tax gatherer. Until it can be made to appear to the general understanding of the people that one hundred millions of the most substantial, available, and profitable wealth of the State ought to be free from taxation, they will not be reconciled to the idea that money at interest, secured or not by mortgage, should be privileged over land, horses, and cattle in contributing to the support of the Government, and the administration of laws which protect all classes of persons and property alike.

RAILROAD TAXES.

The Central Pacific Railroad Company commenced suits in each of the Counties of Nevada, Placer, Sacramento, San Joaquin, Alameda, and Santa Clara, in the District Courts of those counties, against the Tax Collectors, and, except in the County of Alameda, procured injunctions restraining the collection of the taxes assessed upon the main line of the road and upon the rolling stock. The company also commenced a suit for the same purpose against the Tax Collectors of the counties named, in the Circuit Court of the United States, in San Francisco.

The total length of the road in these six counties is two hundred and sixty-five and fifty-two one hundredths miles, and the total assessed value of the road is four million one hundred and eighty-five thousand one hundred and forty dollars, and of the rolling stock is eight hundred and four thousand three hundred and seventy-two dollars, divided between the counties as follows:

COUNTIES.	Miles.	Value of rolling stock.	Value of road.
Nevada.....	30 $\frac{25}{100}$	\$100,813	\$363,000
Placer	92	302,928	2,306,250
Sacramento.....	41	125,760	410,000
San Joaquin.....	45 $\frac{75}{100}$	121,976	686,250
Alameda	48	127,975	360,000
Santa Clara	8 $\frac{52}{100}$	24,920	59,640
Totals.....	265 $\frac{52}{100}$	\$804,372	\$4,185,140

Road and rolling stock.	Amount of taxes.
Nevada road.....	\$5,808 00
Nevada rolling stock	1,603 00
Placer road.....	31,134 37
Placer rolling stock.....	4,109 87
Sacramento road.....	5,248 00
Sacramento rolling stock	1,609 72
San Joaquin road.....	6,862 50
San Joaquin rolling stock.....	1,219 76
Alameda road.....	3,600 00
Alameda rolling stock.....	1,279 75
Santa Clara road.....	715 68
Santa Clara rolling stock.....	299 05
Total taxes due.....	\$63,499 00

The railroad company claims that the portion of the road in the six counties above named, together with the rolling stock apportioned to the same, is not liable to taxation by the State. This claim is asserted in the suit in the United States Circuit Court, upon the alleged ground that the General Government has a proprietary interest in that portion of the road, growing out of the subsidy granted in aid of the construction of the same, and the Government mortgage to secure the payment of the second mortgage bonds.

The Attorney General, on the part of the State, and the District Attorneys of several of the counties interested, appeared on the part of the Tax Collectors in the suit in the Circuit Court. Up to the present time the suit remains pending and undetermined.

The Appendix hereto contains a tabular statement compiled from Assessors' reports, showing the amount of all property assessed in different counties to all railroad companies in the State, inclusive of lands and other property assessed to the Contract and Finance Company. The length of the road in the State belonging to the Central Pacific Railroad Company cannot be accurately ascertained from Assessors' reports, but the same is given for the year eighteen hundred and seventy-

two by the company to the Assessor of Nevada County at five hundred and twenty miles.

The total number of acres of land assessed to all railroad companies (Contract and Finance Company included), in eighteen hundred and seventy-two, was two hundred and one thousand eight hundred and fifty-eight, and in eighteen hundred and seventy-three is two hundred and thirty-nine thousand one hundred and sixty-four. The total valuation of all property of all railroad companies in the State (Contract and Finance Company included), is about the same in the two years, and amounts in round numbers to about twelve million three hundred thousand dollars in each year.

The rate per mile at which the railroads were assessed in other counties than the six above enumerated, cannot be ascertained from Assessors' reports with sufficient accuracy to be stated; but, generally, the rate per mile is less than the average in the counties above named.

NUMBER OF FARMS—LARGE AND SMALL.

The following table is compiled from the Assessors' reports in eighteen hundred and seventy-two, for the purpose of showing the number of farms in the State containing one hundred acres and upwards. It also exhibits the size and locality of the farms with sufficient certainty to enable a correct idea to be formed respecting the extent of the alleged evils of land monopoly in this State.

The whole number of farms assessed in eighteen hundred and seventy-two amounts to twenty-eight thousand, exclusive of those containing less than one hundred acres.

The United States census report of eighteen hundred and seventy gave the whole number of farms in the State containing three acres and less than one hundred acres at nine thousand five hundred and fifty-one; the whole number containing one hundred acres and less than five hundred acres at twelve thousand two hundred and forty-eight; the number containing five hundred acres and less than one thousand at one thousand two hundred and two, and the whole number containing one thousand acres and upwards at seven hundred and thirteen—making an aggregate of twenty-three thousand seven hundred and fourteen farms of all sizes from three acres and upwards.

These census report figures are manifestly unreliable, their defects being in that they do not come near representing all the farms, either in the aggregate or in the classes in which they are subdivided. The number containing one hundred acres and less than five hundred is only about fifty per cent of those of that class actually enumerated and assessed in eighteen hundred and seventy-two; and of those containing five hundred acres and upwards the difference is still greater. In explanation of such wide discrepancies something is due to the changes which two years may have wrought, but it is scarcely possible to credit so short a space of time in the recent progress of California with more than a small fraction of this apparent increase in the number of landholders. The nine thousand nine hundred and fifty-one farms containing three acres and less than one hundred acres, given in the census report, may be safely taken as showing not more than sixty per cent of the actual number. Such estimate of the number of farms under one hundred acres added to the twenty-three thousand three hundred and fifteen containing one hundred acres and less than five hundred, ascertained, as above stated, to be correct in eighteen hundred and seventy-two, will give in round numbers about forty thousand land holders of that class in the State, against four thousand six hundred and eighty-one who hold five hundred acres and upwards, of which last number two thousand three hundred and eighty-three hold less than one thousand acres each, and one thousand one hundred and twenty-six hold less than two thousand each.

When the vast territorial era of California is considered, with the fact that by far the greater part of the large tracts held in private ownership are unfit for any other agricultural purpose than that of grazing cattle and sheep, and are wholly incapable of adaptation to the plow, it would appear that the disadvantages which this State labors under from large holdings of valuable lands are not so great as have been generally supposed, and are not such as to present anything like a substantial obstruction to the development of the prosperity of the State, or to suggest any real discouragements to immigration from abroad.

The Appendix hereto contains under the head of expenditures, a statement of the disbursements of the Board from the commencement of its operations until the date of this report.

Respectfully submitted.

J. J. GREEN,
SMITH BROWN,
A. P. CATLIN.

J. G. EASTMAN, Secretary.

SCHEDULES.

SCHEDULE "A."

Showing the number of acres of land assessed in each county, exclusive of city and town lots, and the average value per acre, exclusive of improvements thereon, in eighteen hundred and seventy-two and eighteen hundred and seventy-three, from Assessors' reports.

NOTE.—The total of all property in San Francisco in the above table does not include \$35,438,790 00 of solvent debts to certain banks, for the reason that the same was omitted from the Auditor's returns; but the same is included in the solvent debts in the fourth column.

APPENDIX.

RULES AND REGULATIONS

ISSUED BY THE STATE BOARD OF EQUALIZATION TO COUNTY
ASSESSORS AND COUNTY BOARDS OF EQUALIZATION.

OFFICE OF THE STATE BOARD OF EQUALIZATION, }
SACRAMENTO, February 24th, 1873. }

By authority of Section 3692 of the Political Code, the following rules and regulations are prescribed by the State Board of Equalization for the government of County Assessors, and County Boards of Supervisors sitting as Boards of Equalization:

I.

The design of the Code in the matter of assessing and collecting the public revenue is to carry into effect the constitutional requisition that all property in this State shall be taxed in proportion to its value, and that taxation shall be equal and uniform. To this end, the Code requires the assessment of all taxable property in the State to be first completed before the rate of State or county taxation is determined. The assessment must be completed on or before the first Monday of July of each year, and the equalization by the County Boards of Equalization must be completed on or before the first Monday in August. All property must be assessed at its "full cash value," and the Code does not permit any deduction from such "full cash value" on account of any indebtedness of the owner, or on any account whatever.

II.

Assessors are hereby instructed to use the form of statement or assessment list adopted and furnished by the State Board of Equalization; and in all cases to take statements (sworn to before filing), signed by the person assessed, which should be carefully preserved in the office of the Assessor.

III.

In addition to the affidavit required by Section 3630 of the Code above mentioned, and before taking from any person the statement required by

Section 3629 of said Code, the Assessor must administer to such person an oath that he or she will true answer make to all questions put to him or her concerning all matters contained in said last mentioned section.

IV.

What is known as a *special deposit* of money, or other valuables, in a bank, or with a banker or other person—that is to say, a deposit by the terms of which the custodian of the deposit has no right to the use of the same, but is merely charged with the duty of safely keeping it for the benefit of the depositor—is not to be assessed to such bank, banker, or other person; but such deposit must be assessed to the depositor. In case such depositor resides in another county, the Assessor must immediately, by mail or express, inform the Assessor of the proper county of the nature, amount, and place of deposit, and of the name of the depositor. In case such depositor is absent from the State, the deposit must be assessed to the bank, banker, or other person in whose keeping the same remains, specifying in the assessment that said bank, banker, or other person is assessed for such deposit as the agent of the owner, naming such owner.

V.

Banking corporations, and all banks and banking firms or associations, or persons doing a banking business, must be assessed for the full amount of money, gold dust, or bullion on hand (except the special deposits mentioned in Rule No. 4); and in addition thereto, under the head of solvent debts, all their loans, and all solvent debts due them, must be assessed at the several “full cash values” thereof, without any deduction on account of any indebtedness, and notwithstanding the creditors (or depositors, as they are commonly called) of such corporations, banks, banking firms, associations, or persons may have been, or may be, liable to be assessed for their said deposits or credits, as solvent debts due them.

VI.

The term “*solvent debts*” includes all debts owing by any such institutions or persons as are mentioned in Rule No. 5, to their creditors or depositors, on account of money or securities loaned to or deposited with them (excepting the *special deposits* described in Rule No. 4), and such debts must be severally assessed at their full cash value, as solvent debts, to such creditors or depositors, or such other persons as at the time of assessment may be the owners or holders of such debts.

VII.

Care should be taken so as not to assess money loaned out, or money loaned to or deposited with banks or banking associations *as money*, but such property must be assessed to the owners or holders as solvent debts. In assessing any debts due any person, association, or corporation, the present cash value of the debt is to be ascertained, as near as may be, by taking into consideration the nature of the indebtedness, the ability of the debtor to pay the same, in whole or in part; the character and sufficiency of the security, if any there be, the times when payable, and

such other circumstances as have a present and direct effect upon the value.

VIII.

If there be any difficulty in ascertaining the "full cash value" of any property, real or personal, resort must be had to the rule of interpretation prescribed by the Code, which is, "the amount at which the property would be appraised if taken in payment of a just debt due from a solvent debtor."

IX.

Assessors must not assess the property of any person in "gross," but after demanding and receiving from each person to be assessed a specific statement, setting forth in detail and in accordance with the assessment lists, the quantity, number, or kind of each class of property assessed, the Assessor will then fix the proper values at which the several properties are to be assessed, according to his own judgment, governed by the requirements of the Code and these Rules. If the person being assessed makes any statement of the value of the property, or any portion thereof, whether under oath or not, the Assessor may consider the same, but will not be bound thereby, but must assess such property at its "full cash value."

X.

Assessors must not accept returns or statements from agents for persons when the persons themselves can be found in the county.

XI.

The duplicate assessment book required by Section 3732 must in all cases be prepared for the Tax Collector as in said section required. The July statement, required for the State Board of Equalization by Section 3655, must be furnished in all cases, and the forms furnished by the Board for that purpose must be fully filled up. The Board of Supervisors of each county is required by Section 3893 to make proper compensation therefor.

XII.

Assessors are requested carefully to study all the sections of the Political Code relative to the assessment of property, numbered from 3607 to 3663 inclusive. By consulting Sections 3632, 3633, 3634, 3648, and 3649, above mentioned, and Sections 429, 430, and 19 of the Penal Code, Assessors will perceive they are clothed with ample means to discover taxable property and ascertain the value thereof, and power to enforce obedience to the law on the part of persons liable to assessment. Where occasion requires it, these powers should be used without fear or hesitation. The liability incurred by Assessors for neglect of duties should also be carefully observed. (Vide Sections 3656, 3660, 3661, 3662, 3697, and 3698.)

XIII.

The copy of the assessment roll for the year 1873, which the State Board of Equalization requires for its use (the forms of which will be

prepared and forwarded by said Board) should be made contemporaneously with the original assessment roll, or sooner, if that be possible, in order that the State Board of Equalization may be advised, at the earliest practicable moment, of the value of the properties assessed in each county. In this copy it will not be necessary to enter a minute description of the real estate, but only the number of acres and special designation, if (as in the case of Spanish ranchos) the tract had any, and in other cases by United States divisions and subdivisions. For personal property the entire roll need not be copied, but only so many examples of assessment—say forty or fifty—as shall clearly show the different species of property and the price at which it is valued. It should be full enough to enable the Board to see how each class of property is assessed in a particular county. The aggregate amount of personal property assessed to each person should be carried out. Have the amounts added up on each page, and the totals carried out, so that the Board can ascertain the “total value” of the assessment, and the “total full cash value” of all property.

XIV.

Great care and diligence should be used in the description of real estate. Designations of sections, quarter sections, and quarter quarter sections of lands, after the manner of description used in the United States Land Offices, may be adopted. Large ranchos may be described by the best known name by which such ranchos are usually known, as for instance, the “Suscol Rancho,” situated in ——— County, bounded on the north by ———, on the east by ———, on the south by ———, on the west by ———, giving the out-boundaries with reasonable certainty; but in other cases the metes and bounds should be carefully given. Where sales of any portion of a tract have been made, such portions should be excepted from the general description, by describing them with such reasonable certainty as may be practicable, as, for instance, “except that portion of said tract sold to (or owned by) A. B., bounded on the north by,” etc.

XV.

In Section 3640 of the Political Code, the words “capital” and “property” mean the same thing, to wit: property; and where all of the same has been assessed to a firm or corporation, the owner or holder of any stock in such firm or corporation should not be assessed for such stock.

XVI.

In demanding a list from a railroad company, the Assessor should require from the proper officer thereof a statement:

First—Of the whole number of miles of railroad belonging to such company in the State, and the number of miles lying in his county;

Second—The whole amount of rolling stock belonging to such company in the State, and the proportion of such rolling stock taxable to such company in his county, pro rata, in conformity with the requirements of Section 3663 of the Political Code. The rolling stock should be separately assessed from other property of the railroad company.

XVII.

Railroads should be assessed at the full cash value per mile for each mile of railroad in the respective counties in which railroads lie. In determining this value, the rule established by the Code should be kept in view, and Assessors should be governed by the same rules and circumstances which influence their judgment in fixing the value of other property.

Railroad buildings, and other property belonging to railroad companies, should be assessed separately from the land and track.

XVIII.

Salt marsh and tide lands, swamp and overflowed lands, school lands, and all other lands purchased of the State, by payment in whole or in part, must be assessed at their full cash value to such purchasers, or their assignees, or legal representatives.

Preemption claims to lands should be listed as the possession, interest, and claim of A. B. in and to the tract of land described as follows (describing the land):

If, however, the entire purchase money has been paid by the pre-emptor, and a certificate issued therefor, *the land itself* must be assessed to such pre-emptor, notwithstanding the patent has not issued.

XIX.

An Act entitled "An Act concerning the assessment of animals," approved March 30th, 1872, is repealed by Sections 18 and 3891 of the Political Code, and will not govern Assessors in the discharge of their duties.

XX.

What are known as *consigned goods*, in the possession of any person in this State, consigned to such person from any place out of this State for sale, are required by Section 3638 of the Political Code to be assessed as other property. The only exception allowable to this general requirement is in cases where goods consigned from a foreign State or country remain, and at the time of assessment are in unbroken or unopened original packages, in the hands of the importer or consignee.

XXI.

Hereafter growing crops will not be assessed as such separately from the land, but in assessing land having a growing crop thereon, such crop should be considered as part of the land, and as a constituent in estimating the value thereof.

XXII.

The Assessor must supervise the valuations of his deputies, and correct or change them according to his own judgment. Where the labor of assessing is apportioned in districts to different deputies, great ine-

qualities between the several districts are apt to result, unless the Assessor personally attends to fixing the valuations, and making them equal and uniform throughout the county, according to the true values of the lands or other properties assessed.

XXIII.

A mortgage must not be assessed, but the debt secured by the mortgage must be assessed as a solvent debt, to the mortgagee or owner, in the county where he resides. Other solvent debts, money, gold dust, bullion, and personal property *in transitu*, must be assessed in the county where the owner resides. An Assessor having information of such property being in his county, belonging to residents of other counties, should promptly communicate such information to the Assessors of such other counties, as required by Section 3637.

XXIV.

Leased lands should be assessed to the lessor or landlord. Mortgaged lands should be assessed to the mortgagor or owner. (Vide Section 3687.)

XXV.

Personal property mortgaged or pledged must be assessed to the person in possession, as required by Section 3887; but this applies only to tangible personal property, not to solvent debts, notes, bonds, warrants, and certificates of indebtedness hypothecated by the owner to another, by delivering or transferring the possession of the documentary evidence of the debt for purposes of security.

XXVI.

No specific tax, as in the old revenue law, is laid upon *dogs* by the Code; but as these animals are property, they, like other animals, must be assessed at their full cash value. Under the Code the Supervisors of counties may levy a special tax on dogs after the 1st day of January, 1873.

XXVII.

All levies of special school or road taxes by Boards of Supervisors in districts less than the whole county, upon assessments of property in such districts made by County Assessors, are illegal and void. The practice of levying such taxes should be discontinued. Only such school and road taxes should be levied as are authorized by law to be levied, at a uniform rate, upon the whole county. (Vide decisions of Supreme Court in *People vs. Hastings*, 29 Cal., p. 229, and *People vs. Sargent*, October Term, 1872.)

Sections 1818, 1819, 1820 of the Political Code provide for the levy of a uniform rate of county school tax.

Sections from 1830 to 1844, inclusive, provide a constitutional method for assessing, levying, and collecting a district school tax. The special district tax referred to in Sections 1845 to 1848, inclusive, cannot be constitutionally levied. The property road tax mentioned in Section 2663

and 2664 must not be levied, because the exception in favor of incorporated towns and cities, contained in the last named section, renders the tax obnoxious to the constitutional prohibition. In counties containing no incorporated cities or towns, the property road tax may be lawfully levied.

XXVIII.

It should be remembered that the State Board has no authority to equalize assessments within the county, either as between individuals or between different classes of property. The whole of this duty is imposed upon the county Boards; and the neglect or imperfect performance of it causes serious embarrassment to the State Board, in attempting to equalize between the counties.

XXIX.

Attention is invited to Section 3653 of the Political Code, whereby it is made the duty of Supervisors to provide maps of all the lands in the county for the use of the Assessors—the cost of such maps to be paid from the County General Fund. It is recommended that a county map should be provided in each county, lithographic copies of which could be cheaply furnished to each Deputy Assessor. The cost of a map made from a complete survey of all the lands in the county would be small compared with the advantages it would be to the officers, as well as the people of the county.

XXX.

County Boards of Equalization have no authority to declare any property to be exempt from assessment or taxation. Their powers are limited to the exercise of a sound discretion in increasing or reducing the valuations of the Assessors, for the sole purpose of making them conform, as near as may be, to the well understood standard of valuation required by the Code. The statute has not conferred authority on the Board of Supervisors to cancel or strike out an assessment under any circumstances, and in case of an attempt to do so, it is the duty of the Auditor, in preparing the duplicate assessment book for the Collector, to disregard such attempted cancellation. (Vide decision of the Supreme Court in *People vs. Ashbury*, October Term, 1872.)

J. J. GREEN, Chairman;

S. BROWN,

A. P. CATLIN,

State Board of Equalization.

By order of the Board.

J. G. EASTMAN, Secretary.

WRIT OF MANDATE.

In the Supreme Court of the State of California:

The People of the State of California, upon the relation of John L. Love, their Attorney General, *vs.* Monroe Ashbury, Auditor of the City and County of San Francisco:

The People of the State of California to Monroe Ashbury, Auditor of the City and County of San Francisco, greeting: Whereas it has been made manifest to our Supreme Court, by the affidavit of John L. Love, on the part of the People of the State of California, that you have refused and do refuse to do and perform the several acts and duties hereinafter particularly mentioned and commanded to be done and performed, and that there is not a plain, speedy, and adequate remedy in the ordinary course of law; wherefore we do command you that immediately upon the service of this writ you do add to the assessment of the Masonic Savings and Loan Bank, appearing upon the assessment books of said city and county, the sum of \$365,000, as the valuation of its solvent debts; and to the assessment of the Savings and Loan Society, appearing on said books, the sum of \$2,968,740 40, as the valuation of its solvent debts; and to the assessment of the Societe Francaise de Epargnes, appearing on said books, the sum of \$4,957,583 73, as the valuation of its solvent debts; and to the assessment of the German Savings and Loan Society, appearing on said books, the sum of \$2,629,021, as the valuation of its solvent debts; and to the assessment of the Odd Fellows' Savings Bank, appearing on the said books, the sum of \$3,080,793, as the valuation of its solvent debts; and to the assessment of the San Francisco Savings Union, appearing on said books, the sum of \$4,227,940, as the valuation of its solvent debts; and to the assessment of the Hibernia Savings and Loan Society, appearing on said books, the sum of \$11,354,532, as the valuation of its solvent debts; and to the assessment of the Land Mortgage Union of California, appearing on said books, the sum of \$33,916, as the valuation of its solvent debts; and to the assessment of the Security Savings Bank, appearing on said books, the sum of \$313,962 77 as the valuation of its solvent debts; and to the Humboldt Savings and Loan Society, appearing on said books, the sum of \$507,303, as the valuation of its solvent debts; and enter the total of each of said assessments, when so added, in their proper places upon said assessment books, and include the total amount of said several assessments in the total valuation of personal property, and also

in the total valuation of all property in the said city and county, and compute and enter in the proper money column of said assessment books the respective sums, in dollars and cents, payable as a tax for State and city and county purposes, to wit: the sum of fifty cents upon each \$100 of valuation for State purposes, and such further sum for city and county purposes as may have been levied or fixed for that purpose by the Board of Supervisors of said city and county upon each of said several assessments, and include the amounts thereof in the total amount of taxes payable in said city and county, and copy into the duplicate assessment books of said city and county each of the said several assessments, valuations, additions and computations, and entries of taxes, without any marks of erasure or cancellations whatever, and in all other respects prepare the said assessment books and duplicate assessment books so that the said several assessments and valuations, and the taxes computed thereon, as hereinbefore commanded, shall be and appear upon the said duplicate assessment books free from all cancellations, or attempted or pretended cancellations; and that, after you shall have done all hereinbefore commanded, you do then, without delay, deliver to the Tax Collector of said city and county said duplicate assessment books, and charge him upon your proper books with the whole amount of taxes of said city and county, inclusive of all those herein particularly mentioned; and, that the same complaint may not by your default be again repeated to us, you are hereby commanded to make known to us how you shall have executed this writ before our Justices at the Court-room of this Court, in the City of Sacramento, on the thirty-first day of October, eighteen hundred and seventy-two, at ten A. M., and hereof fail not, at your peril.

Witness, the Hon. W. T. Wallace, Chief Justice of our said Supreme Court, at Sacramento, this twenty-sixth day of October, A. D. eighteen hundred and seventy-two.

{ SEAL }

GRANT I. TAGGART,
Clerk of the Supreme Court.

BIENNIAL REPORT

OF THE

State Capitol Commissioners

FOR

THE YEARS 1872 AND 1873.

T. A. SPRINGER.....STATE PRINTER.

REPORT.

OFFICE OF THE BOARD OF STATE CAPITOL COMMISSIONERS, }
Sacramento, November 1st, 1873. }

His Excellency,
NEWTON BOOTH,
Governor of California:

The following report of the Capitol Commissioners for the two years ending November first, eighteen hundred and seventy-three, is respectfully submitted:

On December twentieth, eighteen hundred and seventy-one, the date at which the present Board of State Capitol Commissioners entered upon the discharge of their duties, the Capitol—including seven thousand six hundred and sixty-two dollars and fifty-eight cents which has since been paid on completed contracts—had cost two million thirty-two thousand nine hundred and fifty-one dollars and seventy-four cents. The Commissioners have since then expended three hundred and thirty-eight thousand and ninety dollars and sixty-four cents, making the total cost of the building to November first, eighteen hundred and seventy-three, two million three hundred and seventy-one thousand and forty-two dollars and thirty-eight cents.

The former Board, whose successors we became, had expended the moneys in the Capitol Fund and the Fund created by the sale of the State Capitol Bonds of eighteen hundred and seventy, and had also anticipated the revenue to the Capitol Fund for eighteen hundred and seventy-one, eighteen hundred and seventy-two, eighteen hundred and seventy-three, and part of eighteen hundred and seventy-four, and had expended it. In consequence of this our only resources have been:

The appropriation of legal tender notes made by the nineteenth Legislature.....	\$56,000 00
And the State Capitol Bonds of 1872.....	250,000 00
And the anticipated portion of the eighty per cent of the revenue from taxes in 1874.....	52,865 09
A total of.....	\$358 865 09
Of this we have expended:	
On old contracts.....	\$7,662 58
For current expenses.....	338,090 64
Leaving a balance of.....	13,111 87
Total	\$358,865 09

A large proportion of the money expended under our direction has been used in filling in the grounds, ornamenting them, and bringing them into their present beautiful condition. They have received the utmost care in every particular. Careful examination and analysis of soils were made with a view to obtaining earth of the greatest fertility and free from alkaline or other objectionable substances, and the ground was thoroughly cleared and well plowed before any filling was done. In organizing and prosecuting the expensive work of grading, the labor was carefully systematized, and checks were established to insure honesty and efficiency amongst a large number of teamsters and laborers. A double system of cast iron pipes were laid beneath the graveled walks, and water escapes for hose were constructed one hundred feet apart throughout the entire grounds. This will insure the preservation of grass, and trees, and shrubbery, in the Summer. The eight hundred trees and shrubs which now adorn the grounds, embrace more than two hundred different varieties, and they have flourished so well during the warm months just closed, that no doubt is entertained of their eventual full growth and perfection. Drains have been constructed in the walks, and every endeavor has been made to perfect the grounds and insure them against injury at any season of the year. The Commissioners desire to attest the efficiency of Mr. John Ellis, under whose immediate supervision the grounds were laid out and completed.

The Capitol building is very nearly completed. A great deal of work has been done upon it by our employes, for the character and details of which, you are respectfully referred to the report of Mr. Gordon P. Cummings, Architect, who assumed charge of the work, by our order, May eighth, eighteen hundred and seventy-two, and has since occupied that responsible position, and has discharged his duties faithfully and ably.

In consideration of the near completion of the building and grounds, the Commissioners recommend that the Legislature establish the following permanent positions, and authorize the appointment of employes to fill them by some designated appointing power, their salaries to be paid from the General Fund:

	Salary per month.
One engineer.....	\$150 00
One fireman.....	75 00
One gardener.....	150 00
Four laborers, each.....	65 00
Three watchmen, each.....	75 00
One janitor.....	140 00
Three porters, each.....	75 00

The nineteenth Legislature appropriated one hundred thousand dollars to purchase additional grounds for the State Capitol, and provided for appraising and condemning them. The appraisement exceeded the sum named, but under that provision in the Act which authorized the Commissioners to receive voluntary deeds of conveyance, all of the

ground described has been conveyed to the State, and the one hundred thousand dollars exhausted in paying therefor. Titles were subjected, under supervision of the Attorney General, to the closest scrutiny, and the State now has an undoubtedly good title to the grounds she contemplated securing by the Act referred to. From lack of funds adequate to the object, the Commissioners have made no improvements on the property thus acquired, but desire to express the opinion, that the grounds are fully capable, without extraordinary cost, of being made into a park of rare beauty, and a source of just pride to every citizen of California. With the experience derived from the grading already done, the work of perfecting the entire park can be conducted with economy and rapidity, if reasonably large appropriations are made for the purpose; and in another year, the Capitol of California and its surroundings would be unequalled in the United States for beauty and durability.

The Governor's Mansion has simply been taken care of; the Commissioners were precluded by lack of appropriation from completing it. It was insured for forty thousand dollars for one year, but the insurance expired June seventeenth, eighteen hundred and seventy-three.

The following Exhibit "A" shows the expenditures that have been made:

EXHIBIT A.

Showing amount expended for labor in the different departments, from January first, eighteen hundred and seventy-two, to November first, eighteen hundred and seventy-three.

Blacksmiths, lock work, and machine work.....	\$5,047 69
Brick masons.....	8,018 16
Carpenters.....	16,510 89
Iron setters.....	3,994 49
Laborers.....	61,822 07
Painters.....	6,786 44
Plasterers.....	2,238 87
Plumbers.....	11,396 18
Roofers.....	1,205 00
Stone cutters.....	6,117 25
Tilers.....	2,306 37
Teamsters and teams.....	64,393 70
Miscellaneous.....	31,282 40
Total.....	\$221,119 51

"Miscellaneous" includes watchmen, gas man, porters, architect, engineer, fireman, and other employés about the building.

EXHIBIT A.

Showing amount expended for materials for different departments, from January first, eighteen hundred and seventy-two, to November first, eighteen hundred and seventy-three.

Iron castings.....	\$15,131 63
Brick	5,824 93
Lumber and woodwork	5,968 80
Hardware and tools.....	5,902 72
Plumbers and gas fitters' materials.....	5,254 61
Granite	1,683 28
Painters' materials	1,818 35
Statuary	17,140 00
Tiles	9,373 07
Balustrade	6,000 00
Lime, cement, and plaster.....	3,398 33
Earth, sand, and gravel.....	13,579 79
Water	935 75
Insurance	1,297 50
Furniture	17,449 53
Miscellaneous	13,875 42
Total	\$124,633 71

"Miscellaneous" includes purchases of trees, shrubs, grass seed, freight, and many other items.

DRURY MELONE,
F. BAEHR,
Commissioners.

ARCHITECT'S REPORT.

ARCHITECT'S REPORT.

STATE CAPITOL OF CALIFORNIA, ARCHITECT'S OFFICE, }
Sacramento, November 12th, 1873. }

*To His Excellency, NEWTON BOOTH, President, and the Honorable Board of
State Capitol Commissioners:*

GENTLEMEN: In the erection of all important buildings, a time-honored custom has been observed in rendering, at stated periods, to the commission, or proper authorities for its construction, a succinct account of the progress of the building, its cost to the period, material used, and advices for its completion. This properly comes from the chief constructing officer, who is supposed to be held as responsible for the cost of his work as for its stability and propriety.

In our particular case, since the commencement of the Capitol, the report has been a biennial one, and presented to the Board just before the meeting of each Legislature, in addition to the monthly reports rendered.

Our Capitol, proper, is now so near completion that, in all probability, the present report will be the last one required, and, as a period of four years has elapsed since my last, dated November twenty-seventh, eighteen hundred and sixty-nine, I must be allowed some digression, to have you understand the history, progress, and cost of the work to the present date, November twelfth, eighteen hundred and seventy-three.

By reference to the above-named report, made to Governor Haight's Commission, you will see the exact condition of the building at the time, which I will briefly describe, as thus: The building was entirely finished on the outside excepting the three porticoes—the lower story of stone arches being completed in these—excepting, also, balustrade and cement. The inner dome of the rotunda was arched, and required no finish but plastering and painting; all the heavy walls and arching for the tambour of outer dome were carried to the apex of roof, and all the circular galleries but one turned, excepting about two thirds of the committee-rooms and third-story hall, which were not plastered or floored, and the four windows of front portico. The whole interior was as perfectly finished as it is to-day, excepting, also, heating apparatus and front

stairs. Tanks containing seven thousand four hundred and seventy-six gallons of water had been built in the attic, and gas and water, with expensive furniture, introduced in each apartment, then all occupied by the State officers. Up to this period, the building had cost one million three hundred and fifty-eight thousand nine hundred and thirty-five dollars and thirty-four cents, including some one hundred and eighty thousand dollars (a large part of the excess being for fitting up permanent furniture, shelving, etc., in the several offices) which had been overdrawn on the Capitol Fund.

To understand the exact state of the building, upon the incoming of the present Board of Commissioners, it is necessary that I should inform you of the same at that time, after a lapse of two years, and the cost of the same, although not done under my direction.

The tambour of the outer dome, about seventy-four feet in diameter, had been carried up sixteen feet and finished with a peristyle of twenty columns, full cornice and balustrade of iron, and corridor, as the lower one, paved in tiles. The interior, or principal shaft, was carried up a story above the outer, and finished in the dome proper, about fifty-six feet in diameter and thirty-eight feet in height, formed of one inch iron ribs, covered with rolled copper, and terminating with a tholus of twelve small columns and a gilt ball—columns, pilasters, and window frames being cast iron.

The columns of the side porticoes had been set with pedestals and balustrade; the brick work carried to the point of cornice, and the cornice placed, but not built in, on the north portico; on both and front the first floor of brick had been turned on the beams prepared for them previously. On the front, about one hundred and twenty lineal feet of granite platform, three feet and six inches wide, and three hundred and seventy-two lineal feet of fourteen-inch steps, all of granite, had been cut and placed on brick arches and walls; eighty-two lineal feet of the lower stone cornice was cut, and some addition to the lower arches, concluded all the stone work, excepting only tiling of lower floor in front portico.

The pedestals and balustrade of the front portico were finished, and the columns were placed four inches below the level of the adjoining pilaster. About one half of the iron for the cornice was on the ground; of this, nearly two thousand dollars worth was rejected and useless, from some error either in the drawings or castings.

The first watercourses, or gutters of roof, were made of lead, as an experiment; they have all been removed and copper substituted, without much improvement. In the interior of the building, the balance of the third story was finished; the hall of the same plastered, and, with the two floors of the rotunda, boarded. Four flights of very elegant, but uselessly expensive, stairs had been constructed, with gas candelabra, and the boilers, etc., introduced for a system of heating with steam chests, which is very imperfect. To digress a little: not a brick in mortar, not a line on paper, nor a word in ink, has ever been shown of any intention in the first projector or projectors of the building, in reference to its heating or ventilation; not a single opening or communication existed between that network of walls, now almost as hard as iron. So late as October, eighteen hundred and sixty-eight, it became a question with Governor Haight's Commissioners whether or not to fill the basement up to the level of the iron beams on first floor. What my immediate predecessor, who had carried the walls up some nine feet from this level, intended, was not known, and probably not

thought of by any of the then Commissioners. During the first five years of my superintendence, we had neither time nor money to effect anything which I considered could as easily be done afterwards. The gas and water pipes, put in in eighteen hundred and sixty-nine, were small, and required but little boring in comparison. But the whole of this expensive system of heating was carried on somehow, without any one being able to go from one cellar to another, except through a manhole. The result was, that last Summer we found heavy pipes hanging by pieces of wire and tin, and the whole in danger of falling. A number of steam chests were placed in the rooms and halls, the whole, so far, producing an unsatisfactory and expensive result. The system requires no comment—it is altogether false; it is not hot air that is wanted, nor yet steam; the first is dry and parching; the second, unassisted, wants levity to mix with the gasses in a room or chamber; it is copious drafts of pure, atmospheric air, heated by steam, supplied in ducts—the quantities of heat, or steam, and air being regulated in each chamber by circumstances. This is the almost universal plan adopted in all important buildings in Chicago, Boston, New York, Philadelphia, and Washington, and such a plan was presented to Governor Haight's Commission, guaranteed to be made effective, for thirty-five thousand dollars.

To resume: the interior rotunda was plastered and frescoed, as also the front hall and stairway; about six thousand yards of cement, with two coats of paint, was put on the outside of the building, in front, the balance whitewashed. Elegant, but somewhat meretricious doors, were put up; also, one to Library. Some change was made in the Supreme Court-room, part of which was introducing two useless columns, and a preposterous flagstaff erected on the grounds. The sum of seven hundred and nine thousand seven hundred and two dollars and twenty-five cents was expended for these additions—no part of which was for the Governor's Mansion—with the exception of one or two little disputed bills remaining from the year before; making the cost of the building, at this period, two million sixty-eight thousand six hundred and thirty-seven dollars and fifty-nine cents.

The work was recommenced on the fifteenth of May, by your Commission, after my reappointment. The north side of the building having the weakest foundations, I found it necessary (as had been my former intention) to put heavy brick spurs against the angles of the north portico; brick foundations and archings for steps were carried up, as also the cornice and brick work over columns; and there being a necessity for no further delay, the work was commenced and nearly completed of piercing, with arched doorways, the entire basement walls, and opening walled areas from the outside. We found the steam and water pipes in a very bad state; and the trouble and expense of this was further increased by some three thousand dollars for plumbing. The walls of the rotunda were increased and improved, and the floor arched on iron beams preparatory to tiling. The front portico was proceeding, and the last brick work and cornice was not completed until December, on the pediment.

One hundred and eighty lineal feet of granite platform, three feet six inches wide, and six hundred and forty lineal feet steps, one foot two inches wide, were securely set on the brick arching the same, with steps in rear of building.

A series of water closets, twelve in number, were well advanced on second floor, and were, with the ceilings of the third porticoes, finished in hard plastering last Fall. Nearly six thousand dollars was paid for

painting. The three roofs of porticoes were finished in copper, and repairs made to main roof and watercourses; planked roadways were made; a picket fence, with gates, put on three sides of the grounds, and a large amount of mechanical labor incidental to the filling in of the grounds, was performed.

On the fifteenth of January, eighteen hundred and seventy-three, after placing and securing the sculptures of the pediment, I closed the work up by your direction, the appropriation of two hundred and fifty thousand dollars being exhausted, a large part of it being required for filling in the grounds.

On the first day of August, this year, the work was resumed; and what we have accomplished so far, or what will be completed within two weeks, is as follows: the upper floor of rotunda required leveling, which has been done by supplemental flat arches over the principal vault; four side portico floors required leveling up with brick work, and were then, as also rotunda, front portico, and hall, laid with a superior article of marble tiles. The upper floor of rotunda is nearly finished, with English encaustic tiles. These last are somewhat expensive in the setting, but if their wear is equal to their beauty, this should not be a detriment to their further use. A handsome walnut rail is nearly completed around the well, and I am expecting the gas fixtures from New York daily for the same. The closets are finished, and a large amount of work besides not necessary to enumerate.

But the most important work of the season is the balustrade on the roof, which will be finished in two weeks. Your Board made a wise decision last Summer in substituting the Ransome stone for iron; it has saved the State some fourteen thousand dollars, and makes a much more perfect and elegant finish, besides a better protection for the walls, which are now entirely impervious to water, besides the saving in paint which iron requires constantly. There is no reason why this important stone should not be a great adjunct to ornamental architecture. I was agreeably surprised at its tenacity and strength; but one single instance of breakage has occurred, and that after a violent blow. Its composition being pure, clear sand, with a double decomposition of silicate of lime and soda, should make it more lasting than ordinary sandstones.

Setting the acroterial sculptures and vases of Mr. Mezzara, which I am expecting, will close all the work projected for the season.

Exhibit "A" is an approximate cost of what is required or may be added, excepting statuary and pictures in rotunda. The iron steps and fence are designed, but not commenced. The most important improvement required is to the dome, inside and out. When Governor Low's Commissioners adopted the design of the rotunda, which had been carefully designed after the best examples, it contemplated the color to be a tinted fresco, in gold points, as near white as possible, to get all possible light in the halls. The present color, which seems a compound of brick dust and Scotch snuff, almost obliterates the fine delineations of the Messrs. Schrader, and throws a sombre gloom over everything.

A bronze figure, after Powers' "California," was intended to surmount the apex, with some changes to the present tholus, and the dome should be painted white outside.

The total disbursements of your Commissioners, as shown by the Controller's books, are three hundred and twenty-two thousand one hundred and sixty-three dollars and fifty-six cents, making the cost of the building to date, excepting unpaid expenses of this month, and the bal-

nice of sculpture contract, two million three hundred and ninety thousand eight hundred and one dollars and fifteen cents. A large part of the two years' expenses have been in the grounds.

I may add, with the exceptions of the first contract for the foundations, and the large sums disbursed in the two previous years, few buildings of its kind have been erected with more strict economy, and considering the high price of California labor, the eight-hour law, and the absence of the contract system, few have been erected for a smaller sum.

Any merit that may be due to the quality and economy of the work in the last two years I wish to share with my able assistants, Messrs. Hitchfield, Burnett, Colby, Baily, and others.

All of which is respectfully submitted.

GORDON P. CUMMINGS,
Architect.

EXHIBIT A.

Twelve flights iron steps, posts, and vases.....	\$25,000 00
Twenty-four hundred feet, three sides, cast and wrought iron railing, lamp posts, etc.....	24,000 00

Repainting interior rotunda.....	2,000 00
Marble flagging, first and second story halls.....	15,000 00
Completing roadways on terrace.....	
Total	\$116,000 00

Fifth Annual Report

OF THE

INSURANCE COMMISSIONER

FOR THE

STATE OF CALIFORNIA.

YEAR ENDING DECEMBER 31, 1872.

SACRAMENTO:

T. A. SPRINGER, STATE PRINTER.

1873.

FIFTH ANNUAL REPORT

OF THE

CALIFORNIA INSURANCE COMMISSIONER.

OFFICE OF INSURANCE COMMISSIONER,
San Francisco, Cal., July 1st, 1873. }

To his Excellency NEWTON BOOTH, *Governor of California:*

Pursuant to the provisions and requirements of Sec. 595 of the Political Code of this State, I have the honor to present the following, as showing the condition of the business of insurance in the State at the close of the year 1872.

In tabulating the matter of the reports of the several insurance companies, a primary object has been to place before the public, in a condensed form, the requisite data whereon to determine as to each company: First—Its liabilities. Second—Its means of meeting the same. And to that end, I beg to refer particularly to Tables No. 13, 20, 25, 30, and 44, wherein it will be seen the assets of the several companies—separated into “claimed by the companies” and “admitted by this office as valid and available”—are placed in juxtaposition with their several liabilities.

Believing that as to the *modus operandi* of conducting the business of insurance, the law intends to leave insurers as nearly free from official interference as practicable, I have, in a large degree, confined my action to such supervision as seemed to be required to insure compliance with the written law, and with the demands of the public in the matter of a proper showing of the financial condition of the several companies.

The business of fire and marine insurance in California for the year 1872 is represented by the following figures:

FIRE INSURANCE.	
Amount written.....	\$200,178,417
Premiums received.....	2,388,543
Losses paid.....	667,704
Ratio of losses to amount written.....	.33 per ct.
Ratio of losses to premiums received.....	28.00 per ct.
MARINE INSURANCE.	
Amount written.....	\$54,200,667
Premiums received.....	1,016,448
Losses paid.....	634,226
Ratio of losses to amount written.....	1.17 per ct.
Ratio of losses to premiums received.....	62.4 per ct.
Apportioned as follows:	
TO COMPANIES OF THIS STATE.	
Fire insurance written.....	\$65,484,932
Fire insurance premiums received.....	782,181
Fire insurance losses paid.....	174,462
Ratio of losses to amount written.....	.26 per ct.
Ratio of losses to premiums received.....	22.3 per ct.
Marine insurance written.....	\$40,290,362
Marine premiums received.....	816,045
Marine losses paid.....	508,486
Ratio of losses to amount written.....	1.26 per ct.
Ratio of losses to premiums received.....	62.3 per ct.
TO COMPANIES OF OTHER STATES AND FOREIGN COUNTRIES.	
Fire insurance written.....	\$134,693,485
Fire insurance premiums received.....	1,606,362
Fire insurance losses paid.....	493,242
Ratio of losses to amount written.....	.36 per ct.
Ratio of losses to premiums received.....	30.07 per ct.
Marine insurance written.....	\$13,910,305
Marine premiums received.....	200,403
Marine losses paid.....	125,740
Ratio of losses to amount written.....	.9 per ct.
Ratio of losses to premiums received.....	62.7 per ct.

It is thus seen that of \$1,598,226, received by California companies in premiums of property insurance in this State, \$682,948, or say 42.73 per cent, was returned in losses paid. And of the \$1,806,765, received in similar premiums by companies belonging to other States and foreign countries, \$1,001,728, or say 55.44 per cent, was returned in like payments of losses. In other words, property of citizens of this State, of the value of \$1,684,676, destroyed by fire and flood during the past year, was practically restored to its owners through the agency of an interest, which, in many of our States, is subjected to onerous exactions, in the shape of special taxes and license fees, almost denying its existence within their respective limits.

In view of such exactions, and of persistent legislation in many of our States, looking to securing to the companies of such States a monopoly of the business of insurance within their respective limits, I have thought it advisable to reproduce, from authentic sources, the following statistics:

In the State of Pennsylvania, there was collected in the year 1871, from companies belonging to other States and foreign countries, as a tax discriminating against such companies, the sum of \$351,396. And in the State of Illinois, in the same year, companies belonging outside that State received in premiums of property insurance the sum of \$3,040,573, and paid to the people of the State the sum of \$25,627,651, for losses sustained—\$22,587,078 being direct contributions from capital owned outside the State of Illinois.

A favorite method of raising revenue in many of our States, is to tax premiums received for insurance, and though in any part of our country a person may purchase a house, or property of any other description, even another's ordinary obligations to pay money, and the State takes no note of it, yet in many of our States, if such obligation should be in the form of a policy of insurance upon the house of the purchaser, whereby the obligor covenants to make good the value of the same, if it shall be destroyed by fire, the State at once steps in and demands, as a tax upon such purchase, a certain percentum of the purchase money, though the capital relied upon as a means of providing for the loss, has already paid taxes to the full amount imposed upon that invested in other descriptions of business—thus really treating the business of insurance as a something to be tolerated—not fostered—simply in consideration of the money it brings to the treasury.

Property insurance, howsoever the law may treat it, is certainly held in public esteem as a legitimate commercial interest, and of inestimable value in the distribution and apportionment of losses. And if, instead of onerous exactions upon insurance companies—home or foreign—or upon their business, the several States opened wide their doors to the admission of insurance capital from every part of the world, thereby practically imposing upon profits derived from the business in localities exempt for the time being from extraordinary casualties, obligations to contribute to the repair of losses in less fortunate districts, we would be called upon to record few cases of bankruptcy of insurance companies, and correspondingly few of ultimate loss to owners of insured property.

In so far as the general laws of California are concerned, the business of insurance, whether conducted by home or foreign companies, is now entirely free from discriminating exactions. Retaliatory Sec. 622 of the Political Code, however, presents a remnant of the prohibitory system of former years, to which I beg to call attention, in the hope that it

may be so modified in its requirements, as to be made operative only against exactions by other States upon companies of this State, in excess of such exactions upon their own companies respectively.

In its present terms, this section works injustice to companies of other States, whose laws make no discrimination against companies of this State. And to the extent of tending to keep such out of business in this State, is unjust to our own people seeking insurance. Furthermore, as the section now reads, it practically discriminates in favor of companies belonging to countries foreign to the United States, and against those of our sister States.

At the date of the last report of the Insurance Commissioner, the business of insurance in this State was conducted by 29 fire and fire-marine and 35 life insurance companies. Since that date, the following named have been admitted to business in the State, to wit :

FIRE AND FIRE-MARINE.

Companies of California—

State Investment and Insurance Company, admitted January 13, 1872.
Commercial Insurance Company, admitted March 1, 1872.

Companies of other States and Foreign Countries—

Transatlantic, of Hamburg, Germany, admitted August 2, 1872.
Lorillard, of New York, admitted August 24, 1872.
London Assurance, of London, England, admitted August 28, 1872.
Home, Columbus, Ohio, admitted September 11, 1872.
Amazon, Cincinnati, Ohio, admitted September 15, 1872.
Triumph, Cincinnati, Ohio, admitted September 15, 1872.
Girard, of Philadelphia, Pennsylvania, admitted September 16, 1872.
North Missouri, Macon, Missouri, admitted September 16, 1872.
Continental, of New York, admitted September 21, 1872.
St. Paul, St. Paul, Minnesota, admitted September 23, 1872.
Insurance Company of North America, Philadelphia, admitted October 3, 1872.
Pennsylvania, Philadelphia, Pennsylvania, admitted October 3, 1872.
Manhattan, New York, admitted October 8, 1872.
America, Philadelphia, Pennsylvania, admitted October 31, 1872.
North China, China, admitted November 1, 1872.
Penn, Philadelphia, Pennsylvania, admitted November 7, 1872.
Kansas, Leavenworth, Kansas, admitted February 3, 1873.

LIFE.

Republic, of Chicago, Illinois, admitted March 21, 1873.

And the following named have ceased to do business in the State, to wit:

FIRE.

Pennsylvania, ceased January 1, 1873.
Triumph, amalgamated with the Amazon.

LIFE.

Craftsmen's, of New York, ceased July 18, 1872.
 Empire Mutual, New York, ceased August 17, 1872.
 Eclectic, New York, ceased November 14, 1872.
 John Hancock, Boston, Massachusetts, ceased December 31, 1872.
 California Mutual, San Francisco, ceased December 31, 1872.
 Universal, New York, ceased January 1, 1873.
 Security, New York, ceased May 20, 1873.
 Knickerbocker, New York, ceased June 1, 1873.

The number doing business in the State on the 1st day of June, 1873, being 46 fire and fire-marine and 28 life and accident insurance companies, classified as to their respective localities of organization, as follows:

Of the companies which ceased to do business in this State during the period December 31, 1871, to June 1, 1873, the Craftsmen's Life Association and Eclectic Life Insurance Company withdrew by reason of the revocation of their respective certificates of authority by this office—they having so far impaired their respective "capital stocks paid in" as to bring them within the purview of Section 8 of the law of March 26, 1868, creating the office of Insurance Commissioner, and Section 602 of the Political Code of the State.

The Empire Mutual Life Insurance Company was absorbed by the Continental Life Insurance Company of New York, about July 1, 1872, and the California Mutual reinsured its policies with the Republic of Chicago.

On the 3d of March, 1873, I addressed a communication to the Security Life Insurance Company of New York, calling attention to the extraordinary amount of their assets represented by "premium notes and loans, on policies now in force," and "deferred and uncollected premiums," amounting in the aggregate, as shown in Table No. 47, to not less than 76.5 per cent of their entire admitted assets. The same items bearing ratios of 84 and 87 per cent, respectively, to liabilities and to reinsurance reserve.

The attention of the company was also called to the restrictions imposed by the laws of New York as to investments of the capital and accumulations of life insurance companies organized under the laws of that State, and suggesting that such restrictions were of little value if companies were at liberty to loan any considerable portion of their funds, in any form whatsoever, upon policies, the value of which was contingent upon future payments of premiums.

And, on the 31st of March, the company was further advised that, in the true intent and meaning of Section 602 of the Political Code of this State, it was insolvent—having impaired its "capital stock paid in" to an extent exceeding twenty per cent thereof—and unless, by the 1st day of May then next ensuing, said capital stock should have been repaired, the certificate of authority previously granted would on that day be revoked.

In reply, the company advised me, under date of April 8th, that they had determined to withdraw from the State.

The life companies named in the foregoing as having ceased to do business in this State, had outstanding at the time, insurance upon the lives of people of California amounting in the aggregate to about \$2,000,000, and representing premiums payable annually, about \$100,000. And as the insured would be little likely to continue the payment of premiums after notification by this office of the insolvency of the companies, most of such insurance was doubtlessly allowed to lapse, resulting in large immediate pecuniary gains to the companies, and as a direct consequence of their disregard of the interests and rights of the insured.

In view of the foregoing, and of the certainty that other companies, organized under the laws of the several States, will from time to time be compelled to discontinue business in this State, I beg to suggest the propriety of a law which shall compel the insertion into every policy of life insurance issued within the State, by a company belonging to any other State or country, a covenant with the insured that if, for any reason whatsoever, the company shall discontinue business in this State during the pendency of such policy, the assurant shall be entitled to recover from the company a prescribed percentum of the then present

value of the policy—said value being ascertained and determined according to the provisions of Section 447 of the Civil Code of California.

Leaving out of view the Act of February 2, 1872, which conditionally authorizes California life insurance companies to value their policies at a rate of interest as high as six per cent, our laws afford ample protection to the policy holder in a California company, and no good reason is to be seen for withholding from a resident assurant in a company of another State the same amount of protection.

As reasons for the early repeal of the Act just referred to, I would offer the following:

Under a valuation of its policies at a rate of interest so high as six per cent, a company would be denied entrance into any other State of the Union, and would therefore be deprived of the advantages of an extended business—the basis of established averages of mortality. Furthermore, such a law puts it in the power of a company to continue its existence, after policy holders had become so well satisfied of its insolvency as to refuse further payments of premiums—thus practically compelling the abandonment of the policies, and resulting in perhaps large pecuniary gains to the company, at the expense and loss of the policy holders.

In many of our States, life insurance companies are restricted in their investments of capital and accumulations to certain specified classes of securities—the obvious intent of the law maker being to guard against possible loss or depreciation, whereby the means of the company to meet its engagements might become impaired. And yet we find in the assets of companies organized under these laws, amounts ranging from five up to seventy-five per cent of total assets, contingent, absolutely, upon the future vitality of the policies themselves. See Table No. 47.

That the companies themselves distrust this class of assets is obvious, from the fact that whenever they are able to show a reduction of “premium notes and deferred and uncollected premiums,” they are sure to point to it as evidencing improved condition.

Looking to the restrictions above referred to, and in view also of the very large amount of assets of the classes named, rendered valueless annually by reason of non-payment, resulting in lapse of the policies—see Table No. 49—such can hardly be considered investments in anywise conforming to the requirements of either the statute law, or what may be called the common law of life insurance.

Premium notes and loans upon policies yield little in any event, in the way of reserve to be carried to the credit of other policies, and are, therefore, directly antagonistic to a principle constituting, in large part, the basis of security as to means wherewith insurers are to meet their liabilities to the insured.

Rates of premium are fixed with reference to the age of the assurant—in other words, to his expectancy of life—the theory being that the amount paid at prescribed periods, if invested at, say four and a half per cent interest—compounded annually—will, in the course of the life of the party, produce the amount of the policy.

It is certain, however, that some of the insured will die within the time stated in the tables of mortality, causing a demand upon funds contributed by those living beyond the “table time.” And if fifty per cent or more of such funds is in the shape of notes and loans which the obligor may refuse to pay, and which experience teaches he will refuse,

in large amount, it becomes an interesting problem to determine where the company is to look for means of meeting its engagements.

In dealing with companies found to have impaired their capital, I have in every instance sought to induce them to repair the same, without resorting to the extreme measure of publishing their insolvency, as would seem to be the intent of Section 600 of the Political Code, deeming it better to properly secure the interests of the insured than summarily to drive the company out of the State—thereby doing it an irreparable damage, and certainly without any benefit to the insured.

J. W. FOARD,
Insurance Commissioner.

JULY 10th, 1873.

Table No. 41 shows that at the date of the foregoing, the capital of the Guardian Mutual Life Insurance Company of New York was impaired in a large amount. Pending correspondence with this office, inducing the hope that full repair of the same would in a few days be made, the enforcement of Section 600 of the Political Code was for the time withheld.

On the 3d instant, however, the agent of the company surrendered its certificate of authority, and on the 5th instant published the withdrawal of the company from this State.

J. W. FOARD,
Insurance Commissioner.
